Action Taken: On 1/2/13, this Detective contacted the Office of Victim Services (OVS), 225 Spring Street, Fourth Floor, Wethersfield, CT, and was directed to Rachel McKnight, Claims Supervisor for the Judicial Branch of OVS, regarding information that could be given to the families of any children that were physically present at Sandy Hook Elementary School on 12/14/12.

McKnight advised this Detective that some families may have been given the wrong forms to fill out on 12/14/12, and subsequently forwarded the correct form that the families should be submitting via e-mail to this Detective.

The correct application form, sent by McKnight, was the "Non-Relative Child Witness to Domestic Violence Compensation Application." It was explained to this Detective that one application for each child in a family that was present at S.H.E.S. on 12/14/12 should be prepared and submitted, and that OVS may help pay for up to $2,000 for out-of-pocket counseling expenses and/or prescription costs not covered by insurance. McKnight also attached a copy of a letter explaining the application and clarifying which sections would need to be filled out by the applicants (see attached.)

It was further explained to this Detective that OVS compensation does not cover emotional trauma normally, and regularly would only cover physical or bodily injury, and that they were stretching their standard practice to include coverage for all of the students under a domestic violence canopy for this particular case. As a result, it was explained that as a result of this, they are not able to cover any expenses for parents such as missed work days or reimbursement as a result, which they would normally consider.

Copies of the application were e-mailed on 1/2/13 to 01 02 03 12, parent of a surviving child from Miss Soto's class, with the request that she forward the information to the parents of the other survivors, all of whom she is in communication with (see attached email).

That on 12[redacted]/12 at approximately [redacted] hours, I responded up to the firehouse to get changed for a wake for victim/ [redacted]. I assisted in this process as [redacted] was the family liaison and had been working 18-20+ hours/day for over a week. [redacted] as the [redacted]. At approximately [redacted] hours, we met at the residence of [redacted] in Newtown. A significant police presence was formed by Woodbridge, Stamford, State Police and others for this escort.

We arrived at [redacted] and assisted however we could during this difficult time. During the services, Tfc. J. O'Connor #1036 asked me if he could bring his K-9 inside the church for the kids. Tfc. O'Connor had previously used his K-9 with the kids the night before. I advised him to bring the K-9 inside the crying room (rear of church). He did so and brought such joy to the kids of this family. From siblings to cousins they were all enamored. The parents appreciated this gesture of kindness also as they could focus on each others needs and not chase their kids around the church. After 5+ hours of people coming to the wake, it ended.

On 12[redacted]/12 at approximately [redacted] hours, we met again at [redacted] to attend the Mass /Funeral for [redacted]. We attended with Respect for this damaged family. Many Officers stayed for the Mass and provided security for the family to grieve privately. The services lasted for over 1 hour. [redacted] arrived on scene to escort [redacted]

On 12[redacted]/12 at approximately [redacted] hours, Tfc. O'Connor #1036 & I met the Funeral Home [redacted]. We escorted the caravan from this area to [redacted]. Prior to [redacted], we stopped at [redacted] for a brief rest as the children needed to use a bathroom. During our escort we had numerous local police departments [redacted] assist in the escort and clear our path to lay [redacted] to rest. The following Departments assisted in this escort [redacted]

During the early afternoon hours on December 14, 2012, I was assigned to act as the liaison trooper with the parents of [redacted] presumably one of the victims of the Sandy Hook Elementary shooting. I was instructed to obtain a physical description of [redacted] which would aid in identifying her as one of the victims. Furthermore, I was instructed to act as a reference or conduit with regards to questions the [redacted] may have regarding the ongoing investigation and tend to the families personal needs.

At approximately 13:35 hours I introduced myself to [redacted]. I informed them I had been assigned as their law enforcement liaison and explained my duties. Subsequently, I obtained a physical description of [redacted] and obtained a description of the clothing she wore. [redacted] provided the following information: [redacted]. She is a first grade student in Amanda D'Amato's class. (See original notes attached)

At this time I inquired if either [redacted] had a photo of [redacted] that they could e-mail me. [redacted] located a photograph on his cell phone and e-mailed it to my assigned FBI e-mail account. The photograph depicted [redacted] sitting on a tire swing (see printed copy attached).

Captain Fusaro subsequently re-assigned me to assist Major Crime at the school crime scene and act as a forward crime scene liaison with the established command post.

I informed [redacted] of my newly assigned duties. I introduced them to [redacted], who would assume the liaison activities.

On December 14, 2012 at approximately 21:00 hours Sgt. Covello, Major Crime, inquired if I could obtain Department of Motor Vehicle (D.M.V.) license photos of the adult victims involved in the Sandy Hook Elementary School shooting.

I subsequently placed a request with the Connecticut Intelligence Center (CTIC) to obtain D.M.V. license photographs of the following individuals:

1. Ann Marie Murphy, DOB: 07/25/1960
2. Lauren Rousseau, DOB: 06/08/1982
3. Rachel Davino, DOB: 07/17/1983
4. Victoria Soto, DOB: 11/04/1985
5. Dawn Hochsprung, DOB: 06/28/1965

CTIC subsequently fulfilled my request and e-mailed D.M.V. license photographs of the aforementioned victims. Printed photographs were delivered to Sgt. James Thomas, Major Crime, who was in the temporary mobile morgue conducting victim identifications. (See attached printed DMV license photographs of victims) I subsequently aided in the identification of Dawn Hochsprung who was personally known to me.

NEWS RELEASE

FOR IMMEDIATE RELEASE -- JANUARY 2, 2013

Toll-Free Number Established For Offers Of Help For Newtown

A toll-free number has been established to make it easier for people to call with offers of help to the community of Newtown, Connecticut. The toll-free number – 855-364-6600– will be staffed by local Newtown volunteers and supported by the United Way of ~~Connecticut state 2-1-1~~ Infoline.

The toll-free number was established to assist local officials who were being flooded with phone calls and emails from people asking how they could help Newtown in its time of crisis.

A call center organized by the Newtown Volunteer Task Force, a local citizen's group led by Kevin and Robin Fitzgerald, will handle the toll-free calls from people offering assistance, as well as follow-up directly with those people who called local officials and organizations offering help in the first week of the tragedy at Sandy Hook Elementary. "We have had so many people from around the country and the world offering to help our Newtown community, and their generosity is overwhelming and deeply appreciated," said Mr. Fitzgerald. "We hope this toll-free number and local call center will make it easier for people to contact our community and to direct them on the best way they can help."

People calling the toll-free line can talk to someone who will take information on their generous offers of time, gifts, services, skills and money. The volunteer task force will help connect those offers of assistance to those in Newtown, including local officials, who are working with appropriate organizations and the families of victims to ensure that the offers of assistance will have the maximum benefit for those in need. People also are encouraged to visit the town website, http://www.newtown-ct.gov, to view current information and guidance from the town on donations. Please visit http://www.uwwesternct.org to learn how United Way is helping.

People interested in volunteering at the call center or for local activities to support the Newtown community can call the toll-free number or send email to volunteer@newtownvolunteers.org. Information also can be found at http://www.newtownvolunteers.org.

Newtown officials recently asked that no more in-kind gifts be sent to the town. Instead, people are encouraged to donate to needy children and families in their own communities in honor of the victims of the Sandy Hook Elementary School shooting. People also are encouraged to share information, photos and videos on what they are doing in their communities at the Newtown Volunteer Task Force Facebook page at http://www.facebook.com/pages/Newtown-Volunteer-Task-Force/322113667902426?ref=ts&fref=ts

Fitzgerald noted that the call for volunteers has received a tremendous response from people in Newtown and the surrounding area. People from all walks of life, from many, many organizations, and all political affiliations are signing up with the volunteer task force as another way to help the community. He noted that the support of town and school officials has been essential to the volunteer effort.

NEWS RELEASE

FOR IMMEDIATE RELEASE -- JANUARY 2, 2013

Toll-Free Number Established For Offers Of Help For Newtown

A toll-free number has been established to make it easier for people to call with offers of help to the community of Newtown, Connecticut. The toll-free number – 855-364-6600– will be staffed by local Newtown volunteers and supported by the United Way of ~~Connecticut state 2-1-1~~ Infoline.

The toll-free number was established to assist local officials who were being flooded with phone calls and emails from people asking how they could help Newtown in its time of crisis.

A call center organized by the Newtown Volunteer Task Force, a local citizen's group led by Kevin and Robin Fitzgerald, will handle the toll-free calls from people offering assistance, as well as follow-up directly with those people who called local officials and organizations offering help in the first week of the tragedy at Sandy Hook Elementary. "We have had so many people from around the country and the world offering to help our Newtown community, and their generosity is overwhelming and deeply appreciated," said Mr. Fitzgerald. "We hope this toll-free number and local call center will make it easier for people to contact our community and to direct them on the best way they can help."

People calling the toll-free line can talk to someone who will take information on their generous offers of time, gifts, services, skills and money. The volunteer task force will help connect those offers of assistance to those in Newtown, including local officials, who are working with appropriate organizations and the families of victims to ensure that the offers of assistance will have the maximum benefit for those in need. People also are encouraged to visit the town website, http://www.newtown-ct.gov, to view current information and guidance from the town on donations. Please visit http://www.uwwesternct.org to learn how United Way is helping.

People interested in volunteering at the call center or for local activities to support the Newtown community can call the toll-free number or send email to volunteer@newtownvolunteers.org. Information also can be found at http://www.newtownvolunteers.org.

Newtown officials recently asked that no more in-kind gifts be sent to the town. Instead, people are encouraged to donate to needy children and families in their own communities in honor of the victims of the Sandy Hook Elementary School shooting. People also are encouraged to share information, photos and videos on what they are doing in their communities at the Newtown Volunteer Task Force Facebook page at http://www.facebook.com/pages/Newtown-Volunteer-Task-Force/322113667902426?ref=ts&fref=ts

Fitzgerald noted that the call for volunteers has received a tremendous response from people in Newtown and the surrounding area. People from all walks of life, from many, many organizations, and all political affiliations are signing up with the volunteer task force as another way to help the community. He noted that the support of town and school officials has been essential to the volunteer effort.

Fitzgerald thanked local Newtown businessman Peter D'Amico for providing office space for the local volunteer support and call center, and AT&T, Best Buy, CDW, Charter Communications, Verizon, and Quill.com for providing telecom and Wi-Fi infrastructure and equipment and office supplies. He also thanked the United Way of Connecticut state 2-1-1 Infoline, which is supporting the work of local volunteers by handling calls to the toll-free line on a 24-hour basis. He credited officials of the American Red Cross, the United Way of Western Connecticut, The Network Support Company, and the State Division of Emergency Management and Homeland Security with providing critical guidance and expertise in helping to establish the toll-free number, and the local volunteer call center to support it in coordination with the 2-1-1 service.

ACTION TAKEN: On 12/14/12 while on scene at Sandy Hook Elementary School, where a school shooting had just occurred, I was asked by Sgt Van Ness #138 to meet with the D'Avino Family. The D'Avino Family arrived at the Sandy Hook Firehouse sometime after 3:00 PM to attempt to locate Rachel D'Avino.

I was informed by her family that she had recently began a job at the school, approximately a week and a half prior. They were pretty confident she was in the school that day, and that they could not make contact with her. They provided me with her vehicles registration and I located the vehicle in the main parking lot in front of the school. After I confirmed this with her family I obtained a detailed description of her, as well as a photograph, which I provided to Cpt Hourigan #028.

Later in the evening, prior to making death notifications, I provided Tpr Koeppel #1441 with the family's names and contact information as she was to make the death notification of Rachel D'Avino.

This Officer was assigned by the Connecticut State Police to assist the [redacted] family whose daughter [redacted] was murdered the morning of December 14th, 2012 inside the Sandy Hook Elementary School in Newtown Connecticut. As part of my duties to assist the family I was given the task of returning the child's belongings retrieved from inside the classroom to her mother and father. On 12/27/2012 I received that property from the Connecticut State Police Troop A, Southbury, CT. The items given to me were obtained by the State Police on December 18th, 2012 during the course of their investigation. (case No. 12-00704559)

I advised the [redacted] family that I had possession of their daughter's personal belongings and offered to give it to them. Given the situation, the [redacted] family told me they were not ready to receive the items and requested I hold on to it for them until the time was right. I agreed and secured the belongings. I am currently awaiting further direction from the family at this time.

ACTION TAKEN: On 12/14/12 at approximately 1330 hours, I was assigned by the Troop 'C' desk person, TFC Taylor (#0838), to respond to the scene of a school shooting that occurred earlier on this date at the Sandy Hook Elementary School located at 12 Dickinson Drive in the Sandy Hook section within the Town of Newtown, CT. Additional Troop 'C' personnel from the day shift were also assigned to respond to the school.

Upon arrival to the area, I went to the Sandy Hook Volunteer Fire Department located at the intersection of Riverside Road and Dickinson Drive in the Sandy Hook section of Newtown, which was in close proximity to the school. Numerous police and fire department members were present as were numerous family members of children and adults unaccounted for from within the school.

I was assigned to be a family liaison by Major Hyatt (#0014) and Captain Hourigan (#0058). I was assigned to the family of [redacted]. [redacted] had been assisting the parents, [redacted], prior to my arrival. [redacted] I would be in contact with the family for the next few days assisting them with anything that they needed as this incident's aftermath unfolded. The [redacted] family did not ask for very much assistance and grieved privately with family members within their residence.

On 12/21/12 at approximately 1230 hours, I met with Lt. Sticca (#0070) at the Sandy Hook Volunteer Fire Department regarding returning personal property retrieved from the school belonging to [redacted]. I was directed to obtain the property from within the school from WDMC squad detectives. I was given two boxes containing items. One box was personal belongings and the other was school work recently completed by [redacted] I was informed to have a family member sign the JD-CR-18, Property Seized w/o a Search Warrant, form and return it to the office

On 12[redacted]12 at approximately [redacted] hours, I met with [redacted]. I was to attend a memorial service being held for [redacted] at the church. [redacted] signed for the property of [redacted] were not going to be attending the service. The signed JD-CR-18 was subsequently sent to the WDMC squad via inter-departmental mail and is attached to this supplemental report.

On 01/21/13 at approximately 1315 hours, I left a holiday ornament at [redacted] residence that was donated by the Federal Fraternal Order of Police Association. All victim families affected by this incident were given the ornament as well as a vehicle sticker. The items were left in the family's mailbox out of respect for their privacy.

Action Taken: On 2/6/13, this Detective met with New Haven based United States Postal Inspector Jason Bourdeau at the Troop A barracks, 90 Lakeside Road, Southbury, regarding the ongoing investigation.

Bourdeau gave this Detective a piece of mail which had been observed by postal staff to have a return address indicating that it may have been written by one of the victims of the Sandy Hook Elementary School shooting on 12/14/12. It was explained that the envelope had filtered through the mail stream until it was observed by another postal employee who recognized the surname as being the same as one of the deceased victims and pulled the mail for further inspection. Upon determining that the envelope had been mailed by one of the deceased S.H.E.S. students, it was flagged for return to the family and turned over to the CT State Police.

The aforementioned piece of mail was given to the assigned CSP family liaison, 01 02 [redacted] who turned it over to the family at their residence on 2/6/13.

The status of the case remains actively under investigation.

Action Taken: On 2/6/13, this Detective received a telephone call from [redacted], regarding the ongoing investigation.

[redacted] requested assistance in attempting to locate the jacket that [redacted] had worn to school on 12/14/12, and described it as being a [redacted] style jacket that he had purchased for [redacted] described [redacted] other clothing that day, and advised that he would like all of [redacted] clothing returned to him, if possible, inclusive of the jacket if it is located. This Detective advised [redacted] that all jackets and coats that could be returned had already been turned over, and that if it had not been returned with [redacted] property, then it was possible that it had been contaminated and was destroyed. [redacted] stated that he had gotten [redacted] backpack back, and was unsure why the coat would have been contaminated but not the backpack, as he knows the students to hang their coats underneath their backpacks in the classroom. [redacted] asked if it was possible that [redacted] had been wearing the jacket at the time of the shooting, and was advised that since the property receipts for the victim's clothing had not yet been received, that it was a possibility. This Detective agreed to attempt to locate the jacket and stated that she would get back to [redacted] with an answer.

This Detective contacted Detective Karoline Keith #533 regarding [redacted] clothing seized from the scene, and learned that the jacket described by [redacted] was not included in [redacted] property.

This Detective spoke with Detective Allegro #950 about the process associated with packing up the decedent's belongings and was advised that in one of the two classrooms many of the jackets were stored inside the backpacks due to a lack of space in the classroom, and that it was possible that the jacket was in [redacted] book bag, but that the description of the jacket is not one that he is familiar with having seen. Detective Allegro advised that when he and several other State Police Detectives took over the process of handling the decedent's property within the classrooms, much of the property that was determined to be not salvageable had already been removed, and that he and the other Detectives cleaned what they could and went as far as to cut away any contaminated edges or corners on the children's art or school work so that it could be boxed up and returned to the

This Detective contacted [redacted] via telephone and relayed the information. [redacted] stated that he had looked inside [redacted] backpack only quickly, and would do so again, but was fairly confident that the jacket was not inside. [redacted] also inquired about whether or not there were any bullets or fragments removed from [redacted] at autopsy and was advised that this Detective would find out.

This Detective contacted Detectives from the WDMC Van Unit regarding whether or not there were any evidence items removed from [redacted] at the Office of the Chief Medical Examiner's office and was told that there were no additional exhibits associated with [redacted] from the autopsy. This Detective contacted [redacted] and relayed that information.

The status of the case remains actively under investigation.

ACTION TAKEN: On Friday December 14th, 2012, while at the Sandy Hook Fire Department (Command Post), this Detective assisted Major Warren Hyatt #014 in compiling a comprehensive list of students who were currently assigned to 1st Grade Classrooms at the Sandy Hook Elementary School, more specifically, Classrooms #8 (D'Amato) and #10 (Soto).

Newtown Board of Ed. Letter Regarding Victim's Property

Action Taken:

During the course of this investigation it was learned that the Newtown Board of Education was in possession of some of the victim's personal items from Sandy Hook Elementary School. The WDMC was unaware of this and asked that they, specifically Superintendent Janet Robinson, compile a list of items in possession of the Board of Ed. so WDMC detectives could notify the families of the recovered property.

On 03/11/13, I spoke with Dr. Robinson's secretary Kathy June who stated that the Newtown Board Of Ed. did not have any further items in their possession to return to the victim's families. On 04/02/13, at my request, Dr. Robinson followed -up my request with a letter reiterating such. (See attached).

SUPPLEMENTAL REPORT: S.H.E.S. Student Personal Property Recovery and Return Process

==

ACTION TAKEN: On Monday, December 17th, 2012, this Detective was tasked by Western District Major Crime Squad (WDMCS) Supervisor, Sergeant Michael DeCesare #205, to assist him with salvaging, sorting, decontaminating, and ultimately preserving any/all personal property identified as belonging to the victims (children and adults) of the Sandy Hook Elementary School shooting. CSP Sergeant Eric Dency #271 and WDMCS Detective Raymond Insalaco #748 also assisted with the retrieval of items. The area(s) of concentration were 1st Grade Classrooms #8 (D'Amato) and #10 (Soto) where the majority of casualties had been sustained. Conference Room (#9), which was located directly across from Classrooms #8 and #10, was utilized to accomplish this assignment. This process lasted throughout the week and concluded on Friday, December 21st, 2012 at 1700 hours per the direct order of Western District Major Crime Squad Commanding Officer, Lieutenant David DelVecchia #034. The S.H.E.S. was released to the Town of Newtown / Board of Education / Newtown Police Department at that time.

PROPERTY RECOVERY PROCESS: The personal property recovered consisted of children's jackets, coats, hats, gloves, lunch sacks, thermoses, backpacks, and book bags. These items were gathered, cleaned, and packaged with the utmost care. Ownership of some items was easily determined, as the child's name or initials had been either handwritten on the interior collar tag or a form of personalization (i.e. name stitched by the manufacturer) was visibly present on the exterior. In the cases where ownership was not easily determined, those items were grouped together for later dissemination as they were identified.

Additional property collected consisted of the individual child's desk contents. These items were also gathered, cleaned, and packaged with the utmost care. The contents ranged from standard school supplies (i.e. pencils, pens, crayons, markers, rulers, and notebooks) to special folders that

were uniquely decorated to reflect the child's individual personality, exclusive interests and/or extra-curricular activities they were involved in, hobbies, family members, close friends, memories, and most notably their future aspirations, all of which were captured in the form of handwritten notes and small pictures entitled hopes and dreams. The children's individual artwork that decorated the classrooms and any craft projects that were displayed were also collected. Ultimately, any items the above-noted personnel were able to salvage that may hold or possess any kind of sentimental value to the victim or their families were gathered, cleaned, and packaged to be returned.

PROPERTY PACKAGING PROCESS: Depending on the amount of each child's personal property, it was packaged into either one (1) or two (2) banker-size boxes with lids and labeled on the exterior with their name, classroom, and grade. A JD-CR-18 (Property Seized Without a Search Warrant) form was completed for each individual child's property to be utilized for tracking purposes. A general summation of the contents is listed below:

BOX ONE (1) - contained the individual child's desk contents (i.e. school supplies, notebooks, folders, reading books, projects, etc...)

BOX TWO (2) - contained the child's jacket, coat, hats, gloves, lunch box/sack, thermos, and backpack (if easily identified)

***NOTE: Each individual box's contents contained a fairly equal combination of the above-noted items, however, due to the conditions of the environment from which the items were retrieved from, not all of the contents within the boxes are exactly identical.

INITIAL PROPERTY RETURN PROCESS:
Due to the extreme compassion required during this assignment, a mutual decision was made by Sgt. DeCesare and Lieutenant Mark Sticca #070 to utilize the Family Liaison Officer (FLO), Troopers/Officers already assigned to the victims' families, to facilitate the property return process. Prior to taking possession of the property, this Detective and/or Sgt. DeCesare instructed the FLO to sign the first page of the original JD-CR-18 that accompanied the property to document its release. After doing so, the FLO would bring the property along with the "yellow" Return Compliance page of the JD-CR-18 to the victims' family's residence. The yellow page would then act as a receipt where an immediate family member or the family designee, who physically took possession of the property, would be able to sign for it. The FLO would then return the yellow page to either this Detective or Sgt. DeCesare where it would be paired with the original JD-CR-18, thus completing the property return process.

At the conclusion of this assignment, the Conference Room (#9) was left completely empty of personal property. All furniture in the room was also

removed by assigned moving company personnel. Any packaged property that had not been returned to the victims' families as well as any property where ownership had yet to be determined, was transported to Troop A in Southbury and secured within the WDMCS-A office on 12/21/2012. This Detective did not assist any further with dissemination or coordinating the return of the remaining property.

This Detective was tasked by Sgt. DeCesare to complete a comprehensive report detailing this assignment and the return of the property. However, approximately one-month later, this Detective was advised by WDMCS-A that each individual FLO would be completing a separate Property Return report documenting his/her involvement and to forward all original JD-CR-18s to WDMCS-A.

***NOTE: Please refer to individual FLO Property Return reports for any additional details.

Information pertaining to autopsy reports and contact information for Dr. Wayne Carver at the Office of the Chief Medical Examiner's Office was relayed.

There was discussion amongst those present pertaining to upcoming visits for surviving student family members as well as staff and faculty. The family members that expressed their opinions regarding the upcoming visits overwhelmingly advised that they have no issue with those that were present at the school on 12/14/12 visiting the school in the near future, as long as there are strict rules enforced regarding those that are given access to the locked hallway where the shooting occurred. The decedent families expressed that they have no issue with parents or a teacher assigned to their child's classroom being afforded the opportunity to visit that particular classroom, but did not wish for those parents or that teacher to have access to the other classroom, meaning the parents of the Room 10 survivors will be given access to Room 10 only, and the Room 8 survivor parents and teacher will be given access to Room 8 only. The families also advised that they do not feel that any other parties, regardless of what commission or party they are representing, need to have access to the hallway or classrooms where the shooting took place.

The families reiterated some of their concerns pertaining to Freedom of Information requests and heard from SA Sedensky regarding the bill proposal he has sent up to the Legislature.

Additional information and facts pertaining to the investigation were verbally provided.

There were several questions asked and answered by the friends and family members and Lt. DelVecchia prior to the completion of the meeting.

The status of the case remains actively under investigation.

A moment of silence in memory of those lost in the tragedy at Sandy Hook Elementary was held.

Information pertaining to autopsy reports and some of the experiences that family members have had in dealing with the Office of the Chief Medical Examiner's Office were discussed. Some questions pertaining to a temporary morgue loaned to CSP by New York were answered, and some concerns pertaining to Dr. Carver's retirement and confidentiality clauses were talked about.

There was continued discussion amongst those present pertaining to upcoming visits for surviving student family members as well as staff and faculty. The family members again expressed their opinions regarding the upcoming visits and reiterated their wishes regarding those that are given access to the locked hallway where the shooting occurred. The families reiterated that they do not feel that any other parties, regardless of what commission or board they are representing, need to have access to the hallway or classrooms where the shooting took place, with the exception of

those who need access for the purposes of the pending demolition.

There was discussion regarding the potential release of the 911 calls from the shooting, and a pending request that was made for the release of the calls by the Associated Press on 12/14/12, and is the farthest along on the appeal process. The AP request is specifically for the 911 calls that were taken by Newtown PD on that day. The best course of action regarding the request was discussed amongst the families.

Additional information and facts pertaining to the investigation were verbally provided, to include specific information regarding oversights, dispatch issues, and police response and/or the lack thereof or late arrival of some officers working construction in the town at the time of the shooting.

The newly reported time frames for the "final report" were discussed and clarification was given regarding what is potentially realistic for the amount of work that still needs to be done.

US Attorney Dierdre Daly spoke of the status of some cases being followed up federally, with a sentencing for one woman arrested for fraud scheduled for the Fall of 2013. Family members were advised that they had the right to speak at or write to the Judge prior to sentencing if they so desired.

An offer has been extended to the decedent families by LifeLock, and the information was given out pertaining to that program.

Rumors regarding the termination of the security at SHES were discussed, and Lt. Robinson of Newtown PD relayed to the families that he had heard nothing about the pending cancellation of the security company until the school was demolished and believed that there was no plan to leave the school without a guard.

There were several other questions asked and answered by the friends and family members and Lt. DelVecchia prior to the completion of the meeting.

The status of the case remains actively under investigation.

Family Meeting Report

([redacted] of Lauren Rousseau- 1/24/13)

Action Taken:

On 1/24/13, this Detective and Detective Jewiss #336 responded to [redacted] CT, for a prearranged private meeting with [redacted] Lauren Rousseau. Upon arrival, this Detective was advised that despite having been invited to attend, that Lauren's [redacted] had chosen not to attend due to the fact that they believed that the [redacted] might want to know more information than they are comfortable knowing at this time. Present for the meeting were the following persons:

[redacted]

Additionally, Lauren has a [redacted], who currently resides in [redacted] and could not be present for the meeting.

[redacted] had not been present at the Group Family Meeting on 1/15/13, and therefore had not yet received much of the information provided by the State Police during that meeting.

[redacted] inquired about where Lauren's car had been parked in the school lot, as it had been struck multiple times by bullets believed to have passed through the front windows of the school, and asked if Lauren's had been the only car struck.

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAININGTO THIS INCIDENT NUMBER. THAT THE INFORMATION CONTAINED THEREIN WAS SECURED AS A RESULT OF (1)MY PERSONAL OBSERVATION AND KNOWLEDGE: OR (2)INFORMATION RELAYED TO ME BY OTHER MEMBERS OF MY POLICE DEPARTMENT OR OF ANOTHER POLICE DEPARTMENT:OR (3)INFORMATION SECURED BY MYSELF OR ANOTHER MEMBER OF A POLICE DEPARTMENT FROM THE PERSON OR PERSONS NAMED OR IDENTIFIED THEREIN, AS INDICATED IN THE ATTACHED REPORT. STATE OF CONNECTICUT, DEPARTMENT OF PUBLIC SAFETY- INVESTIGATION REPORT (DPS-302-E) (REVISED 2/3/06)

04 [redacted] were provided with the following information:

-the location of Lauren inside her classroom
-timeline of events (dated 1/15/13)
-some background history of the shooter and information pertaining to the weapons owned by the family and carried on his person or in his vehicle that day
-information received from the surviving victims and teachers regarding what they recalled from the classrooms that day
-family support form
-office of victim services benefits letter (dated 1/15/13)
-family related services packet (dated 1/14/13)
-I.R.S. SSN Protection Memo

04 [redacted] advised that when the death notification was done to them, it was done poorly with the wrong information, and that they had Lauren's date of birth wrong and thought that she was 04 [redacted], but cited that they did not believe it was the fault of the Trooper assigned to complete the task, rather the fault of whomever gave him the information. 04 [redacted] further stated that their initial liaison Trooper lived so far away that she had been sent home and therefore was not the one assigned to make the notification, despite the fact that they had already formed a connection to her. 04 [redacted] believed that having Troopers from so far away interfered with their ability to provide proper support to the family.

04 [redacted] indicated that they did not believe that they would like to have Lauren's clothing returned to them, and stated that they had given her jacket to her best friend after it was returned to them.

04 [redacted] indicated that at this time they did not wish to schedule a walk-through of the school.

04 [redacted] consented to allowing other decedent and victim family members to know where Lauren was inside the classroom.

The status of the case remains actively under investigation.

(Victims' 24-Hour Backgrounds - Not Done)

ACTION TAKEN:

A standard investigative procedure during CT State Police homicide investigations is to conduct 24-hour backgrounds on all decedents. This investigative step will not be conducted in this investigation due to the high number of victims, the traumatic impact that it might have on their family members and because the actions of the victims leading up to the event are not suspected to have had any critical relevancy to the event itself.

Action Taken: Between 6/5/13 and 6/9/13, the parents of nine of the twelve surviving first grade students from either Room 8 or Room 10 at Sandy Hook Elementary School were given the opportunity to visit the classroom that their child was in at the time of the shooting.

The decision to facilitate the aforementioned visits was made collectively with the families of the decedents as well as the input from a consulting critical incident team coordinator, so that the surviving families could have a better understanding of what their child saw and experienced, and could hopefully assist their child in processing and working through the incident to obtain closure.

All of the parents present were previously briefed about the status of the investigation and had been provided with the factual information that could be shared at that time.

The status of the case remains actively under investigation.

Private Meeting and School Visit Report

([redacted] Rachel D'Avino)

Action Taken: On 5/24/13, at approximately 0800 hours, this Detective, Newtown Police Officer Jeff Silver and Detective Jewiss #336 met with [redacted] at the Sandy Hook Elementary School, 12 Dickinson Drive, Sandy Hook, CT, for a prearranged school visit.

[redacted] relayed that because Rachel was new to the school and not from the area, they were not initially aware that she was at all involved with the shooting until Rachel's boyfriend told them that Sandy Hook was a part of Newtown, and was, indeed, the school that she was currently working at.

[redacted] was present for the initial Group Family Meeting, and had therefore received some of the investigative information that had been presented to date. Detective Jewiss and this Detective subsequently provided the family with, in part, the following information:

-updated timeline information
-information specific to Rachel and the location where she was found
-information about where the other persons within the classroom where located, as permitted for release by the decedent and survivor families
-some general background information about the shooter and his family
-information about the condition of the classrooms as they were found at the time of the police response
-information about where the gun safe was located within the residence
-clarifying information about whether or not [redacted] was with Rachel

-information about where the shooter parked, how he gained entry to the school and his path of travel once inside the building. It was explained that the order of rooms which the shooting had occurred in was still unknown at this time

04 were afforded some time to reflect privately within classroom 8 prior to clearing the school, and were provided with a copy of a letter with contact information for the IRS in the event that any suspicious activity linked to Rachel's social security number or identity is observed.

The status of the case remains actively under investigation.

[redacted] had already had a private meeting with this Detective and Detective Jewiss, and continue to be very involved with their assigned State Police Liaison, [redacted] who filters information to the family as they request it. Due to the fact that the [redacted] are already aware of much of the investigative information pertaining to the school shooting, they did not request any additional details or clarification at that time.

The [redacted] were shown where [redacted] body was found within classroom 10, and were then afforded some time to reflect privately inside the classroom prior to clearing the school.

School Visit- Natalie Hammond

Action Taken: On 5/7/13, this Detective, Detective Jewiss #336 and Newtown Police Officer Jeff Silver responded to Sandy Hook Elementary School, 12 Dickinson Drive, Sandy Hook, CT, for a prearranged school visit.

Present for the visit were the following persons:

-shooting victim Natalie Hammond and [redacted] 04
-SHES teacher [redacted] 04

Hammond was offered some clarifying information regarding some questions she had during the visit.

Hammond stated, in part, that she recalls hearing shots being fired at the time that she was struck, but could not make any distinction as to where the shots were coming from, only that they were being shot within close proximity to her based upon the noise.

Hammond stated that she recalls that the shooting was sometimes rhythmic and steady in its cadence, but that at times there were pauses in the sound of the shots, interspersed with the noises that Hammond associates with the shooter reloading and changing clips.

Hammond stated that she initially heard the sounds of children screaming, but that it stopped at some point, and advised that she believes that the screaming was associated with the children that were running out of the building. Hammond stated that she recalls that during the majority of the shooting, the building was eerily quiet with the exception of the sound of the gunshots.

Hammond was brought to the back of the school where her office and old classroom were located prior to clearing the school.

The status of the case remains actively under investigation.

[redacted] had attended the Group Family Meeting held on 01/15/13 and therefore had received the information that was directly provided by the State Police during that meeting (refer to Group Family Meeting Report).

In this private meeting, Det. Van Ness and I told [redacted] where Vicki was found by 1st responders. We also explained that we were not disclosing any information about any one specific victim until we had met privately with that family and provided that information to them first and received their approval to share that information with other families. [redacted] did not approve to the release of Vicki's location information. We also informed [redacted] that unfortunately the earlier media reports of Vicki's actions were not truthful. We advised them that there was no information, based upon the physical evidence and the statements of the children survivors, that Vicki was able to do any of those things. We told them that she was most likely one of the first persons shot in that classroom and it appeared that they were taken by surprise and therefore, there just wasn't any time for her to hide the children anywhere. In addition, we asked that all the information that we discussed be kept in confidence especially since a majority of it had not been disclosed publicly. We also provided [redacted] with the I.R.S. SSN Protection Memo.

[redacted] had several questions including where specifically were Vicki's injuries? Det. Van Ness and I explained to [redacted] that we did not have any personal knowledge of her specific injuries, nor had we received any of the Medical Examiner's autopsy information. We provided them what we could based off of the damage to Vicki's clothing. [redacted] seemed to have more knowledge then we did from information he received at the funeral home. Det. Van Ness and I also answered several other questions the best we could at that time and also told [redacted] that we would get back to them with additional information.

[redacted] had already indicated that they wanted to visit the Sandy Hook Elementary School. They further stated that they wanted Vicki's clothing returned and they also asked about any of Vicki's property from the school, most importantly her books, which we said we would check on. Det. Van Ness and I provided them with our contact information before departing at approx. 1400 hrs. The information from this meeting was then tracked on the Family Folder Checklist in their individual Family Folder.

-Family Meeting Report-

[redacted]

Action Taken: On 3/20/13 at approximately 1330 hours, this Detective and Detective Jewiss #336 met with [redacted] at the Sacred Heart Church, Southbury, CT, for a prearranged private meeting regarding their daughter, [redacted]

[redacted] advised that they had heard information pertaining to some leaked details of the investigation and had been getting inundated with media requests for the comments on the new information, which they knew nothing about. The [redacted] were advised of the true circumstances and condition of the information and details that were leaked. The difference between information seized on the state level versus information that was seized federally, and why it could not and should not be disclosed was explained to the [redacted].

This Detective and Detective Jewiss discussed some of the theories that were circulating pertaining to the shooter, inclusive of him reportedly being a "gamer" and having a video game mentality throughout the incident. It was explained to the [redacted] that all of these theories were not proven or necessarily supported by the statements and evidence that had been collected to date.

The [redacted] had been present at the first of the informational group family meetings, and had therefore already received much of the investigative information. The [redacted] were provided with, in part, the following information:

-information about the shooter's medical records and the potential release of them by his father
-information about the shooter and any relationships he had with others, inclusive of any known friends and his own mother

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAININGTO THIS INCIDENT NUMBER. THAT THE INFORMATION CONTAINED THEREIN WAS SECURED AS A RESULT OF (1)MY PERSONAL OBSERVATION AND KNOWLEDGE: OR (2)INFORMATION RELAYED TO ME BY OTHER MEMBERS OF MY POLICE DEPARTMENT OR OF ANOTHER POLICE DEPARTMENT:OR (3)INFORMATION SECURED BY MYSELF OR ANOTHER MEMBER OF A POLICE DEPARTMENT FROM THE PERSON OR PERSONS NAMED OR IDENTIFIED THEREIN, AS INDICATED IN THE ATTACHED REPORT. THAT THE REPORT IS AN ACCURATE STATEMENT OF THE INFORMATION SO RECEIVED BY ME.

STATE OF CONNECTICUT, DEPARTMENT OF PUBLIC SAFETY-
INVESTIGATION REPORT (DPS-302-E) (REVISED 2/3/06)

-clarification of whether or not any records pertaining to the shooter's mental health would ever be released
-information about what the shooter's knowledge and frequency of use with weapons was
-information pertaining to the scene at the shooter's residence on Yogananda
-clarification of some of the rumors circulating about recent ammo or weapon purchases by the shooter
-clarification of what the case file report versus the much publicized "final report" will include and when they might potentially be released to the public
-information surrounding the Freedom of Information requests that have been made by the public and media
-information specific to [redacted] and where she was in her classroom
-information pertaining to where the other victims and the survivor from the classroom were in proximity to [redacted] as permitted for release by the respective families
-information surrounding the emergency response plan for the school/room, as well as information about what the known movements and actions inside the class actually were
-information surrounding some statements or utterances overheard by a teacher and student during the shooting, which are believed to have been made by the shooter and/or a student
-information pertaining to what the possible sequence of rooms and what information is being considered in determining the shooter's path of travel
-clarification of some of the untrue rumors that had circulated in the media early on, to include misinformation that Miss Soto had hidden children in cabinets or closets, engaged in conversation with the shooter and had shielded children with her body
-information about the condition and locations of magazines and weapons as they were found in the school

[redacted] inquired about some overhead photographs that she had seen and were purported as being of the school in which bodies behind the school could be seen. [redacted] was advised that the photographs were not authentic based upon what this Detective knew of the movement and treatment of the victims.

The [redacted] relayed some information concerning their assignment of a family liaison officer, and the fact that they initially did not have one and therefore had media personnel swarming their house. The [redacted] advised that on Sunday, 12/16/12, one was assigned to them and was able to take care of some of the issues for them. [redacted] also stated that a public relations company had volunteered to assist them through a friend of the family, and that it was a tremendous asset to them because the company helped to funnel information to and from the [redacted] and intercepted many of the attempts people were making to get in contact with them, inclusive of the media outlets.

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAININGTO THIS INCIDENT NUMBER. ---- CLOSING REPORT ----

ACTION TAKEN:

On 09/18/13, the WDMC-A office concluded the State Police investigation into the Sandy Hook School Shooting which occurred on 12/14/12. Our conclusion as of that time was that there were no co-conspirators or accessories involved with the shooting and that the shooter had committed suicide.

At his request, a complete copy of the State Police investigation, as of that date, was provided to State's Attorney Stephen Sedensky. He requested this copy of the State Police investigation to review our case file and write a summary report. Some additional investigative efforts were requested by State's Attorney Sedensky and the subsequent reports were forwarded to him upon completion.

On 11/25/13, State's Attorney Sedensky released his report, which consisted of a forty-four page narrative and a two hundred and thirty-one page appendix, which included search warrants, photos, reports, sketch maps, etc., taken from the State Police report. He also came to the same conclusion, that there were no co-conspirators or accessories (SEE ATTACHED CD-R: STATE'S ATTORNEY REPORT).

Due to the fact that all known investigative leads have been investigated and now that the State's Attorney has closed his investigation without any different findings, the State Police investigation will be closed. If new leads are developed, then this case will be re-opened and those leads will be investigated. It should be noted that there are several outstanding reports that may continue for sometime in this investigation.

Report of the State's Attorney for the Judicial District of Danbury on the Shootings at Sandy Hook Elementary School and 36 Yogananda Street, Newtown, Connecticut on December 14, 2012

OFFICE OF THE STATE'S ATTORNEY
JUDICIAL DISTRICT OF DANBURY

TABLE OF CONTENTS

APPENDIX[1]

Search Warrants

[1] Because of its volume, the Appendix to this report is published as a separate document. Some of the search warrants and reports contained in the Appendix have been redacted to meet court orders, exceptions to the Freedom of Information Act, protect the identity of witnesses, protect records of child abuse or personal identification information.

EXECUTIVE SUMMARY

The purpose of this report is to identify the person or persons criminally responsible for the twenty-seven homicides that occurred in Newtown, Connecticut, on the morning of December 14, 2012, to determine what crimes were committed, and to indicate if there will be any state prosecutions as a result of the incident.

The State's Attorney for the Judicial District of Danbury is charged, pursuant to Article IV, Section 27 of the Constitution of the State of Connecticut and Connecticut General Statutes (C.G.S.) Sec. 51-276 *et seq.*, with the investigation and prosecution of all criminal offenses occurring within the Judicial District of Danbury. The Connecticut State Police have the responsibility to prevent and detect violations of the law and this State's Attorney has worked with and relied upon the Connecticut State Police since the incident occurred.

Since December 14, 2012, the Connecticut State Police and the State's Attorney's Office have worked with the federal authorities sharing responsibilities for various aspects of this investigation. Numerous other municipal, state and federal agencies assisted in the investigation. The investigation materials reflect thousands of law enforcement and prosecutor hours. Apart from physical evidence, the materials consist of more than seven-hundred individual files that include reports, statements, interviews, videos, laboratory tests and results, photographs, diagrams, search warrants and returns, as well as evaluations of those items.

In the course of the investigation, both state and federal law enforcement personnel received a large number of contacts purporting to provide information on the shootings and the shooter. Although many times these "leads" would go nowhere, each one was evaluated and often required substantial law enforcement time to pursue. An abundance of caution was used during the investigation to ensure that all leads were looked into, despite the fact that more than 40 such "leads" proved, after investigation, to be unsubstantiated. Information that was substantiated and relevant was made part of the investigation.

It is not the intent of this report to convey every piece of information contained in the voluminous investigation materials developed by the Connecticut State Police and other law enforcement agencies, but to provide information relevant to the purposes of this report. While no report is statutorily required of the State's Attorney once an investigation is complete, it has been the practice of State's Attorneys to issue reports on criminal investigations where there is no arrest and prosecution if the State's Attorney determines that some type of public statement is necessary. Given the gravity of the crimes committed on December 14, 2012, a report is in order.

On the morning of December 14, 2012, the shooter, age 20, heavily armed, went to Sandy Hook Elementary School (SHES) in Newtown, where he shot his way into the locked school building with a Bushmaster Model XM15-E2S rifle. He then shot and killed the principal and school psychologist as they were in the north hallway of the school responding to the noise of the shooter coming into the school. The shooter also shot and injured two other staff members who were also in the hallway.

The shooter then went into the main office, apparently did not see the staff who were hiding there, and returned to the hallway.

After leaving the main office, the shooter then went down the same hallway in which he had just killed two people and entered first grade classrooms 8 and 10, the order in which is unknown. While in those rooms he killed the two adults in each room, fifteen children in classroom 8 and five in classroom 10. All of the killings were done with the Bushmaster rifle.

He then took his own life with a single shot from a Glock 20, 10 mm pistol in classroom 10.

Prior to going to the school, the shooter used a .22 caliber Savage Mark II rifle to shoot and kill his mother in her bed at the home where they lived at 36 Yogananda Street in Newtown.

The response to these crimes began unfolding at 9:35:39 a.m. when the first 911 call was received by the Newtown Police Department. With the receipt of that call, the dispatching and the arrival of the police, the law enforcement response to the shootings began. It was fewer than four minutes from the time the first 911 call was received until the first police officer arrived at the school. It was fewer than five minutes from the first 911 call, and one minute after the arrival of the first officer, that the shooter killed himself. It was fewer than six minutes from the time the first police officer arrived on SHES property to the time the first police officer entered the school building. In fewer than 11 minutes twenty first-grade pupils and six adults had lost their lives.

The following weapons were recovered in the course of this investigation: (1) a Bushmaster Model XM15-E2S semi-automatic rifle, found in the same classroom as the shooter's body. All of the 5.56 mm shell casings from the school that were tested were found to have been fired from this rifle. (2) a Glock 20, 10 mm semi-automatic pistol found near the shooter's body and determined to have been the source of the self-inflicted gunshot wound by which he took his own life. (3) a Sig Sauer P226, 9 mm semi-automatic pistol found on the shooter's person. There is no evidence this weapon had been fired. (4) a Izhmash Saiga-12, 12 gauge semi-automatic shotgun found in the shooter's car in the parking lot outside the school, and which was secured in the vehicle's trunk by police responding to the scene. There is no evidence this weapon had been fired. (5) a Savage Mark II rifle found at 36 Yogananda Street on the floor of the master bedroom near the bed where the body of the shooter's mother was found. This rifle also was found to have fired the four bullets recovered during the autopsy of the shooter's mother.

All of the firearms were legally purchased by the shooter's mother. Additionally, ammunition of the types found had been purchased by the mother in the past, and there is no evidence that the ammunition was purchased by anyone else, including the shooter.

At the date of this writing, there is no evidence to suggest that anyone other than the shooter was aware of or involved in the planning and execution of the crimes that were committed on December 14, 2012, at Sandy Hook Elementary School and 36 Yogananda Street. From the time an unknown male was encountered by the Newtown police outside of the school during the initial response, until well after the staff and children had been evacuated, the thought that there may have been more than one shooter was a condition all responding law enforcement worked under as they cleared the school. Individuals located in the wooded areas surrounding the school

as the searches and evacuations were taking place were initially treated as suspect and handled accordingly (including being handcuffed) until their identity could be determined. The circumstances surrounding all of these individuals were fully investigated and revealed no additional shooters. DNA testing of evidence recovered from both the school and 36 Yogananda Street also revealed no potential accessories or co-conspirators.

It is the conclusion of this State's Attorney that the shooter acted alone and was solely criminally responsible for his actions of that day. Moreover, none of the evidence developed to date demonstrates probable cause to believe that any other person conspired with the shooter to commit these crimes or aided and abetted him in doing so.

Unless additional – and at this time unanticipated – evidence is developed, there will be no state criminal prosecution as result of these crimes. With the issuance of this report, the investigation is closed. Should additional reliable information related to the existence of accessories or co-conspirators come to the attention of the investigators, the investigation will be reopened.[2]

In the course of his rampage the shooter committed a number of crimes in violation of our Connecticut Penal Code. The most significant are those where lives were taken and people were physically injured. In Sandy Hook Elementary School, the crime of Murder under Special Circumstances, in violation of C.G.S. Sec. 53a-54b, was committed twenty-six times and Attempted Murder under Special Circumstances in violation of C.G.S. Secs. 53a-49 and 53a-54b was committed twice as it relates to the two individuals who were shot by the shooter and survived. The crime of Murder in violation of C.G.S. Sec. 53a-54 was committed by the shooter in killing his mother.

The obvious question that remains is: "Why did the shooter murder twenty-seven people, including twenty children?" Unfortunately, that question may never be answered conclusively, despite the collection of extensive background information on the shooter through a multitude of interviews and other sources. The evidence clearly shows that the shooter planned his actions, including the taking of his own life, but there is no clear indication why he did so, or why he targeted Sandy Hook Elementary School.

It is known that the shooter had significant mental health issues that affected his ability to live a normal life and to interact with others, even those to whom he should have been close. As an adult he did not recognize or help himself deal with those issues. What contribution this made to the shootings, if any, is unknown as those mental health professionals who saw him did not see anything that would have predicted his future behavior. He had a familiarity with and access to firearms and ammunition and an obsession with mass murders, in particular the April 1999 shootings at Columbine High School in Colorado. Investigators however, have not discovered any evidence that the shooter voiced or gave any indication to others that he intended to commit such a crime himself.

[2] It should be noted that potentially important evidence, i.e., a computer hard drive recovered from the shooter's home, as of this date remains unreadable. Additional insight could be gained should efforts to recover data from the hard drive ever prove successful, which at this time appears highly improbable. It is because of this improbability, coupled with the current determination of no accessories or co-conspirators that the case is being closed.

This State's Attorney expresses his sincere sympathy and condolences to the victims of the incident of December 14, 2012, and to their families. He also expresses his appreciation for their continued patience and understanding during the course of the investigation and preparation of this report. He acknowledges and thanks law enforcement, which responded to Sandy Hook Elementary School in minutes and entered the building believing someone could be there ready to take *their* lives as well. He also acknowledges and thanks the staff of the Sandy Hook Elementary School who acted heroically. The combination saved many children's lives.

This report would not have been possible if not for the assistance and cooperation of numerous agencies at the state, local and federal levels of government. The State's Attorney expresses his sincere gratitude and appreciation to all of these agencies and to all of the men and women who contributed so much to this investigation. The assistance of federal authorities has been invaluable. Particularly worthy of special note are the men and women of the Connecticut State Police, and in particular, the Western District Major Crime Squad. The thoroughness and sensitivity with which they conducted their investigation is unmatched in my experience.

INTRODUCTION

On the morning of December 14, 2012, Adam Lanza, the shooter,[3] age 20, went to Sandy Hook Elementary School (also SHES) in Newtown, Connecticut, where he shot his way into the building and killed twenty children and six adults and wounded two other adults, all with a Bushmaster Model XM15-E2S rifle. The shooter then took his own life with a single shot from a Glock 20, 10 mm handgun. From the time the doors of the school were locked at 9:30 a.m. until the time it is believed the shooter killed himself at 9:40:03, fewer than 11 minutes had elapsed.

Prior to going to the school, the shooter used a .22 caliber Savage Mark II rifle to shoot and kill his mother in her bed. This occurred at the home where they lived at 36 Yogananda Street, also in Newtown.

With these unprecedented horrific crimes came a responsibility for an investigation to determine what crimes were committed and, more importantly, if the shooter acted alone. Any person who aided and abetted the shooter or who conspired with him had to be held accountable.

Beginning on December 14, 2012, the Connecticut State Police and the State's Attorney's Office worked in cooperation with the federal authorities sharing responsibilities for various aspects of the case. The federal involvement has been invaluable. Though some evidence is still being examined, there is no indication in the investigation by either state or federal authorities to date that the shooter acted with anyone on December 14, 2012, or had co-conspirators or accessories who could be prosecuted.

In addition to physical evidence,[4] the investigation materials contain over seven-hundred individual files that include reports, statements, interviews, videos, laboratory tests and results, photographs, diagrams, search warrants and search warrant returns as well as evaluations of those items. Investigators interviewed individuals who were present at SHES on December 14, 2012, and witnessed the incident, among them students, staff members, parents of students and neighbors. Special attention and consideration was given to the interviewing of child witnesses, given their traumatic experience. Also interviewed were police officers and other first responders who were present at SHES during the course of the incident itself and in the course of the subsequent search, evacuation of the school and processing of the scenes.

Investigators attempted to obtain as much information about the shooter's life as possible in an effort to determine the reasons or motives for his actions on December 14, 2012. Interviews were conducted with members of the shooter's family, those who knew the shooter or his family throughout his life, as well as teachers and school personnel who had been involved with him and his family over his time in Newtown.

Efforts were made within the limits of privacy laws to gather information on medical consultations and/or treatments the shooter was involved with over the course of his years in Newtown. In doing so, investigators found no evidence to suggest the shooter had taken any

[4] Over 270 evidence designations were used, many grouping related items as one number.

medication that would affect his behavior or by any means to explain his actions on December 14, 2012.

An investigation of this magnitude requires careful planning and review. The interviews took substantial time, first to identify which individuals should be interviewed and then to conduct the actual interviews. Physical evidence had to be examined and forensically reviewed. This included ballistics, fingerprint and DNA analysis. Additionally, all of the information collected had to be reviewed and summarized in written statements that have since become a part of the investigation, reflecting thousands of dedicated law enforcement and prosecutor hours.

I had been working closely with the Connecticut State Police, who conducted the state investigation, and federal law enforcement officers since December 2012. Once the investigation was delivered for my review, I took the time to read, digest, evaluate and summarize the material, mindful of the privacy interests involved and the approaching December 14, 2012, anniversary.

The federal authorities have stated that under federal law many of their reports and materials cannot become part of the public record due to rules regarding the dissemination of information obtained pursuant to grand jury subpoenas, sealed search warrants, and federal Freedom of Information law. Therefore, information obtained by federal authorities will not, for the most part, be incorporated into the Connecticut State Police criminal investigation file.

While the reports and materials will not be part of the state investigation record, such materials have been examined and considered by state law enforcement authorities. Based upon a review of all of the documentation, both state and federal, we are left confident at this time that the evidence developed to date does not reveal co-conspirators or accessories. Accordingly, as a result of the investigation to date, there will be no state criminal prosecution of anyone.

PURPOSE AND SCOPE OF REPORT

The State's Attorney's Office for the Judicial District of Danbury is charged, pursuant to Article IV, Sec. 27 of the Connecticut State Constitution[5] and Connecticut General Statutes (C.G.S.) Sec. 51-276[6] *et seq*., with the investigation and prosecution of all criminal offenses occurring within the Judicial District of Danbury. The Connecticut State Police have the responsibility to prevent and detect violations of the law and this State's Attorney has worked with and relied upon the Connecticut State Police since the incident occurred. The investigation has been

tirelessly conducted by the Connecticut State Police (also CSP) with the assistance of multiple local, state and federal agencies, both in and out of Connecticut.

While no report is statutorily required of the State's Attorney once the investigation is complete, it has been the practice of state's attorneys to issue reports on criminal investigations where there is no arrest and prosecution if the state's attorney determines that some type of public statement is necessary.[7] Given the gravity of the crimes committed on December 14, 2012, a report is in order.

The purpose of this report is to identify the person or persons criminally responsible for the twenty-seven homicides that occurred in Newtown, Connecticut,[8] on the morning of December 14, 2012, to determine what crimes were committed, and to indicate if there will be any state prosecutions as a result of the incident.

Many witnesses to this case have expressed great concern that their identities will be disclosed publicly and make them susceptible to threats or intimidation as a result of their cooperation or connection with the investigation.[9] This cooperation has been essential and greatly appreciated. As a result of the witnesses' concerns, this report will not identify lay witnesses, except where necessary.

Consistent with Public Act 13-311,[10] exceptions to the state Freedom of Information Act[11] and C.G.S. Sec. 17a-101k(a) [12] this report will not list the names of the twenty children killed in

Sandy Hook Elementary School, nor will it recite 911 calls made from within the school on that morning or describe information provided by witnesses who were in the classrooms or heard what was occurring in the classrooms.

It is not the intent of this report to convey every piece of information contained in the voluminous investigation materials developed by the Connecticut State Police and other law enforcement agencies, but to provide information relevant to the purposes of this report.

To conclude that *all* such information, including the basic facts of the incident itself is confidential would prohibit even the disclosure of the children being killed. Such an interpretation would be unworkable and is not taken here. It is concluded though that the C.G.S. Sec. 17a-101k(a) is applicable in the present case and will be applied in the manner described.

SANDY HOOK ELEMENTARY SCHOOL - INCIDENT AND RESPONSE

Incident

On the morning of December 14, 2012, the shooter parked his 2010 Honda Civic next to a "No Parking" zone outside of Sandy Hook Elementary School in Newtown, Connecticut.[13] Shortly after 9:30 a.m. he approached the front entrance to the school.[14] He was armed with a Bushmaster Model XM15-E2S rifle (also Bushmaster rifle), a Glock 20, 10 mm pistol and a Sig Sauer P226, 9 mm pistol and a large supply of ammunition.

The doors to the school were locked, as they customarily were at this time, the school day having already begun. The shooter proceeded to shoot his way into the school building through the plate glass window to the right of the front lobby doors.

The main office staff reported hearing noises and glass breaking at approximately 9:35 a.m. and saw the shooter, a white male with a hat and sunglasses, come into the school building with a rifle type gun. The shooter walked normally, did not say anything and appeared to be breathing normally. He was seen shooting the rifle down the hallway.

Just down the hallway from the main office, in the direction that the shooter was to be seen firing, a 9:30 a.m. Planning and Placement Team (PPT) meeting was being held in room 9, a conference room. It was attended by Principal Dawn Hochsprung and School Psychologist Mary Sherlach, together with a parent and other school staff. Shortly after the meeting started, the attendees heard loud banging. The principal and school psychologist then left the room followed shortly after by a staff member. After leaving the room, Mrs. Hochsprung yelled "Stay put!"

As the staff member left the room, the staff member heard gunshots and saw Mrs. Hochsprung and Mrs. Sherlach fall down in front of the staff member. The staff member felt a gunshot hit the staff member's leg. Once down, the staff member was struck again by additional gunfire, but laid still in the hallway. Not seeing anyone in the hallway, the staff member crawled back into room 9 and held the door shut. A call to 911 was made and in the ensuing moments the telephone in room 9 was also used to turn on the school wide intercom system. This appears to have been done inadvertently, but provided notice to other portions of the building.[15]

---

[13] On December 13, 2012, the student enrollment was 489. Official attendance had not yet been recorded as of 9:30 a.m. on December 14, 2012. The staff for the school is 91, but on December 14, 2012, there were nine staff members absent. The staffing was at 82 for the day.

[14] A more complete description of the school building and the front entrance starts on page A119 of the Appendix. For the purposes of this report, the front of SHES faces north.

[15] Intercom system could be accessed from nine phones located in seven rooms. These telephones and rooms were three phones in the main office, the principal's office, the nurse's office (room 57), room 9 conference room, room 29, room 32 and room 60. The "All Call" which opens the intercom to the entire school was accessed by pressing "#0" from the telephones mentioned. The All Call-except quiet rooms was accessed by pressing "#1."

At the same time the shooter was firing in the hallway, another staff member was at the far east end of the hallway near classroom 1. The staff member was struck by a bullet in the foot and retreated into a classroom.

Both Dawn Hochsprung, age 47, and Mary Sherlach, age 56, died as a result of being shot. Both wounded staff members shot in the hallway were later evacuated to the hospital and survived.

After shooting and killing the two adults and wounding the two others, the shooter entered the main office. The office staff had taken shelter in the office. They heard sounds of the office door opening, footsteps walking inside the office and then back toward the office door. Staff members heard the door open a second time and then heard more gunfire from outside the office. They called 911.

Where the shooter specifically went next is unclear. The evidence and witness statements establish the shooter went down the hallway in an easterly direction ultimately entering first grade classrooms 8 and 10. The order is not definitively known. While in classrooms 8 and 10, the shooter shot and killed four adults and twenty children with the Bushmaster rifle. Twelve children survived, one from classroom 8 and eleven from classroom 10.

The shooter finally killed himself in classroom 10 with one gunshot to his head from a Glock 20, 10 mm pistol. This is believed to have occurred at 9:40:03.[16]

Classroom 8's substitute teacher was Lauren Rousseau, age 30, who was assisted by Rachel D'Avino, age 29, a behavioral therapist. Fifteen children were found by police. Fourteen who were deceased and one who was transported to Danbury Hospital and later pronounced dead. The two adults were found deceased close to the children. In all, seventeen people were killed in classroom 8. A sixteenth child survived and exited classroom 8 after the police arrived.

Classroom 10's teacher was Victoria Soto, age 27. Working with her was Anne Marie Murphy, age 52, a behavioral therapist. Five children were found, with Mrs. Murphy partially covering one child. Four of the five children were deceased. One of the five children was transported to the hospital and pronounced dead. Miss Soto was found deceased in the room near the north wall with a set of keys nearby. Nine children had run out of the room and survived. A police officer found two uninjured children in the class restroom.

In all, eighteen children and six adult school staff members were found deceased within the school. Two more children were pronounced dead at Danbury Hospital. Two other adult school staff members were injured and were treated at nearby hospitals and survived.

The two classrooms on either side of 8 and 10 were numbered 6 and 12. Classroom 6 was on the eastern side of classroom 8 and classroom 12 was on the western side of classroom 10. Staff and students hid in the class restrooms, locking the restroom doors from the inside.

---

[16] See the time line in the Appendix starting at page A84.

Throughout the rest of the school, staff and students hid themselves wherever they happened to be at the time they became aware of gunfire. The staff used various ways to keep the children calm, from reading to having them color or draw pictures. Those hiding in rooms closest to the shooter kept silent. Some people were able to escape out of the building prior to the police arrival and went to Sandy Hook center, nearby residences, or received rides from parents going to the school or from passersby.

One staff member heard a loud crashing noise and ran toward the front lobby. As the staff member got closer, bullet holes could be seen and gun powder smelled. Realizing what was going on, the staff member immediately called 911, turned and went back down the hall from where the staff member had come. During the incident, while staying on the line with the 911 operator, this staff member sent other staff to their rooms or had them stay in their rooms and this staff member went about locking doors. The staff member remained in the hallway on the telephone with the 911 operator until the police arrived.

Response

Upon the receipt of the first 911 call, law enforcement was immediately dispatched to the school. It was fewer than four minutes from the time the first 911 call was received until the first police officer arrived at SHES. It was fewer than five minutes from the time the first 911 call was received until the shooter killed himself. It was fewer than six minutes from the time the first police officer arrived on SHES property to the time the first police officer entered the school building.

Below is an abbreviated time line from the first 911 call received to the time the police entered the school building.[17]

9:35:39 - First 911 call to Newtown Police Department is received.

9:36:06 - Newtown Police Department dispatcher broadcasts that there is a shooting at Sandy Hook Elementary School.

9:37:38 - Connecticut State Police are dispatched to SHES for active shooter.

9:38:50 - CSP are informed that SHES is in lockdown.

9:39:00 - First Newtown police officer arrives behind SHES on Crestwood Rd.

9:39:13 - Two more Newtown officers arrive at SHES and park on the driveway near the ball field. Gunshots are heard in the background.

[17] See page A84 of the Appendix for full time line put together by the Connecticut State Police Western District Major Crime Squad. This time line was compiled from 911 calls, witness statements, police car cameras, police radio and police dispatch transmissions.

9:39:34 - Newtown officer encounters unknown male running along the east side of SHES with something in his hand.

9:40:03 - Last gunshot is heard. This is believed to be the final suicide shot from the shooter in classroom 10.

9:41:07 - Information is relayed as to the location of the last known gunshots heard within SHES, the front of the building.

9:41:24 - Newtown officer has unknown male prone on ground, starting information relay regarding possibly more than one shooter.

9:42:39 - Newtown officer calls out the license plate of the shooter's car.

9:44:47 - Newtown officers enter SHES.

9:46:23 - CSP arrive at SHES.

9:46:48 - CSP enter SHES.

As the gravity of the situation became known, local, state and federal agencies responded to the scene to assist.

From the time the unknown male was encountered by the Newtown police outside of SHES until after the staff and children were evacuated, all responding law enforcement operated under the belief that there may have been more than one shooter and acted accordingly.[18]

For example, K-9 units were brought in to search the area and officers were posted to act as lookouts to ensure the safety of those evacuating the school building. Some people were located in the areas surrounding the school as the searches and evacuations were taking place. Some of those individuals were treated initially as suspects and handled accordingly, including being handcuffed, until their identities and reason for being there could be determined.

Some of these detentions included:

1. The initial unknown male who turned out to be a parent with a cell telephone in his hand;
2. Two reporters located in the woods around SHES, who were held at gun point by Department of Energy and Environmental Protection (DEEP) police officers until their identities could be determined; and
3. A man from New York who was working in a nearby town and went to SHES after an application on his cell telephone alerted him to the situation at the school. He drove to the firehouse and went up to the school on foot. He was taken from the scene

[18] In fact, the possibility that there was more than one shooter remained a consideration beyond December 14, 2012. It was only after potential leads were investigated that investigators became confident that the shooter was not aided in any way by others and that no one knew of the shooter's plan prior to December 14, 2012.

of the school in handcuffs and later to Newtown Police Department. It was later determined that he did not have a connection to the shooting and had gone to SHES to see what was going on.

As noted above, on December 14, 2012, there was a concern that there may have been more than one shooter. This was based upon a number of factors:

1. The initial police encounter with the unknown male outside SHES;[19]
2. Reports by school personnel during the shooting on a 911 call of seeing someone running outside the school while the shooting was ongoing;
3. The location of two black zip up sweat jackets on the ground outside of the shooter's car;
4. The discovery of an Izhmash Saiga-12, 12 gauge shotgun and ammunition in the passenger compartment of the shooter's car. A police officer moved this shotgun and ammunition to the car's trunk for safety purposes;
5. Shell casings that were located outside of the school; and
6. The apparent sound of gunfire coming from outside of the school;

The subsequent investigation revealed there were no additional shooters based upon:

1. Searches of the area and examinations of local business security surveillance videos;
2. Persons detained revealed they were not connected to the shootings. In the case of the initial unknown male, he was identified as the parent of a student and had a cell telephone, rather than a weapon, in his hand;
3. Witness interviews which indicated that no witness saw anyone other than the shooter, with a firearm;
4. Witness interviews in which it was determined that a number of SHES staff had escaped from the school through a window and had been running outside the school building during the shootings;
5. The shotgun located in the shooter's car had been purchased by the shooter's mother previously;
6. The two sweat jackets were both C-Sport brand black zip up hooded sweat jackets with no size listed and were located immediately outside the shooter's car;[20] Both are believed to have been brought there by the shooter;[21]
7. The live shotgun shells (other than the one found on the shooter and the ones found in the shooter's car) that were located inside and outside of the school were in locations where first responders had been. Additionally, there were first responders who

[19] The man was later determined to be the parent of one of the school's children and the item in his hand was a cell telephone.

[20] See the Appendix at page A174.

[21] A parent who arrived at SHES as the shooting was taking place saw the shooter's car parked in front of the school with the passenger side door open and the two sweat jackets on the ground near the car. To the parent, the jackets looked like two black blankets on the ground.

reported missing live shotgun rounds. Moreover, the shells were found in locations where there had not been reported sightings of any non-law enforcement individuals;

8. There were no expended shotgun shells found in the actual crime scene nor were any expended 12 gauge shotgun pellets or slugs recovered;
9. The only expended casings located outside of the school building were 5.56 mm casings located just outside the school's front entrance, consistent with the shooter's entry into the school; and
10. The officer who heard what he believed to be outside gunfire was in a position to have heard the shooter's gunfire coming from window openings in the classroom in which the shooter was firing.

Stopping the active shooter was the first priority. Once that occurred, the location and treatment of the victims, the search for additional shooters, and the safe evacuation of the school were of primary importance.[22] The collection of evidence and the preservation and documentation of the crime scene, while important, came second.

Two command centers were set up, one at the firehouse on Riverside Road and the other at Newtown's Emergency Operations Center, located on the Newtown Fairfield Hills Campus. In the week immediately after the shootings, services to victims' families and victims, as well as support to the investigators in the school were handled out of the firehouse. All other aspects of the investigation not related to the school itself were run out of the Emergency Operations Center.

Investigation responsibilities were handled as follows:[23]

Connecticut State Police (CSP)

CSP-Western District Major Crime (WDMC) squad was the lead CSP unit for the entire investigation and acted as the coordinating law enforcement agency for other agencies and units of the CSP.[24] The van unit processed the interior of SHES.

CSP-Central District Major Crime (CDMC) squad van unit processed the exterior of SHES, including the shooter's car, and established the temporary morgue[25] with the

[22] One of the difficulties encountered was the inability of state police radios to operate within SHES.

[23] This report does not include a listing of all of the law-enforcement and non-law enforcement service providers and their actions. In the days and weeks that followed the tragedy, local, state and federal agencies provided help to the Town of Newtown and its families through counseling, funeral protection, traffic control, handling bomb threats as well as many other services. Additionally, the CSP set up an invaluable law enforcement liaison program with the families of the deceased victims in which a state or local police officer was specifically assigned to the family of a deceased victim to provide communication and protection in the days and weeks that followed December 14th.

[24] WDMC Squad and Van, as the lead CSP unit, over the course of the week that followed was there for seven days processing the interior scene, the shooter and victims' personal effects, including assisting with the packing and removal of furniture from the immediate scene.

[25] The Department of Public Health provided and set up the portable tent used for the temporary morgue.

OCME to identify and document the decedents prior to their being moved to the OCME in Farmington.[26] CDMC also attended the autopsies at the OCME and did a secondary search of 36 Yogananda Street, as well as photographing doors and locks in SHES.

Eastern District Major Crime (EDMC) squad processed the scene at 36 Yogananda Street and were the investigators for the shooting of Nancy Lanza, the shooter's mother.

CSP-Emergency Services Unit (ESU), Tactical Teams, were assigned to both SHES and 36 Yogananda Street to handle the clearing of the scenes and rendering them safe.[27]

CSP – Troop A, Southbury and CSP from other troops and units, in addition to being first responders, worked to secure the scene and worked with WDMC and the OCME.

Computer Crimes and Electronic Evidence Unit handled the seizure and examination of additional electronic evidence from 36 Yogananda Street together with EDMC, CDMC and WDMC.

CSP - Collision, Analysis and Reconstruction Squad (CARS) was assigned to produce the sketch maps for both the interior and exterior of the school.

CSP - On December 14, 2012, virtually every aspect of the CSP was engaged in the response to SHES and 36 Yogananda Street. For example, included in the first responders were troopers and detectives, not only from Troop A in Southbury, but other troops and units as well, including the Statewide Narcotics Task Force.

Department of Energy and Environmental Protection (DEEP) provided first responders at SHES.

Forensic Science Laboratory, Division of Scientific Services, Department of Emergency Services and Public Protection (DESPP) examined items seized and collected from SHES and 36 Yogananda Street.

Office of the Chief Medical Examiner (OCME) was responsible for investigating the cause and manner of the deaths involved in this case and worked with the CSP in setting up the temporary morgue at SHES that was used to identify and document the deceased prior to their being moved to Farmington.

Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) in addition to responding to both scenes, worked on the firearms aspect of the investigation.

---

[26] WDMC and CDMC personnel were also assigned and paired with the FBI to conduct interviews and neighborhood canvasses as well as assist with the identification of victims, investigate a report of another shooter at a hospital, as well as prepare search warrants and attend autopsies.

[27] There were numerous law enforcement agencies that worked on the clearing of SHES and the protection of those who were doing the clearing.

Federal Bureau of Investigation (FBI) – in addition to responding to the scenes, handled interviewing of witnesses and investigation both at a local level and on a national level. The Tactical Team assisted with the clearing of the school. The Behavioral Analysis Unit (BAU), as part of the search warrant execution for 36 Yogananda Street, was provided with materials for review. They provided their expertise in the preparation of witness interviews. The Victim Assistance Unit worked with victims' families, victims and witnesses.

United States Attorney's Office was stationed at the Emergency Operations Center overseeing the investigation into the possible commission of federal crimes and the issuance of federal legal process, as well as coordinating the various federal agencies involved in assisting with the state investigation.

United States Marshals Service, Technical Operations Group provided technical and investigation assistance.

United States Postal Service looked for mail that may have been relevant to the investigation.

Municipal Police Departments from around the state assisted throughout the Town of Newtown, including being first responders at SHES, handling calls in town and the tremendous inflow of media and visitors to the Town in the weeks after December 14, 2012.

Newtown Police Department in addition to being first responders, worked to secure the scene and assisted WDMC.

Office of the State's Attorney, Judicial District of Danbury (SAO) – oversaw the state investigation, working with the Connecticut State Police. Together with the assistance of the Office of the Chief State's Attorney, the SAO was stationed at the Emergency Operations Center starting December 14, 2012, and oversaw the legal issues and state aspect of the investigation including search warrant review, child witness issues, working with the federal authorities, etc.

SANDY HOOK ELEMENTARY SCHOOL – SCENE INVESTIGATION

On the afternoon of December 14, 2012, the WDMC and CDMC van units began documenting the crime scene and collecting evidence. The units could not begin this process until the scene was declared safe. The scene processing took seven days.

The scene was thoroughly processed, with the WDMC van unit handling the interior of SHES and the CDMC van unit covering the exterior. This processing included extensive written documentation as well as taking videos and thousands of photographs and measurements. In addition to the recovery of evidence, bullet trajectories were analyzed and documented.

My description of the scene processing starts with the front entrance and moves into the school building itself. This does not necessarily reflect the actual order in which the crime scene was processed. Many descriptions come directly from the investigation reports but are not in quotation marks to ease reading.

The conditions of windows and doors were documented, but some may have been disturbed by police and emergency personnel during the emergency response and protective sweep of the building. Similarly, other items of evidence, such as shell casings, may not have been found in their original positions because, as mentioned previously, the first priority was to locate and neutralize any active shooter, followed by the location and treatment of the victims, the search for additional shooters and the safe evacuation of the school. Only then could evidence collection begin.

Interior

Sandy Hook Elementary School was[28] a one story brick public school building of approximately 66,000 square feet, built in 1954. The building was on Dickinson Drive off of Riverside Road in the Sandy Hook section of Newtown. The front of the building sat in a magnetic northeast direction, but will be considered north for the purposes of this report. See the diagram at page 19.

SHES was rectangular in shape with four hallways in the main building and portable classrooms attached to the rear (south) side which were accessed from the south side of the main building. Classrooms on the exterior walls had even numbers and interior classrooms had odd numbers.

- **Main entrance**

The main entrance to the school was located next to the large glass window that the shooter shot out to enter the school. A patio area was just before the entrance doors. The entrance to the lobby consisted of two sets of locked full glass doors that opened outwardly using a pull handle. They were separated by a small vestibule. The doors were secured with an electronic locking mechanism. The doors could be opened from the inside with a horizontal push bar across the middle of the door.

The broken area of the window that the shooter shot out measured approximately 35.33 inches wide and 42.5 inches high.[29]

The exterior of the main entrance door way had a call box, buzzer system with a video camera. The call box was installed in 2005. The video camera did not record, but the video could be viewed live on three monitoring systems on the secretaries' desks in the main office, with no recording capabilities. The electronic unlocking of the front doors was done by using a "key button" on any of the three monitoring systems.

Glass shards were located just before and to the side of the outside entrance doors on the patio and plantings in the area and also on the floor in the lobby.[30] Eight expended brass colored 5.56

mm bullet casings stamped with "S&B 60 5.56x45"[31] were located in the area outside the broken window and front entrance doors. These were seized.

The front entrance led into the school's lobby. The lobby measured approximately 28 feet north to south and 36 feet east to west. The southeast corner of the lobby allowed open access to the north hallway of the school. Sixteen brass colored expended 5.56 mm bullet casings were located on the floor within the lobby area and were seized. Furniture in the lobby area had holes consistent with having been struck by a bullet. There were eleven damaged areas consistent with bullet strikes in the lobby.

- **North Hallway**

The hallway on the north side of the building, where the shootings occurred, ran east to west and contained the lobby and main office, inside of which was the nurse's office. The hallway also contained rooms numbered 1-10, 11A-5 and 12. The bulk of the scene processing occurred in this area. See the diagram on page 19.

The ceiling as in the lobby was 8 feet high. And the width of the hall was 8.5 feet. The even numbered rooms were on the north side of the hallway with classroom 12 being the western most classroom and classroom 2 being the eastern most. The odd numbered rooms were on the south side of the hallway with the main office being the western most room and classroom 1 being the eastern most. East of the main office was a closet labeled "11A-5 storage" and the east of the closet was a conference room identified as Room 9.

The doors in the hallway all locked from the outside with a key. The interior door handles had no locking mechanism. All of the doors opened outwardly toward the hallway. All doors were solid wood with a circular window in the upper half of the door.[32]

All classrooms in the north hallway had a restroom and a closet. The restrooms were uniformly designed, approximately 4 feet 7 inches by 3 feet 6 inches with a solid wood door. The door of each restroom opened inward and away from the toilet. Each restroom door had a knob push button lock on the inside handle and a key lock on the outside handle.[33] The conference room did not have a restroom.

Classrooms in the north hallway 12 and 10, 8 and 6, 6 and 4, and 3 and 5 respectively had an interior door that was shared by the two classrooms.

[31] The ammunition used by the shooter in the Bushmaster rifle has been described as .223 caliber, 5.56 mm NATO and 5.56 X 45. All of these descriptions are for similar bullets (cartridges) that can be fired from the Bushmaster rifle. The ammunition that the shooter used in this case for the Bushmaster bore the stamp "S&B 60 5.56 X 45" on the base of the cartridges and will be referred to as a 5.56 mm round. The distinction between a .223 cal. and a 5.56 mm is not relevant to this report.

[32] See the Appendix at page A178 for an example of classroom door locks.

[33] See the Appendix at page A177 for an example of restroom door locks.

N

The bodies of Mrs. Hochsprung and Mrs. Sherlach were located in the western-most area of the north hallway, near the lobby. One brass colored expended 5.56 mm casing was located and seized from the floor in the area of Mrs. Hochsprung and Mrs. Sherlach.[34] In addition to the 5.56 mm ballistics, one 10 mm shell casing was found in the north hallway and was later identified as having been fired from the Glock 20, 10 mm pistol found near the shooter.

- **Conference Room (Room 9)**

Conference room 9 was on the south side of the north hallway on the opposite side of the hallway and approximately 16 feet east of the door for classroom 12. The room had a telephone mounted in the center of the west wall.

- **Classroom 12**

Classroom 12 was located on the north side of the north hallway and was the first classroom east of the front lobby. The classroom door was located 23 feet east of the lobby. The window to the door was covered on the hallway side with dark colored paper that was there from a previous lockdown drill.

- **Classroom 10**

Classroom 10 was located on the north side of the north hallway and was the second classroom east of the front lobby. The hallway door was approximately 27 feet east of classroom 12. The window was not completely covered, but did have a decoration over part of the inside of the window.

The room measured 27 feet east to west and 30 feet north to south with carpeted floors and painted cinder block walls. There were large windows across the north wall, which provided a view into the front (north) parking lot. Fluorescent ceiling lights turned on automatically when the room was entered. As mentioned previously, there was a restroom in the room and a closet. This closet door had no lock. The door that provided access to classroom 12 was on the center of the west wall. This had a key lock on both sides and the door was unlocked. There was a telephone mounted on the south side of the east wall north of the closet. An Emergency Response Packet Plan was hanging on the south wall. The packet was above a map depicting the emergency evacuation route for this classroom.

The classroom door that opened into the north hallway could only be locked with a key from the outside (hallway side). The door was unlocked with no signs of forced entry.

In the window area for classroom 10 there were no less than nine holes consistent with being bullet holes. Investigators conducted a trajectory analysis of the shots that went through the window area of classroom 10. No determination could be made as to whether the shots through the window area were intended for the outside of the building. In other words, it could not be determined whether the shooter, while in classroom 10, had intentionally fired at something or

[34] See the Appendix starting at page A130 for a description of the ballistics evidence from the north hallway.

someone outside of the building. There was no indication that any shots through the window area of classroom 10 came from outside of the school. All of the evidence indicates that shots went out of the window area of classroom 10 and into the parking area north of the school.

Classroom 10 evidence is further described below.

- **Classroom 8**

Classroom 8 was located on the north side of the north hallway and was the third classroom east of the front lobby, with its entrance door approximately 27 feet east of classroom 10. As with the others, its classroom door opened out into the hallway and could only be locked from the hallway side with a key. The window was not covered. The classroom door to the hallway was unlocked with no signs of forced entry.

The room dimensions and construction were similar to those of classrooms 10 and 12. There was also a restroom in this classroom. The closet door in classroom 8 had no locking device. There were also large glass windows across the north wall providing a view into the front (north) parking lot of the school. There was a wall telephone in the room on the south side of the east wall, north of the closet. An "Emergency Response Plan" packet was hanging on the south wall adjacent to the east side of the entrance door. This packet was above a map depicting the emergency evacuation route for the classroom.

The door that connected into classroom 6 was on the north side of the east wall, had key locks on both sides of the door. The door was unlocked.

Ballistic evidence located in classroom 8 is described in the Appendix at page A134, which includes a total of twenty-four rounds of 5.56 mm ammunition found, of which ten rounds were in one PMAG 30 magazine, thirteen rounds were in another such magazine and one live round was on the floor. There was a third empty PMAG 30 magazine seized. There were a total of eighty expended 5.56 mm casings seized from classroom 8.

- **Classrooms 6 and 4**

Located on the floor of classroom 6 was one live round "Federal Tactical" 12 gauge shotgun slug shell (Exhibit 49). This shotgun shell was made of clear-like plastic and was different in color from the shotgun shell that was seized on the shooter's person. On the floor of classroom 4 was a blue colored 12 gauge slug shotgun shell with the word "Federal Premium Tactical Rifled slug" stamped on the side and "12 GA Made in USA stamped on the head of the shell (Exhibit 99). This shotgun shell was made of a blue colored plastic and also was different in color from the shotgun gun shell that was seized from the shooter's person.

As mentioned previously, the loose shotgun shells not found on the shooter were in locations where first responders had been and had reported missing shotgun shells. Additionally, there were no witness reports of any persons being seen with firearms other than first responders in those locations, there were no expended shotgun shell casings or projectiles recovered at the scene and the live shotgun shell on the shooter's person and those recovered from his car did not

match any of those recovered from the three locations. No shotgun was recovered from the school. It is believed that these live shells were dropped by first responders.

- **Shooter**

Responding police officers found the shooter in classroom 10 northwest of the hallway entrance dead from a self-inflicted gunshot wound to the head. He was wearing a pale green pocket vest over a black polo style short sleeve shirt over a black t-shirt. He had yellow colored earplugs in each ear. He was wearing black cargo pocket pants, black socks, black sneakers, a black canvas belt and black fingerless gloves on each hand. He had an empty camouflage drop holster that was affixed to his right thigh.

After all of the victims were removed from the school, the shooter's body was removed once all firearms and ballistic evidence were recovered from his person. The body was moved to the OCME on December 15, 2012.

- **Weapons on Shooter and Ammunition in Classroom 10**

The weapons on the shooter together with a description of items seized related to the shooting are contained in the Appendix starting at page A136. On the shooter's person was a loaded semi-automatic Sig Sauer P226, 9 mm pistol and additional ammunition. Located near the shooter was a partially loaded Glock 20, 10 mm semi-automatic pistol that appeared to be jammed.

A Bushmaster Model XM15-E2S rifle was located some distance away from the shooter. The rifle's shoulder strap was attached in the front but disconnected at the butt of the rifle. The disconnected rear portion was the result of a failed nut attachment. It is unknown if the nut failed while the rifle was being used or as the result of being dropped or thrown to the floor.

The Bushmaster rifle was found with the safety in the "fire" position. There was one live 5.56 mm round in the chamber and one PMAG 30 magazine in the magazine well. The magazine contained fourteen live 5.56 mm rounds of ammunition. The rifle did not appear to have malfunctioned when observed by the WDMC van unit, but a CSP-ESU report described the weapon as appearing to have jammed. When tested later, the rifle functioned properly.

Two empty PMAG 30 magazines that were duct-taped together in a tactical configuration and one live 5.56 mm round were found near the rifle.

Officers found two-hundred-fifty-three live rounds on the shooter's body: one-hundred-sixteen 9 mm rounds, seventy-five rounds of 10 mm, sixty-one rounds of 5.56 mm and one 12 gauge shotgun shell. Officers also seized forty-six 5.56 mm live rounds. This consisted of fifteen from the rifle, one from the floor and thirty from the magazine under the body of the shooter, as well as thirteen 10 mm live rounds (nine from the Glock and four from the floor). There were forty-nine expended 5.56 mm casings seized and one 10 mm casing from classroom 10. Total live rounds seized were three-hundred-twelve and total expended casings seized from classroom 10 were fifty.

Exterior

CDMC processed the exterior of SHES.

- **Shooter's Car**

The shooter's car was found parked in front of the school, west of the front entrance, next to a "No Parking" zone. It was a black 2010 Honda Civic with Connecticut registration 872YEO. The car was registered to his mother, Nancy Lanza, but had been purchased for him.

Recovered from the car was an Izhmash Saiga-12, 12 gauge shotgun with two magazines containing a total of twenty rounds of ammunition.[35] The shotgun and ammunition were originally seen in the passenger compartment of the car and were moved by police to the car's trunk for safekeeping during the initial response and evacuation.

- **Parking Lot**

There were a number of cars parked in the north parking lot of SHES. Three of these cars were struck by gunfire. None of the cars struck belonged to law enforcement. A total of five strikes to those three cars were identified as having come from classroom 10. It could not be determined whether these shots were intended to go outside of the classroom.

Also found in the north parking lot, was a shotgun shell that was dropped by a first responder.

SANDY HOOK ELEMENTARY SCHOOL – AUTOPSY INFORMATION

Deceased victims were removed from the school building to a large military-style tent located in the north parking lot, near the front of the school. The Office of the Chief Medical Examiner sought to make positive identification of the victims through photos, school records and personal and clothing descriptions.

On Saturday, December 15, 2012, all of the victims were transported to the OCME in Farmington for autopsies; autopsies were performed the same day. The cause of death for all of the victims was determined to have been gunshot wounds; the manner of death was determined to have been homicide.[36]

Evidence collected during the autopsies was turned over to CDMC and forwarded to the Division of Scientific Services for examination. The Evidence Examination section of this report contains a summary of the results.

---

[35] A search warrant was obtained for the car. The search warrant return originally reported the amount of ammunition as seventy rounds. This was corrected to twenty rounds and the search warrant return was amended.

[36] Our law defines homicide as the killing of one human being by another human being.

36 YOGANANDA STREET, NEWTOWN, CT – INCIDENT AND RESPONSE

Incident

Sometime on the morning of December 14, 2012, before 9:30 a.m., the shooter shot and killed his mother, Nancy Lanza, in her bed at 36 Yogananda Street, Newtown. The weapon used was a .22 caliber Savage Mark II rifle. Someone in the area reported hearing “two or three” gunshots in the neighborhood between 8:00 a.m. and 9:00 a.m. That person thought them to be from hunters, though the person indicated the shots did “sound unusually close.”

Between 9:30 a.m. and 10:00 a.m. there was a delivery made to the house. The delivery driver saw no one, did not see any vehicles in the driveway and the garage door was closed. A delivery slip was left and the driver continued on.

The mother was found by police dead in her bed when they entered the house. The rifle was found on the floor next to the bed.

Response

Once it was determined that the shooter’s car was registered to his mother at 36 Yogananda Street, Newtown, Connecticut, the Newtown police went to the house and evacuated the surrounding homes. The CSP-ESU came to the scene to clear the residence of potential hazards, such as booby traps or trip wires.

36 YOGANANDA STREET, NEWTOWN, CT – SCENE INVESTIGATION

After the body of the shooter’s mother was found and the scene declared safe, the process of obtaining search warrants for the house began, with the first warrant being reviewed and signed by a judge of the Superior Court at 5:29 p.m. on December 14, 2012, at the Emergency Operations Center.[37]

Additional search warrants were approved and issued as the search disclosed additional evidence. The investigation of the shooter’s mother’s killing and the scene processing was done by EDMC and the search for evidence at 36 Yogananda Street related to the shootings at SHES was investigated by both CDMC and WDMC. A list of the items seized from the home is contained in the search warrant returns in the Appendix, with some descriptions in the “Digital Image Report,” starting at page A188 in the Appendix.[38]

---

[37] The Judicial Branch and the Honorable John F. Blawie are to be commended for their response to the SHES shootings. Judge Blawie was available at the Emergency Operations Center to review search warrants.

[38] A description of the home is also in the Appendix starting at page A181.

The weapon used to kill Nancy Lanza, the .22 cal. Savage Mark II rifle, was found near her bed and seized. In the chamber of the rifle was a spent .22 cal. shell casing and three live rounds were in the magazine. Three other spent .22 cal. shell casings were found in the room and seized.

The shooter's second floor bedroom windows were taped over with black trash bags. The second floor computer room also had its windows covered. There, investigators found a computer hard drive that appeared to have been intentionally damaged. To date, because of the extensive damage, forensic experts have not yet been able to recover any information from that hard drive.

In a typical criminal case, the investigation would remain open when potentially important evidence was still being examined. Given the improbability of any information being recovered from the damaged hard drive, this outstanding piece of evidence is not preventing the closure of this case now. Should any relevant information related to the existence of any accessory or co-conspirator be obtained from the hard drive, the case will be reopened.

Investigators found a large number of firearms and related items in the home. All firearms involved in these incidents were legally purchased by the shooter's mother over the years. The home also contained many edged weapons, knives, swords, spears, etc. A prescription bottle in the shooter's name for acetaminophen with codeine was found in the mother's bathroom, which was part of the master bedroom.

During the search of 36 Yogananda Street, a global positioning system (GPS) device was located in the shooter's room with various routes in the memory from April 25, 2012, through December 13, 2012. Investigation revealed that the GPS was purchased for the shooter.

The routes taken indicate a number of trips from 36 Yogananda Street to the area of a local theater where a commercial version of the game "Dance Dance Revolution" is located. Over that time period, trips were made that took the driver in the vicinity of some schools in Newtown, including SHES. On December 13, 2012, a trip was recorded from 2:09 p.m. to 2:32 p.m. starting and ending on Yogananda Street and driving in Sandy Hook, which is in the area of SHES, though the route does not indicate the shooter drove up to the school.

Numerous video games were located in the basement computer/gaming area. The list of video games includes, but is not limited to:

-"Left for Dead"
-"Metal Gear Solid"
-"Dead Rising"
-"Half Life"
-"Battlefield"
-"Call of Duty"
-"Grand Theft Auto"
-"Shin Megami Tensei"
-"Dynasty Warriors"
-"Vice City"
-"Team Fortress"
-"Doom"

Other items found and noted for this report are:

- A Christmas check from the mother to the shooter to purchase a CZ 83 firearm;[39]
- A New York Times article from February 18, 2008, regarding the school shooting at Northern Illinois University;
- Three photographs of what appear to be a dead human, covered in blood and wrapped in plastic;
- The book *Amish Grace: How Forgiveness Transcended Tragedy*, Jossey-Bass, 2007, by Donald B. Kraybill, Steven Nolt and David Weaver-Zercher;[40] and
- Photocopied newspaper articles from 1891 pertaining to the shooting of school children

While the vast majority of persons interviewed had no explanation for the shooter's actions, a review of electronic evidence or digital media that appeared to belong to the shooter, revealed that the shooter had a preoccupation with mass shootings, in particular the Columbine shootings[41] and a strong interest in firearms. For example, there was a spreadsheet with mass murders over the years listing information about each shooting.

The review of the electronic evidence also found many things that are on a typical hard drive or memory card that would probably have no relevance to the investigation either because of creation date or subject matter. That being said, the following selected topics or items were found within the digital evidence seized:

- Bookmarks pertaining to firearms, military, politics, mass murder, video games, music, books, Army Ranger, computers and programs, ammunition, candy, economic books
- Web page design folders
- Two videos showing suicide by gunshot
- Commercial movies depicting mass shootings
- The computer game titled "School Shooting" where the player controls a character who enters a school and shoots at students
- Screen shots (172) of the online game "Combat Arms"
- "Dance Dance Revolution" (DDR) game screen shots
- Videos of shooter playing DDR
- Images of the shooter holding a handgun to his head
- Images of the shooter holding a rifle to his head
- Five-second video (dramatization) depicting children being shot
- Images of shooter with a rifle, shotgun and numerous magazines in his pockets
- Documents on weapons and magazine capacity

[39] The return for the December 16, 2012, search warrant indicates that Exhibit #612 was a check for a "C183." A closer inspection of the check makes it clear that "CZ83" is written. A CZ 83 is a type of pistol.
The check reads "Christmas Day" in the check's date section.

[40] In October 2006 a gunman entered a one-room Amish school in Pennsylvania, killed five children and leaving others wounded.

[41] The Columbine High School shootings occurred in April 1999 at Columbine High School in Colorado. Two shooters, in a planned attack, killed a number of students and a teacher and injured others.

- A document written showing the prerequisites for a mass murder spreadsheet
- A spreadsheet listing mass murders by name and information about the incident
- Materials regarding the topic of pedophilia and advocating for rights for pedophiles (not child pornography)[42]
- Large amount of materials relating to Columbine shootings and documents on mass murders

36 YOGANANDA STREET, NEWTOWN, CT – AUTOPSY INFORMATION

The OCME performed an autopsy on the body of Nancy Lanza, age 52, on December 16, 2012, at the OCME. The cause of death was determined to be multiple gunshots to the head. The manner of death was homicide.

SHOOTER - AUTOPSY INFORMATION

The autopsy of the shooter was conducted on December 16, 2012, at the OCME. The shooter, age 20, was 72 inches tall and weighed 112 pounds. No drugs were found in the shooter's system. The cause of death was determined to be a gunshot wound to the head. The manner of death was suicide.

INVESTIGATION TO DETERMINE ACCESSORIES AND/OR CO-CONSPIRATORS

The investigation sought to determine if the shooter was aided by or had conspired with anyone to commit these crimes. As detailed above, none of the persons found in the vicinity of SHES on December 14, 2012, played any role in the shootings. Most were attempting to escape the area; others were responding to the school after learning of the shootings. None had any association with the shooter.

Investigators then sought to determine if anyone had conspired with or aided the shooter before the shootings. To that end, investigators examined social contacts, writings, e-mails, internet blogs, telephone records and his general internet presence. One of the internet blogs on which the shooter posted focused on mass shootings and in particular the Columbine shootings. The shooter also exchanged e-mails with others who were interested in the topic of mass shootings. None of these communications, however, related to SHES or in any way suggested that the shooter intended to commit a mass shooting. Thus, the evidence as developed to date, does not demonstrate that any of those with whom he communicated conspired with the shooter or criminally aided and abetted him in committing the murders on December 14, 2012.

[42] No child pornography was seen on any of the digital media.

EVENTS AND BACKGROUND INFORMATION LEADING UP TO DECEMBER 14, 2012

Recent Background Information

As of December 14, 2012, the shooter and his mother lived at 36 Yogananda Street. This had been the family home for years, although only the shooter and his mother had resided in the house for an extended time.

Both the shooter's and his mother's bedrooms were on the second floor; the mother occupied the master bedroom.

In November 2012, the mother sought to buy the shooter another computer or parts for a computer for the shooter to build one himself. She was concerned about him and said that he hadn't gone anywhere in three months and would only communicate with her by e-mail, though they were living in the same house. The mother never expressed fear of the shooter, for her own safety or that of anyone else.

The mother said that she had plans to sell her home in Newtown and move to either Washington state or North Carolina. She reportedly had told the shooter of this plan and he apparently stated that he wanted to move to Washington. The intention was for the shooter to go to a special school in Washington or get a computer job in North Carolina. In order to effectuate the move, the mother planned to purchase a recreational vehicle (RV) to facilitate the showing and sale of the house and the eventual move to another state. The RV would provide the shooter with a place to sleep as he would not sleep in a hotel. In fact, during Hurricane Sandy in October 2012, with no power in the house, the shooter refused to leave the home and go to a hotel.

The mother wanted to buy the shooter a CZ 83 pistol for Christmas and had prepared a check for that purchase to give the shooter.

On December 10, 2012, the mother indicated to a friend that the shooter had bumped his head badly, there was some bleeding, but he was okay. This appeared to have occurred at 5:30 a.m. She then prepared for her trip to New Hampshire and cooked for the shooter before she left, leaving him his favorites.

During the week of December 10, 2012, the shooter's mother was out of town in New Hampshire. She arrived home Thursday evening December 13, 2012, at approximately 10:00 p.m.

As mentioned above, the GPS found in the home, revealed that on Thursday, December 13, 2012, the device was used. It recorded a trip from and back to 36 Yogananda Street with a route in the Sandy Hook area of Newtown between 2:09 p.m. and 2:32 p.m. The GPS did not report that the driver drove up to SHES. Presumably this was the shooter driving the black Honda Civic as this would have been the only car available to the shooter and it was reportedly his, having been purchased for him.

General Background Information

Investigators conducted many interviews with persons who knew the shooter and members of his family. As explained above, they did so principally to determine if anyone had conspired with the shooter or aided his crimes. But they also sought to ascertain what might have motivated him to murder children and their teachers and his mother.

The first question was whether the shooter had a reason specifically to target SHES or any student, teacher, or employee. No evidence suggests that he did. In fact, as best as can be determined, the shooter had no prior contact with anyone in the school that day. And, apart from having attended the school as a child, he appears to have had no continuing involvement with SHES.

More generally, those who knew the shooter describe him in contradictory ways. He was undoubtedly afflicted with mental health problems; yet despite a fascination with mass shootings and firearms, he displayed no aggressive or threatening tendencies. In some contexts he was viewed as having above-average intelligence; in others below-average. Some recalled that the shooter had been bullied; but others – including many teachers – saw nothing of the sort. With some people he could talk with them and be humorous; but many others saw the shooter as unemotional, distant, and remote.

What follows are some observations that investigators developed in attempting to determine the shooter's motive.

Parents

The shooter's mother and father Peter Lanza had been married to each other. They moved from New Hampshire to the Sandy Hook section of Newtown in 1998. In addition to the shooter, they had another son Ryan Lanza, who was four years older than the shooter.[43] In 2001 the shooter's parents separated. The children continued to reside with the mother. The parents subsequently divorced. The father remarried in 2011; the mother never remarried.

After college, the brother moved out of state. He reached out to the shooter a few times but the shooter did not respond. As of December 14, 2012, the older brother had not had contact with the shooter since 2010. The brother believed that the shooter and his mother had a close relationship. After his older brother left for college, the shooter reportedly became interested in firearms and at one point considered joining the military.

Both the shooter's mother and father indicated that the shooter was bullied growing up. The father indicated that it was not excessive and concerned his social awkwardness and physical gait. As expanded upon in the Education and Mental Health section below, other witnesses did not recall the shooter being overtly bullied. Nonetheless, the shooter appears to have had few friends growing up.

---

[43] Both the shooter's father and brother cooperated fully with the investigation.

The shooter's father saw him regularly until he turned 18. They would go hiking, play video games and other activities. They went shooting twice. The shooter had a cell phone but never used it. Calls all went to voice mail. His father would just e-mail him when he wanted to reach him.

The shooter's relationship with his father deteriorated in the last quarter of 2010 and the father last saw the shooter in that year. After that the father would reach out to the shooter by mail or through e-mails regularly, asking him to join him at various places for different activities. The shooter stopped responding at some point prior to December 2012.

One witness who knew the shooter in 2011 and 2012 said that he rarely mentioned his father or his brother; though he would mention briefly something he did with his father or brother in the past.

While it appears that the shooter's mother did volunteer at SHES, it was when the shooter was a student. There is no indication that she volunteered there in recent years.

The mother took care of all of the shooter's needs. The mother indicated that she did not work because of her son's condition. She worried about what would happen to the shooter if anything happened to her.

One witness indicated that the shooter did not have an emotional connection to his mother. Recently when his mother asked him if he would feel bad if anything happened to her, he replied, "No." Others, however, have indicated that they thought the shooter was close to his mother and she was the only person to whom the shooter would talk.

A person who knew the shooter in 2011 and 2012 said the shooter described his relationship with his mother as strained because the shooter said her behavior was not rational.

The shooter was particular about the food that he ate and its arrangement on a plate in relation to other foods on the plate. Certain types of dishware could not be used for particular foods. The mother would shop for him and cook to the shooter's specifications, though sometimes he would cook for himself. Reportedly the shooter did not drink alcohol, take drugs, prescription or otherwise, and hated the thought of doing any of those things.

The mother did the shooter's laundry on a daily basis as the shooter often changed clothing during the day. She was not allowed in the shooter's room, however, even to clean. No one was allowed in his room.

The shooter disliked birthdays, Christmas and holidays. He would not allow his mother to put up a Christmas tree. The mother explained it by saying that shooter had no emotions or feelings. The mother also got rid of a cat because the shooter did not want it in the house.

People Outside the Family

When the shooter had his hair cut, he did not like to be touched and did not like the sound of clippers, so they were not used much. He would sit with his hands in his lap and always look down, giving one word answers if the cutter tried to engage him in conversation.

Those who worked on the property at 36 Yogananda Street never entered the home. They spoke with the mother outside in the yard or at the bottom of driveway. They were instructed never to ring the doorbell and to make prior arrangements before using power equipment as her son had issues with loud noises. The shooter was observed at times coming and going from the residence.

There were a number of people who knew the mother over the years, some fairly well, who had never met the shooter – although were aware of his existence – and had never been inside her residence.

Shooter's Interests

Over the years his hobbies included building computers,[44] writing poetry and hiking. The shooter worked briefly at a computer repair shop. When he was younger he played the saxophone. The shooter had a cell phone but never used it.

Shooting was a pastime in which the family engaged. Over the years the shooter enjoyed target shooting and would go to a range with his brother and mother. The mother had grown up with firearms and had a pistol permit. The shooter did not. Both the mother and the shooter took National Rifle Association (NRA) safety courses. The mother thought it was good to learn responsibility for guns. Both would shoot pistols and rifles at a local range and the shooter was described as quiet and polite.

He played video games often, both solo at home and online. They could be described as both violent and non-violent. One person described the shooter as spending the majority of his time playing non-violent video games all day, with his favorite at one point being "Super Mario Brothers."

Another said he used the computer to play games online and communicate. Sometimes the shooter would not respond to e-mails and be unavailable for a couple of weeks. The shooter explained that he was "moping around." The shooter frequently formatted the hard drive of his computer as a way of "staying off the grid" and minimizing his internet trace.

Initially the shooter did not drive but he eventually got a driver's license and the Honda was purchased for him. The shooter was issued a driver's license in July 2010.

The shooter liked to play a game called "Dance Dance Revolution" (DDR), which is a music video game in which the player stands on a platform, watches a video screen and moves his feet

[44] By all accounts the shooter was extremely computer savvy.

as directed by the video. A home version of this was seen and photographed in the shooter's home.[45] Several videos of him playing DDR were found on digital media taken from the home.

The GPS found in the home and reportedly belonging to the shooter indicated that he regularly went to the area of a theater that had a commercial version of the DDR game in the lobby. In 2011 and up until a month before December 14, 2012, the shooter went to the theater and played the game. He went most every Friday through Sunday and played the game for four to ten hours.

The shooter was specific about the clothes he wore. He typically wore the same clothing when at the theater: a grey hoodie and slacks. After a snowstorm in 2011 the shooter was not seen at the theater until about February 2012. At that time he seemed more anti-social and no longer played DDR with others.

An acquaintance of the shooter from 2011 to June 2012 said that the shooter and the acquaintance played DDR quite a bit. They would play the game and occasionally see a movie. They did not play first person shooter games at the theater.[46] The shooter had stamina for DDR and never appeared winded unless really exhausted.

The acquaintance said the shooter seemed to enjoy nature and mentioned the possibility of going hiking more than once. The shooter was capable of laughing, smiling and making jokes, though always in a dry fashion. The shooter never mentioned being bullied while growing up. Topics of conversation included world and current events, and included chimpanzee society and how they interacted.

In the course of their conversations, the shooter indicated that he had an interest in mass murders and serial killing. They never spent a lot of time discussing them, but it would be a topic of conversation.[47] There were no conversations about weapons or shooting at a gun range.

Shooter – Education and Mental Health

The following background information is compiled from a variety of sources and may at times appear to be inconsistent. This is a function of the differing perspectives of those interviewed. The information also varied based upon the time period during which the witness knew or associated with the shooter or his family.

The shooter went through the Newtown public school system, though part of seventh grade and part of eighth grade were done at St. Rose of Lima School in Newtown.

---

[45] See the Appendix at page A197.

[46] Online first person shooter games that the shooter did play as determined by a search of the digital media in the home, "Combat Arms" and "World of Warcraft" were played on the computer using a keyboard to control the player.

[47] The shooter also wrote about all of these topics. Other topics of discussion included human nature, perception, judgment, morality, lack of control, prejudice, empathy, suicide, mental illness, existential crisis, urban exploration of abandoned areas, hiking and cookies.

While the shooter did attend SHES from 1998 to 2003, the first through fifth grade, he was never assigned to the classrooms where the shootings occurred. The shooter went for walks with his family around and near SHES after he had gotten out of the school. The shooter indicated that he loved the school and liked to go there.

According to some, the shooter was more social when he first moved to Connecticut and was younger. He would attend play groups and parties. The early school years have him portrayed as a nice kid, though sort of withdrawn. He loved music and played saxophone.

As he got older his condition seemed to worsen, he became more of a loner. As the shooter got into the higher grades of middle school, he did not like noise and confusion and began to have issues when he had to walk to different classes. As a result, in high school, the shooter was home schooled for a period of time. Though not in a mainstream setting, he could sit through a quiet lecture. The mother drove the shooter where he needed to go. He did not want to go to events with crowds.

He attended Newtown High School (NHS) with a combination of home schooling, tutoring and classes at NHS and Western Connecticut State University (WCSU). At NHS he was considered a special education student. Having enough credits, the shooter graduated from NHS in 2009. He continued to take classes at WCSU after high school graduation.

Various witnesses made the following observations about the shooter through his school years:

1. In the 2002-2003 school year, when the shooter was in the fifth grade, he was quiet, reluctant, very bright and had good ideas regarding creative writing. He wouldn't necessarily engage in conversation, but wouldn't ignore one. There was no recollection of him being bullied or teased.
2. The fifth grade was also the year that, related to a class project, the shooter produced the "Big Book of Granny" in which the main character has a gun in her cane and shoots people. The story includes violence against children. There is no indication this was ever handed in to the school.[48]
3. In the fifth grade the shooter indicated that he did not like sports, did not think highly of himself and believed that everyone else in the world deserved more than he did.
4. In intermediate school from 2002-2004 he was a quiet shy boy who participated in class and listened. He did not show enthusiasm, extreme happiness or extreme sadness. He was neutral.
5. In the fifth and sixth grades from 2003 to 2004 the shooter participated in concerts at school. He was not remembered by the teacher as having been bullied and the shooter had at least one friend.
6. A sixth grade teacher described the shooter as an average student with A's and B's; homework was never an issue. The shooter never made trouble or distracted others. He had friends and was friendly to others. He was a normal child with no oddities and there were no reports of bullying or teasing.

[48] See the Appendix starting at page A220.

7. In 2004 while at the intermediate school he was described as respectful and cooperated with others.
8. One person who remembered him from the middle school never saw the shooter bullied.
9. In seventh grade, a teacher described the shooter as intelligent but not normal, with anti-social issues. He was quiet, barely spoke and did not want to participate in anything. His writing assignments obsessed about battles, destruction and war, far more than others his age. The level of violence in the writing was disturbing. At the same time, when asked to write a poem, he was able to write a beautiful one and presented it in public.
10. In the ninth and tenth grades the shooter was reclusive, shutting himself in the bedroom and playing video games all day. In the upper classes the shooter compiled a journal instead of attending physical education.
11. In high school the shooter did not have good social skills. He did not show any signs of violence.
12. In high school the shooter would have "episodes"[49] and his mother would be called to the school. The episodes would last about fifteen minutes each. There were no signs of violence during any of these episodes and the shooter was more likely to be victimized than to act in violence against another.
13. In high school the shooter was not willing to talk much, hard to communicate with and had poor social skills. He often became withdrawn in a social environment. The shooter would have both inclusive class time and leave the class for specialized sessions.
14. At NHS the shooter was in the "Tech Club" in 2007–2008. He was remembered in a variety of ways including as a quiet person who was smart. He wore the same clothing repeatedly and might not speak to you, even if you were talking to him. He was not remembered to have been bullied or to have spoken about violence. The advisor looked out for him and tried to have him included wherever possible. He was also remembered for pulling his sleeves over his hand to touch something. He was not known to be a violent kid at all and never spoke of violence.
15. The shooter had a LAN party[50] at his home in 2008 with Tech Club members; no firearms were seen at the shooter's home.
16. In terms of video games, the shooter liked to play "Phantasy Star Online" (a role playing game), "Paper Mario," "Luigi's Mansion" and "Pikmin." He also liked Japanese animated films and television.

Over the years from the late 1990s and into the 2000s, the shooter had evaluations of various types, some of which were available to the investigators. In the late 1990s he was described as having speech and language needs. At that time he was also being followed medically for seizure activities. In preschool his conduct included repetitive behaviors, temper tantrums, smelling things that were not there, excessive hand washing and eating idiosyncrasies.

In 2005, the shooter was diagnosed with Asperger's Disorder and was described as presenting with significant social impairments and extreme anxiety. It was also noted that he lacked empathy and had very rigid thought processes. He had a literal interpretation of written and

[49] What these episodes were was unclear.

[50] This is a party where attendees eat pizza and play video games.

verbal material. In the school setting, the shooter had extreme anxiety and discomfort with changes, noise, and physical contact with others.

In 2006 the shooter had an overall IQ in the average range. He had no learning disability. Depending on the psychological test taken he could be average, below average or above average. Testing that required the touching of objects could not be done. It was reported that his school issues related to his identified emotional and/or Pervasive Developmental Disorder (PDD) spectrum behaviors. His high level of anxiety, Asperger's characteristics, Obsessive Compulsive Disorder (OCD) concerns and sensory issues all impacted his performance to a significant degree, limiting his participation in a general education curriculum. Tutoring, desensitization and medication were recommended. It was suggested that he would benefit by continuing to be eased into more regular classroom time and increasing exposure to routine events at school.

The shooter refused to take suggested medication and did not engage in suggested behavior therapies.

Over the years his mother consistently described the shooter as having Asperger's syndrome. She had a number of books in the home on the topic. She also described the shooter as being unable to make eye contact, sensitive to light and couldn't stand to be touched. Over time he had multiple daily rituals, an inability to touch door knobs,[51] repeated hand washing and obsessive clothes changing, to the point that his mother was frequently doing laundry.

In 2006, the shooter's mother noted that there were marked changes to the shooter's behavior around the seventh grade. Prior to that, he would ride his bike and do adventurous things such as climbing trees or climbing a mountain. He had stopped playing the saxophone. He had been in a school band but dropped out. He had withdrawn from playing soccer or baseball which he said he did not enjoy.

It is important to note that it is unknown, what contribution, if any, the shooter's mental health issues made to his attack on SHES. Those mental health professionals who saw him did not see anything that would have predicted his future behavior.

EVIDENCE EXAMINATION

Electronics

Examinations of the following seized items were done by the WDMC squad and the Computer Crimes and Electronic Evidence Laboratory of the Department of Emergency Services and Public Protection (DESPP).

Sony PlayStation 2: An older games history was found. Games located included "Dynasty Tactics," "Kingdom Hearts," "Kingdom Hearts 2," "Onimusha," "Dynasty Warriors," and "The Two Towers." The PlayStation 2 games could not be played with others over the internet.

---

[51] This included not opening doors for himself because he did not like touching the door handle or other metal objects, often going through a box of tissues a day to avoid the contact.

Xbox: A game history for the console and an indication of an Xbox Live user account were found. Games found in the gaming history included "Call of Duty 2: Big Red One," "Call of Duty: Finest Hour," "Dead or Alive 3," "Halo," "Halo 2," "Lego Star Wars," "MechAssault," "Mercenaries," "MGS2 Substance," "Panzer Dragoon ORTA," "PSO," "Shenmue II," "Spiderman," "Splinter Cell 2," "Splinter Cell-CT," "Star Wars Battlefront," "Star Wars Republic Commando," "Tenchu: Return from Darkness," "The Return of the King," and "Worms Forts Under Seige."

It was noted on both of the above items that the gaming history found may not be the complete history of those actually played. No evidence regarding the existence of any accessories or co-co-conspirators was found.

Xbox 360: Found to be damaged and inoperable.

Firearms and Related Evidence

Of the firearms seized in this case, five are directly involved, four from SHES and one from 36 Yogananda Street.

- **History**

All of the firearms below and involved in these cases were legally purchased by the shooter's mother. Additionally, ammunition of the type used in these cases had been purchased by the shooter's mother in the past. There is no reason to believe the ammunition used here was purchased by anyone else. The evidence does not show any ammunition purchases by the shooter.

The shooter did not have a permit to carry a pistol, nor had he ever had one. His mother had a valid pistol permit.

A pistol is defined as "… any firearm having a barrel less than twelve inches."[52] Both the Glock 20, 10 mm and the Sig Sauer P226, 9 mm qualify as pistols. They are firearms and their barrel lengths were less than 12 inches.

- **Firearms, Recovered Bullets and Fragments**

Recovered from Shooter's Honda Civic Outside of SHES

Izhmash Saiga-12, 12 gauge, semiautomatic shotgun: The Izhmash Saiga-12 was found in the shooter's Honda Civic that was parked outside SHES. It was tested and found to be operable without malfunction. There was no physical evidence indicating this weapon had been fired at SHES, i.e., the bullets, bullet fragments and expended shell casings recovered at the scene and from the OCME could not have been fired from this weapon.

[52] C.G.S. Sec. 53a-3(18).

Recovered from Classroom 10, SHES

Bushmaster Model XM15-E2S semiautomatic rifle: The Bushmaster rifle was found in classroom 10. The Bushmaster was tested and found to be operable without malfunction. All of the 5.56 mm shell casings from SHES that were tested were found to have been fired from this rifle. All of the bullets and fragments, recovered from SHES and the OCME that were tested, with the exception of those mentioned immediately below, are consistent with having been fired from the Bushmaster rifle.[53] They could not have been fired from the Saiga-12, the Glock 20 or the Sig Sauer P226.

Glock 20, 10 mm, semiautomatic pistol: The Glock 20 was found in classroom 10 near the shooter's body. The Glock 20 was tested and found to be operable without malfunction. It was found to have fired both of the 10 mm shell casings recovered at SHES. It was consistent with having fired the bullet that was recovered from the ceiling of classroom 8 in a location along the trajectory of the suicide shot of the shooter in classroom 10. It could have fired the three bullet fragments recovered from classroom 10. The three fragments together weigh less than one bullet and are presumed to have been parts of the same one bullet. Though all lacked sufficient striate for a positive identification, all had polygonal rifling consistent with the Glock 20. They could not have been fired from the Saiga-12, the Bushmaster or the Sig Sauer P226.

Sig Sauer P226, 9 mm, semiautomatic pistol: The Sig Sauer P226 was found in classroom 10 on the shooter's person. The Sig Sauer P226 was tested and found to be operable without malfunction. There was no physical evidence found indicating that this weapon had been fired at SHES, i.e. casings, bullets and bullet fragments recovered at the scene and from the OCME could not have been fired from this weapon.

The total weight of the guns and ammunition from the shooter at SHES was 30.47 lbs.[54]

Recovered from 36 Yogananda Street, Newtown, CT

Savage Mark II, .22 cal. Long Rifle, bolt action: The Savage Mark II rifle was found on the floor of the master bedroom near the bed where the body of the shooter's mother was found. The rifle was found to be operable without malfunction. The rifle was found to have fired the .22 cal. casing recovered from the rifle's chamber and the three .22 cal. casings found in the master bedroom. The rifle also was found to have fired the four bullets recovered during the autopsy of the shooter's mother.

---

[53] "No positive identification could be made to any of the bullet evidence submissions noted … … in 5.56 mm caliber. The physical condition of the bullet jacket surfaces were severely damaged and corroded. They all lacked individual striated marks of sufficient agreement for the identification process. The test fires also exhibited a lack of individual striated marks on the bullet surface for comparison purposes. This condition can be caused by fouling in the barrel of the rifle and the ammunition itself. The Bushmaster rifle cannot be eliminated as having fired the 5.56 caliber bullet evidence examined," quoting from the 6/19/13 Forensic Science Laboratory report.

[54] See the Appendix at page A141.

Other Testing

In the course of the investigation swabbings to test for DNA were taken from various pieces of evidence in the case, both at Sandy Hook Elementary School and 36 Yogananda Street. The purpose was to determine if anyone else had actively been involved in the planning or carrying out of the shootings. These swabbings were tested and compared to known samples in the case and no potential accessories or co-conspirators were revealed by the testing.[55]

MISCELLANEOUS INVESTIGATIVE LEADS

In the course of the investigation, law enforcement personnel received a large number of contacts purporting to provide information on the shootings and the shooter. This applied to both state and federal law enforcement. Information that was substantiated and relevant was made part of the investigation. Other information, after investigation was not substantiated.

Typically someone would call the CSP and leave a message that they had information relevant to the shootings at Sandy Hook Elementary School. In an abundance of caution, a detective was assigned to follow up on every "lead," regardless of its presumed validity.

Some of the more than forty unsubstantiated leads and information are described below because of their nature or mention in investigation documents.

1. In the December 14, 2012, 7:25 p.m. search warrant for 36 Yogananda Street, paragraphs 8 and 9 read as follows:

    8. That investigators determined that on 12/12/12, an individual logged onto a website called 4Chan.com and anonymously posted "I'm going to kill myself on Friday and it will make the news. be watching at 9:00 am." That another anonymous individual asked "Where at?" The first individual responded "I live in Connecticut, that's as much as I'll say."
    9. That additionally on 12/14/12, a concerned individual in Texas contacted the Hartford Police Department and reported that her son was playing a video game named 'Call of Duty' approximately 20 hours ago. She continued that a gamer with the screen name [RaWr]i<3EmoGirls (hereinafter "User") stated; "next week or very soon there maybe a shooting at my school and other schools so if i die remember me plz if I don't get on for 3-5 not including weeks that means i died and im being 100 percent serious." The User then stated: "something might go bad tomorrow this could possibly be my last moments alive.-." Finally, User stated, "as far as I know theres a list of ppl that are gunna get shot-. I hope I aint on it."

[55] Two of the items examined from outside the building of SHES, one from the shotgun in the shooter's car and a second from 36 Yogananda Street yielded DNA profiles consistent with the DNA profiles of two victims killed in SHES, one in each. It is strongly believed that this resulted from an accidental transference as a result of the unique circumstances of this case. There is no reason to believe that either victim would ever have come in contact with these items. The DESPP is conducting a separate protocol inquiry in an attempt to determine the reason that the DNA appears on the items.

Both of these leads were immediately investigated by federal law enforcement and found to have no validity and no relation to Newtown.[56]

2. A December 14, 2012, search of the Stamford residence of Peter Lanza, the father of the shooter, was conducted with the FBI. Some illegal fireworks were seized and secured. After consultation with David I. Cohen, the State's Attorney for the Judicial District of Stamford/Norwalk, and based on all of the circumstances involved, this state's attorney has decided to exercise his discretion and not prosecute Mr. Lanza for possession of the fireworks, which are in no way related to the events of December 14, 2012.
3. Dick's Sporting Goods – Police received a lead that the shooter had tried to buy ammunition at a Dick's Sporting Goods store. Store security surveillance videos were recovered and reviewed. None of the individuals depicted in the videos appear to be the shooter or connected to shooter.
4. A person called the police indicating that the shooter had tried to rent a room from her and indicated he was having problems with his mother. This proved to be unsubstantiated after an investigation.
5. Some callers indicated that they chatted with the shooter online in postings. These postings were determined to be false.
6. Numerous citizens in Newtown received calls on their telephones with messages left saying "I am [the shooter's name] and I am going to kill you." It was determined that these calls were made from out of state and the investigation is ongoing. Preliminary investigation results establish that the callers were not associated with the shooter.
7. CSP investigated a lead that the shooter went to Newtown High School before going to SHES. In the course of this investigation one parent refused to let her high school child be interviewed by police and related that a friend of the child had told the child they saw the shooter in the parking lot before the shooting. A review of Newtown High School video did not substantiate this claim.
8. There were reports of the shooter being at SHES on December 12, 2012, that were investigated and found not to be substantiated.
9. A report that a man claimed that while in Oklahoma a woman told him about the planned shooting before the shooting occurred. Federal law enforcement investigated this and found that it could not be true.

[56] These search warrants were applied for with information that was available at the time. Some of the information was later determined to be inaccurate.

DETERMINATIONS OF CRIMES COMMITTED

In the course of his rampage the shooter committed a number of state crimes. The most significant are those where lives were taken and people were specifically injured.

At Sandy Hook Elementary School, the crime of Murder under Special Circumstances[57] in violation of C.G.S. Sec. 53a-54b was committed twenty-six times. Attempted Murder under Special Circumstances[58] in violation of C.G.S. Secs. 53a-49 and 53a-54b was committed twice as it relates to the two individuals who were shot and survived. These crimes reflect the killings of the children and adults, as well as those physically injured.[59] The crime of Murder in violation of C.G.S. Sec. 53a-54a was committed by the shooter in killing his mother at 36 Yogananda Street.[60]

Also listed are other major crimes committed by the shooter on December 14, 2012.[61]

The major felonies[62] committed by the shooter in this case are:

- Murder with Special Circumstances
- Attempted Murder with Special Circumstances
- Assault in the First Degree[63]

---

[57] Sec. 53a-54b. Murder with special circumstances**.** A person is guilty of murder with special circumstances who is convicted of any of the following: (1)… … (7) murder of two or more persons at the same time or in the course of a single transaction; or (8) murder of a person under sixteen years of age.

[58] Sec. 53a-49. Criminal attempt: Sufficiency of conduct; renunciation as defense. (a) A person is guilty of an attempt to commit a crime if, acting with the kind of mental state required for commission of the crime, he: … … (2) intentionally does or omits to do anything which, under the circumstances as he believes them to be, is an act or omission constituting a substantial step in a course of conduct planned to culminate in his commission of the crime.

[59] Though state law as to who is a "victim" in a criminal case is very broad, only those victims mentioned above will be discussed. Connecticut defines a "victim of crime" as an individual who suffers direct or threatened physical, emotional or financial harm as a result of a crime and includes immediate family members of a minor, incompetent individual or homicide victim and a person designated by a homicide victim in accordance with section 1-56r. See C.G.S. Sec. 1-1k.

[60] Sec. 53a-54a. Murder. (a) A person is guilty of murder when, with intent to cause the death of another person, he causes the death of such person or of a third person or causes a suicide by force, duress or deception; except that in any prosecution under this subsection, it shall be an affirmative defense that the defendant committed the proscribed act or acts under the influence of extreme emotional disturbance for which there was a reasonable explanation or excuse, the reasonableness of which is to be determined from the viewpoint of a person in the defendant's situation under the circumstances as the defendant believed them to be, provided nothing contained in this subsection shall constitute a defense to a prosecution for, or preclude a conviction of, manslaughter in the first degree or any other crime.

[61] The investigation has not discovered any evidence that Nancy Lanza was in any way aware of her son's plans.

[62] In any given situation, the facts giving rise to the commission of one crime will suffice to meet the elements of additional crimes. Here the focus will be on the major crimes committed and not go into every possible felony justified by the evidence.

- Burglary in the First Degree[64]
- Risk of Injury to a Minor[65]
- Possession of a Weapon on School Grounds[66]
- Carrying a Pistol Without a Permit,[67]

The crimes listed above all require some type of mental state whether it is a specific intent, knowledge or a general intent to do the prohibited act.

The intent to kill for the crime of murder can be seen in the circumstantial evidence such as the type of weapon used, the manner in which it was used, the type of wounds inflicted and the events leading to and immediately following the deaths, as well as with the shooter intending the natural consequences of his voluntary acts.[68]

Here the intent is clear from the evidence that the shooter intentionally armed himself heavily, drove to SHES, parked in a manner out of direct sight of the front door, shot his way into the building and immediately killed those who confronted him as well as those in classrooms 8 and 10. The evidence found at his home on the digital media further support his intentions to kill, both at the school and with his mother. Further the manner in which he killed his mother reflects the shooter's intent to kill her.

---

63 Sec. 53a-59. Assault in the first degree: Class B felony: Nonsuspendable sentences. (a) A person is guilty of assault in the first degree when: (1) With intent to cause serious physical injury to another person, he causes such injury to such person or to a third person by means of a deadly weapon or a dangerous instrument;… … or (5) with intent to cause physical injury to another person, he causes such injury to such person or to a third person by means of the discharge of a firearm.

64 Sec. 53a-101. Burglary in the first degree: Class B felony. (a) A person is guilty of burglary in the first degree when (1) such person enters or remains unlawfully in a building with intent to commit a crime therein and is armed with explosives or a deadly weapon or dangerous instrument, or (2) such person enters or remains unlawfully in a building with intent to commit a crime therein and, in the course of committing the offense, intentionally, knowingly or recklessly inflicts or attempts to inflict bodily injury on anyone, or …..

65 Sec. 53-21. Injury or risk of injury to, or impairing morals of, children. Sale of children. (a) Any person who (1) wilfully or unlawfully causes or permits any child under the age of sixteen years to be placed in such a situation that the life or limb of such child is endangered, the health of such child is likely to be injured or the morals of such child are likely to be impaired, or does any act likely to impair the health or morals of any such child, or … …, shall be guilty of a class C felony for a violation of subdivision (1) ….

66 Sec. 53a-217b. Possession of a weapon on school grounds: Class D felony. (a) A person is guilty of possession of a weapon on school grounds when, knowing that such person is not licensed or privileged to do so, such person possesses a firearm or deadly weapon, as defined in section 53a-3, (1) in or on the real property comprising a public or private elementary or secondary school, or ….

67 Sec. 29-35. Carrying of pistol or revolver without permit prohibited. Exceptions. (a) No person shall carry any pistol or revolver upon his or her person, except when such person is within the dwelling house or place of business of such person, without a permit to carry the same issued as provided in section 29-28.

68 State v. Otto, 305 Conn. 51, 66-67 (2012).

Murder with Special Circumstances is met both in the killing of the children and in the killing of more than one person at the same time.

In this case the shooter's mental status is no defense to his conduct as the evidence shows he knew his conduct to be against the law. He had the ability to control his behavior to obtain the results he wanted, including his own death. This evidence includes his possession of materials related to mass murders, his removal of the GPS from his car, his utilization of ear plugs, the damaging of the hard drive and waiting for his mother's return from New Hampshire.[69]

The existence of an extreme emotional disturbance for which there is a reasonable explanation or excuse is also not present in this case.[70] It is clear that the shooter planned his crimes in advance and was under no extreme emotional disturbance for which there was a reasonable explanation or excuse.

---

[69] Sec. 53a-13. Lack of capacity due to mental disease or defect as affirmative defense. (a) In any prosecution for an offense, it shall be an affirmative defense that the defendant, at the time he committed the proscribed act or acts, lacked substantial capacity, as a result of mental disease or defect, either to appreciate the wrongfulness of his conduct or to control his conduct within the requirements of the law.

[70] Sec. 53a-54a. Murder. (a) A person is guilty of murder when, … …with intent to cause the death of another person, he causes the death of such person or of a third person or causes a suicide by force, duress or deception; except that in any prosecution under this subsection, it shall be an affirmative defense that the defendant committed the proscribed act or acts under the influence of extreme emotional disturbance for which there was a reasonable explanation or excuse, the reasonableness of which is to be determined from the viewpoint of a person in the defendant's situation under the circumstances as the defendant believed them to be, provided nothing contained in this subsection shall constitute a defense to a prosecution for, or preclude a conviction of, manslaughter in the first degree or any other crime.

CONCLUSION

With the issuance of this report, the investigation is closed.[71] If additional reliable information, related to the existence of others' involvement in the case, comes to the attention of the investigators, it is subject to being reopened. I do not anticipate that occurring. As of now, there will be no state prosecution of anyone as an accessory or co-conspirator.

Many people have asked why the shooter did what he did on December 14, 2012. Or, in the vernacular of the criminal justice system, "Did he have a motive to do what he did?" This investigation, with the substantial information available, does not establish a conclusive motive.

What we do know is that the shooter had significant mental health issues that, while not affecting the criminality of the shooter's mental state for the crimes or his criminal responsibility for them, did affect his ability to live a normal life and to interact with others, even those to whom he should have been close. Whether this contributed in any way is unknown. The shooter did not recognize or help himself deal with those issues. He had a familiarity with and access to firearms and ammunition and an obsession with mass murders, in particular the Columbine shootings.

There is no clear indication why Sandy Hook Elementary School was selected, other than perhaps its close proximity to the shooter's home.

What is clear is that on the morning of December 14, 2012, the shooter intentionally committed horrendous crimes, murdering 20 children and 6 adults in a matter of moments, with the ability and intention of killing even more. He committed these heinous acts after killing his own mother. The evidence indicates the shooter planned his actions, including the taking of his own life.

It is equally clear that law enforcement arrived at Sandy Hook Elementary School within minutes of the first shots being fired. They went into the school to save those inside with the knowledge that someone might be waiting to take *their* lives. It is also clear that the staff of Sandy Hook Elementary School acted heroically in trying to protect the children. The combination saved many children's lives.

4. That as a result of the 911 call, numerous law enforcement personnel including members from the Newtown Police Department and the Connecticut State Police responded to Sandy Hook Elementary School, in Newtown. Upon arrival, law enforcement personnel conducted a search of the interior and exterior of the school. Investigators located CT registration 872YEO, a 2010, black colored Honda Civic unoccupied and parked in the fire lane directly in front of the school. A shotgun was noted in plain view to be in the interior of the vehicle. The registered owner for the Honda Civic is Nancy Lanza, DOB 09/06/60, 36 Yogananda Street in Sandy Hook, CT.
5. violence involve a struggle, a break, the use of weapons and other instrumentalities, and/or the element of unpredictability; the person or persons participating in the commission of a violent crime is/are in contact with physical surroundings in a forceful or otherwise detectable manner; there is often an attempt to alter, destroy, remove, clean up, or cover up evidence of a crime. That traces may be left in the form of blood, semen, saliva, physiological fluids and secretions, hair, fibers, fingerprints, palm prints, footprints, shoe prints, weapons and firearms including pistols, rifles, revolvers, shotguns, knives, hatchets, axes, cutting instruments and cutting tools, blunt force instruments, projectiles, ammunition, bullet casings and fragments, gunshot residue (GSR), dirt, dust and soil, paint samples, glass and plastic fragments, marks of tools used to gain access to locked premises or containers and items containing traces of any of the above mentioned articles. Many of the above items are minute and/or microscopic, thus requiring additional specialized examination by forensic science laboratory techniques, such as that performed by the Connecticut State Police Forensic Science Laboratory.

9. That the Affiants also have personal knowledge, based upon their experience and training, that a crime scene, such as described above, will contain physical evidence, hereinbefore itemized, which will aid in establishing the identity of the perpetrator(s), the circumstances under which the crime was committed, and/or which in general will assist in the discovery of the pertinent facts and that such evidence requires a systematic search to locate, seize, record and process. That trace evidence left in the forms mentioned above is easily transferred between participants and inanimate objects such as surroundings, including their motor vehicle. That it is reasonable to believe and expect that a person responsible for committing a crime, such as the one described in this affidavit would come in contact with these forms of trace evidence and transfer them to their surroundings.

10. That the Affiants also have personal knowledge that the Department of Public Safety Forensic Science Laboratory located at 278 Colony St in Meriden, CT has the equipment, personnel and expertise necessary to conduct physical examination, scientific testing and forensic analysis, including but not limited to biological and chemical testing, instrumental analysis, firearms, photography, biochemistry, DNA, criminalistics, fingerprints, in order to locate, identify, compare and reconstruct items of evidence and trace evidence to aid in establishing the circumstances of the crime and identity of the participants involved in the crime. The Department of Public Safety Forensic Science Laboratory will use standardized and documented procedures to extract, amplify and detect DNA from evidentiary items and samples taken from known individuals. The resulting DNA profiles from the evidentiary items will be compared to the known individuals' profiles and the results documented in a laboratory report.

11. That based upon the facts and circumstances described above, your Affiants have probable cause to believe that evidence of the crime of murder, in violation of Connecticut General Statute 53a-54c, will be found within Connecticut registration 872YEO, a 2010 Honda Civic, 4-door sedan color black, vin #2HGFA1F51AH542299, registered to Nancy Lanza, DOB 09/06/30 of 36 Yogananda Street in Sandy Hook, Connecticut.

12. Therefore, the Affiants are requesting a Search and Seizure warrant be issued for Connecticut registration 872YEO, a 2010 Honda Civic, 4-door sedan color black, vin #2HGFA1F51AH542299, registered to Nancy Lanza, DOB 09/06/30 of 36 Yogananda Street in Sandy Hook, Connecticut.

8. That the Affiants have personal knowledge, based upon their experience and training, that crimes of violence involve a struggle, a break, the use of weapons and other instrumentalities, and/or the element of unpredictability; the person or persons participating in the commission of a violent crime is/are in contact with physical surroundings in a forceful or otherwise detectable manner; there is often an attempt to alter, destroy, remove, clean up, or cover up evidence of a crime. blunt force instruments, projectiles, ammunition, bullet casings and fragments, gunshot residue (GSR), dirt, dust and soil, paint samples, glass and plastic fragments, marks of tools used to gain access to locked premises or containers and items containing traces of any of the above mentioned articles. Many of the above items are minute and/or microscopic, thus requiring additional specialized examination by forensic science laboratory techniques, such as that performed by the Connecticut State Police Forensic Science Laboratory.

9. That the Affiants also have personal knowledge, based upon their experience and training, that a crime scene, such as described above, will contain physical evidence, hereinbefore itemized, which will aid in establishing the identity of the perpetrator(s), the circumstances under which the crime was committed, and/or which in general will assist in the discovery of the pertinent facts and that such evidence requires a systematic search to locate, seize, record and process. That trace evidence left in the forms mentioned above is easily transferred between participants and inanimate objects such as surroundings, including their home or motor vehicle. That it is reasonable to believe and expect that a person responsible for committing a crime, such as the one described in this affidavit would come in contact with these forms of trace evidence and transfer them to their surroundings.

10. That the Affiants also have personal knowledge that the Department of Public Safety Forensic Science Laboratory located at 278 Colony St in Meriden, CT has the equipment, personnel and expertise necessary to conduct physical examination, scientific testing and forensic analysis, including but not limited to biological and chemical testing, instrumental analysis, firearms, photography, biochemistry, DNA, criminalistics, fingerprints, in order to locate, identify, compare and reconstruct items of evidence and trace evidence to aid in establishing the circumstances of the crime and identity of the participants involved in the crime. The Department of Public Safety Forensic Science Laboratory will use standardized and documented procedures to extract, amplify and detect DNA from evidentiary items and samples taken from known individuals. The resulting DNA profiles from the evidentiary items will be compared to the known individuals' profiles and the results documented in a laboratory report.

11. Based upon the facts and circumstances described above, your Affiants have probable cause to believe that evidence of the crime of murder, in violation of Connecticut General Statute 53a-54c, will be found within 36 Yogananda Street in Sandy Hook, Connecticut, and its curtilage, or upon the person of the deceased middle aged white female, who at this time has not been positively identified.

12. Therefore, your affiants are requesting a Search and Seizure warrant be issued for the residence at 36 Yogananda Street in Sandy Hook, Connecticut, and its curtilage including the aforementioned vehicle within (Connecticut registration 593XGR, 2009 BMW, color silver, registered to Nancy Lanza), or upon the person of the deceased middle aged white female, who at this time has not been positively identified.

Both Affiants have conducted numerous investigations of criminal activity including, but not limited to, murder, sexual assaults, kidnapping, robberies, narcotics violations, and assaults, and have received specialized training in the processing of crime scenes. The following facts and circumstances are stated from personal knowledge and/or observations and include information related to the Affiants by fellow officers and persons with knowledge of the facts and /or circumstances contained herein.

2. On Friday, December 14th, 2012 at approximately 0935 hours, Newtown Police Department Dispatch received a 9-1-1 call from a caller at the Sandy Hook Elementary School located at #12 Dickinson Drive in Newtown, CT. The caller reported that an active shooting situation was occurring at the Sandy Hook Elementary School.

3. As a result of the 9-1-1 call, numerous law enforcement personnel, including members from the Newtown Police Department and the Connecticut State Police, responded to the Sandy Hook Elementary School in Newtown. Upon arrival, law enforcement personnel conducted a search of the interior and exterior of the school. Investigators located CT registration 872YEO, a 2010, black colored Honda Civic unoccupied and parked near the fire lane directly in front of the school. 8. That during the execution of the Search and Seizure Warrant at the Lanza residence, 36 Yogananda Street in Sandy Hook, CT, investigators located an Apple I-Phone, cellular telephone, within the residence. The telephone number listed was (203) 733-0943 and belonged to Nancy Lanza. "The shooter" resided at this address with his mother and would have access to a cellular telephone associated with this number.

9. Based on your Affiants training and experience, a perpetrator(s), or persons knowing the victim(s), may have communicated by way of a telephone. Through investigative efforts conducted by other law enforcement officers including a comprehensive review of seized items of evidentiary value, these Affiants learned that one of the computer hard drives located within the Lanza residence (36 Yogananda Street) contained an electronic folder labeled **"Combat Arms Screenshots"**. Within this folder were one-hundred seventy-two (172) digital "screenshots" or images taken while playing the video game, **"Combat Arms"**.

10. An Internet search of **Combat Arms** revealed it to be a multiplayer, free-to-play, modern, first-person shooter (FPS) game "served" or hosted by **Nexon America, Inc. located at 222 N. Sepulveda Boulevard, Suite 300, in El Segundo, California 90245**. Combat Arms has over 10,000,000 registered players. The game supports community features such as Clans, Internet Relay Chat (IRC), and an in-game Friends' List. Combat Arms uses a player ranking system based on total experience, using common military ranks that players can obtain. Completing objectives, killing other players, and leveling up one's rank gives the player money in the form of Gear Points (GP) that can then be used to purchase new equipment. Equipment includes weaponry, weapon attachments, and accessories for one's character. Players can also purchase equipment from the Black Market (previously known as the Nexon Cash Shop) using Nexon Cash (NX) that is bought with real-world money.

11. Further review of the aforementioned screenshots, revealed an online gaming account / character with the associated gamer tag, **"KAYNBRED"**. A gamer tag is a name (usually a pseudonym) adopted by a video gamer and used as the individual's preferred identification method within the gaming community. In this case, it appears that KAYNBRED was the sole gamer tag utilized when logging on / playing Combat Arms from this computer.

12. The gamer tag, KAYNBRED, also possessed a "clan tag", which is a unique marker, image, or symbol, used to identify that the gamer is a member of a specific clan. Clans are generally a group of gamers who play together as a team against other clans. They are most commonly found in online multi-player games in which one team can face off against another. Clans can also be formed to create loosely based affiliations perhaps by all being fans of the same game or merely gamers who have close personal ties to each other. FPS clans normally host servers with rules that they like. For instance, if a group of gamers like to use pistols only, they could join a clan that runs a pistols only server and the clan would enforce the rules. So, it is important to join a clan that has server rules you enjoy or you could easily find yourself removed from the clan. KAYNBRED was a member of clan **"MG14c"**. Additional information depicted within the screenshots, noted twenty-two (22) other gamer tags to be associated with clan MG14c as well as snippets of chat content corresponding (to and from) with KAYNBRED and other members of MG14c.

13. The definition of Internet Relay Chat (IRC) is a protocol for live interactive Internet text messaging (chat) or synchronous conferencing. It is mainly designed for group communication in discussion forums, called channels but also allows one-to-one communication via private message as well as chat and data transfer including file sharing. Combat Arms affords its users the following four (4) means of IRC from which to communicate while gaming: "All Chat", "Clan Chat Only", "Channel Chat", and a "Community Forum".

14. Based on the Affiants' training and experience, a perpetrator(s), or persons knowing the victim(s), may have communicated by way of Internet Relay Chat (IRC) while participating in virtual communities, including but not

limited to Internet-based FPS games. Also, any co-conspirators in the planning, execution, and/or cover up of a particular crime may have communicated by way of IRC. Additionally, persons who communicate or attempt to communicate in this manner may have knowledge or valuable information leading to the identification of a perpetrator(s), and/or potential witness(s) of the crime.

15. The Affiants have personal knowledge that the "game server" or host of Combat Arms is **Nexon America, Inc., 222 N. Sepulveda Boulevard, Suite 300, El Segundo, California 90245.**

16. Based upon the facts and circumstances described above, the Affiants have probable cause to believe that **Nexon America, Inc., 222 N. Sepulveda Boulevard, Suite 300, El Segundo, California 90245** has in its possession account information associated with the gamer tag, **"KAYNBRED"** and the gamer tags within clan **"MG14c"**, which will contain evidence relating to the crime of Murder, in violation of Connecticut General Statute (C.G.S. 53a-54c).

17. Therefore, your Affiants are respectfully requesting a Search and Seizure warrant be issued for **Nexon America, Inc., 222 N. Sepulveda Boulevard, Suite 300, El Segundo, California 90245** for any information associated with the accounts: "KAYNBRED" and the gamer tags within clan "MG14c" ; All subscriber information, including full name(s), physical address(es), account identifier(s), email address(es), and telephone number(s) ; Account status, alternative email addresses provided during registration ; All transaction or connectivity logs, including records of session times, dates, durations, and assigned IP addresses ; Length of service (including start date) and types of service utilized ; All means and source of payment for such service (including any credit card or bank account number) ; All content associated with chat communications, including but not limited to "All Chat", "Clan Chat Only", "Channel Chat", and "Community Forum" between "KAYNBRED" and gamer tags within clan "MG14c" ; All records or other information stored at any time by an individual using the accounts, including address books, contact and buddy lists, calendar data, pictures, and files ; All records pertaining to communications between Nexon America, Inc. and any person regarding the account, including contacts with support services and records of actions taken ; other records identifying any individuals who owned, used, or accessed the aforementioned accounts, including but not limited to account opening records, subscriber contact information, account access logs, and email header information for the period of **January 1st, 2009 through December 31st, 2012.**

And the facts establishing the grounds for issuing a Search and Seizure Warrant are the following:

1. That the undersigned Affiants, Detective Christopher Allegro #950 and Detective John Kimball #877, are members of the Connecticut State Police, presently assigned to the Western District Major Crime Squad (WDMCS) and have approximately 28 years of combined law enforcement experience. Both Affiants have conducted numerous investigations of criminal activity including, but not limited to, murder, sexual assaults, kidnapping, robberies, narcotics violations, and assaults and have received specialized training in the processing of crime scenes and the collection of physical and trace evidence. The knowledge of the facts and circumstances contained hereinafter are the result of the Affiants' personal investigative efforts and observations, as well as those of other law enforcement officers acting in their official capacity, who related their findings to these Affiants.

2. On Friday December 14th, 2012 at approximately 0935 hours, Newtown Police Department Dispatch received a 9-1-1 call from a caller at the Sandy Hook Elementary School located at 12 Dickinson Drive in Newtown, Connecticut. The caller reported that an active shooting situation was occurring at the Sandy Hook Elementary School.

3. As a result of the 9-1-1 call, numerous law enforcement personnel, including members from the Newtown Police Department and the Connecticut State Police, responded to the Sandy Hook Elementary School in Newtown. Upon arrival, law enforcement personnel conducted a search of the interior and exterior of the school. Investigators located Connecticut registration 872YEO, a 2010 black-colored Honda Civic, unoccupied and parked near the fire lane directly in front of the school. The registered owner for the Honda Civic is Nancy Lanza, year of birth - 1960, of 36 Yogananda Street in Newtown, Connecticut.

4. As investigators entered the school, numerous children and school personnel were located deceased within the school. Investigators also located a white male dressed in military style clothing, lying deceased on the floor in room 10. The deceased male was in possession of several firearms. The deceased male has been positively identified as Adam Lanza, year of birth - 1992, hereinafter referred to as "the shooter", who resided at 36 Yogananda Street in Newtown, Connecticut.

5. Law enforcement personnel, including members of the Connecticut State Police - Emergency Service Unit, responded to the residence of Nancy Lanza at 36 Yogananda Street in Newtown, Connecticut. Upon arrival at Lanza's residence, members of the Connecticut State Police - Emergency Service Unit gained entry into the house and located a deceased middle-aged white female lying on a bed in the 2nd floor master bedroom. The white female sustained an apparent gunshot wound to her forehead. The deceased female was positively identified as Nancy Lanza, year of birth - 1960.

6. On Thursday December 14th, 2012, law enforcement agents interviewed a witness who knew Adam Lanza and stated the he rarely left his home and considered him to be a shut-in. The witness also stated that "the shooter" has a gun safe containing at least four guns. The witness also stated that "the shooter" had attended the Sandy Hook Elementary School.

7. On Thursday December 14th, 2012 a Search and Seizure Warrant (Mincey) was applied for and granted for the residence located at 36 Yogananda Street in Newtown, Connecticut. The Search and Seizure Warrant was authorized by the Honorable John F. Blawie.

8. During the execution of the Search and Seizure Warrant at the Lanza residence (36 Yogananda Street),

investigators seized various items of evidentiary value. Among these items were personal computers and electronic equipment that would provide the user with a means of communication via the Internet. "The shooter" resided at this address with his mother (Nancy Lanza) and would have had access to all the aforementioned items.

9. Through investigative efforts conducted by other law enforcement officers including but not limited to detailed interviews with relatives of "the shooter" and the comprehensive review of items of evidentiary value, these Affiants learned that "the shooter" played the online game, **"World of Warcraft (WoW)"**, and that the relatives had paid for the subscription. Also, that one of the computer hard drives located within the Lanza residence (36 Yogananda Street) contained an electronic folder labeled "videos". Within this folder were three (3) video files of recorded game play of **World of Warcraft (WoW)**. These files were named: **"blarvink"**, **"gnome"**, and **"gnomecompressed"**.

10. An Internet search for **World of Warcraft (WoW)** revealed it to be a "Massively Multiplayer Online Role-Playing Game (MMORPG)" hosted by **Blizzard Entertainment, Inc. located at 16215 Alton Parkway in Irvine, California 92618.** With over 7 million subscribers as of July 2013, World of Warcraft is currently the world's most-subscribed MMORPG and holds the Guinness World Record for the most popular MMORPG by subscribers. Additionally, in World of Warcraft the user controls an avatar (usually a pseudonym), which is the graphical representation of the user or the user's alter ego or character within the game. World of Warcraft also requires the user to pay for a subscription, either by buying prepaid game cards for selected amount of playing time, or by using a credit or debit card to pay on a regular basis.

11. Further review of the aforementioned videos, revealed an online gaming account / character with the associated avatar, **"blarvink"**. In this case, it appears that blarvink was the sole avatar utilized when logging on / playing World of Warcraft (WoW) from this computer.

12. World of Warcraft supports gaming community features such as Guilds, Internet Relay Chat (IRC), and an in-game Friends List / Real ID Friends List. Guilds are generally a group of gamers who play together as a team against other guilds. They are most commonly found in online multi-player games in which one team can face off against another. Guilds can also be formed to create loosely based affiliations perhaps by all being fans of the same game or merely gamers who have close personal ties to each other. Guilds normally host servers with rules that they like. For instance, if a group of gamers like to use magical spells only, they could join a guild that runs a spells only server and the guild would enforce the rules. So, it is important to join a guild that has server rules you enjoy or you could easily find yourself removed from the guild.

13. The definition of Internet Relay Chat (IRC) is a protocol for live interactive Internet text messaging (chat) or synchronous conferencing. It is mainly designed for group communication in discussion forums, called channels but also allows one-to-one communication via private message as well as chat and data transfer including file sharing. World of Warcraft affords its users the following four (4) means of IRC from which to communicate while gaming: "Chat Channels", "Custom Channel (user created for privacy)", "Voice Chat", and "Other Chat". Not to mention, various public blogging forums and game-related discussion boards.

14. Based on the Affiants' training and experience, a perpetrator(s), or persons knowing the victim(s), may have communicated by way of Internet Relay Chat (IRC) while participating in virtual communities, including but not limited to Internet-based MMORPG games. Also, any co-conspirators in the planning, execution, and/or cover up of a particular crime may have communicated by way of IRC. Additionally, persons who communicate or attempt to communicate in this manner may have knowledge or valuable information leading to the

identification of a perpetrator(s), and/or potential witness(s) of the crime.

15. The Affiants have personal knowledge that the "game server" or host of World of Warcraft is **Blizzard Entertainment, Inc., 16215 Alton Parkway, Irvine, California 92618.**

16. Based upon the facts and circumstances described above, the Affiants have probable cause to believe that **Blizzard Entertainment, Inc., Custodian of Records, 16215 Alton Parkway, Irvine, California 92618** has in its possession account information associated with the following individuals: Peter Lanza and/or Nancy Lanza and/or Ryan Lanza and/or Adam Lanza and/or the physical address: 36 Yogananda Street, Newtown, Connecticut 06470, which will contain evidence relating to the crime of Murder, in violation of Connecticut General Statute (C.G.S. 53a-54c).

17. traveled in a southeast direction then curving to a southwest direction to the large parking lot at the front (northeast) side of the school. Dickinson Drive proceeded up to the school in a slight incline with the incline ending at the point when the roadway reaches the north side of the school. Dickinson Drive connects the parking lots and Riverside Road. Dickinson Drive allows traffic to travel to and from the Sandy Hook Elementary School. Dickinson Drive is approximately 1234 feet long from the point it reaches the school to the intersection with Riverside Road. At the intersection of Dickinson Drive and Riverside Road was the Sandy Hook Volunteer Fire and Rescue Company (18 Riverside Road).

According to Vision Appraisal, the property of Sandy Hook Elementary School was a 1 story brick veneer public school owned by the town of Newtown. This building was 66,027 square feet and is built in 1954. On the south side of the school there was an added portable classroom. There were approximately 21 access doors located around the school, including a garage door. Refer to the Connecticut State Police Crash Analysis Reconstruction Squad (CARS) supplemental scene diagram for exact exterior dimensions and locations of the school, parking lot and Dickinson Drive. Refer to Detective Keith's scene report for a detailed description of the interior of the school.

The school building was positioned with its front entrance patio and lobby area facing in a magnetic northeast direction, however for report purposes NORTH will be designated as the front of the school. The front entrance faces in a northerly direction with a parking lot directly in front of the main entrance of the building. The front entrance of the school proceeds to a concrete patio and then leads directly to the parking lot. Adjacent to both sides of the concrete patio were mulch areas with assorted plantings, which were located in front of the windows on the north side of the school. Refer to Detective Keith's scene report for a detailed description of the patio area. The suspect's vehicle, a 2010 black Honda Civic bearing Connecticut registration 872YEO, VIN# 2HGFA1F51AH542299, was located in front of the main entrance of the Sandy Hook Elementary School, parked in a no parking zone nearest the northwest corner of the building. The suspect's vehicle was approximately 94 feet and 11 inches from the main entrance. The parking lot consisted of four rows of parking spaces. At the northeast end of the parking lot, there was an extended portion of the parking lot that provided four additional rows of parking spaces. The total number of parking spaces for the parking lot was 136. Three vehicles were identified in the parking lot of the school to have sustained bullet strikes during the incident. The three vehicles were located nearest to the north side classrooms of the school and they are as follows:

- 2004 Honda Civic bearing Connecticut registration [redacted]

- 2006 Toyota Camry bearing Connecticut registration [redacted]
- 2005 Toyota Sienna bearing Connecticut registration [redacted]

Refer to the vehicle survey and bullet strike supplemental reports completed by Detective Gunsalus for a detailed description and position of the vehicles.

It was reported that during the initial response to the incident, the southern exterior door's window was breached by police to gain entry through the eastern side of the building. Directly adjacent to the eastern side of the school was an emergency access asphalt road. Directly adjacent to that was a sand playground area used for the school children. North of the playground area was a grass soccer field. North of the soccer field was a grass baseball field. The eastern side of the school was surrounded by a fence that separated it from the wooded area and Crestwood Drive. The fence extended along the wood line from the baseball field south and then wrapped around the southern side of the school. The fence ended at the southwestern corner of the school where it abuts a wooded hillside that extended along the western side of the school.

Adjacent to the south side of the school was a basketball court located west of the portable classroom. South of the portable classroom was a small grass baseball field. Beyond that was the fence mentioned above that separates the school and the Crestwood Drive residential area.

Directly adjacent to the western side of the building was an emergency access asphalt road. Directly adjacent to that was shed and utility area. To the west of that area was a wooded hillside that surrounded the school extending to the northern side of the building. This wooded hillside separated the school and the residential houses located on Riverside Road.

Evidence: During the course of this investigation, the Connecticut State Police Central District Major Crime Squad processed the above listed scene and seized five (5) items of evidence. The evidence seized consisted of two C-Sport brand black zipper up hooded sweatshirts (Exhibits #500 and #501). The sweatshirts were located in the Sandy Hook Elementary School parking lot on the pavement next to the suspect's vehicle (a black 2010 Honda Civic, CT registration 872YEO). Additionally, an Intergriswab swabbing was taken of a red blood like substance that was found on the pavement of the Sandy Hook Elementary School parking lot (Exhibit #502) for the purposes of identifying a potential DNA source. The red blood like substance was located next to a white Subaru bearing New York registration [redacted], which was parked in the northeast side of the

parking lot. One S&B 60 56x45 live ammunition round (Exhibit #503) was located on the pavement in the Sandy Hook Elementary School parking lot next to the suspect's vehicle. One twelve gauge live shotgun ammunition round (Exhibit #504) was located on the pavement of the Sandy Hook Elementary School parking lot. The twelve gauge round was located next to the dark gray Subaru bearing Connecticut registration [redacted] which was parked on the north side of the parking lot. All evidence items are detailed on separate evidence report. Refer to the Connecticut State Police Crash Analysis Reconstruction Squad (CARS) supplemental scene diagram for exact locations of the evidence items seized.

Evidence items five hundred (500) through five hundred and four (504) were turned over to Detective Keith of WDMC on December 15, 2012 approximately 0008 hours.

Action Taken:

On Friday, December 14, 2012 at approximately 1000 hours, investigators of the Central District Major Crime Squad were requested by the Western District Major Crime Squad to assist with the exterior scene processing of the Sandy Hook Elementary School located at 12 Dickinson Drive in Sandy Hook, Connecticut.

Scene processing consisted of investigators completing an exterior scene diagram (CARS Unit), documenting the exterior scene with video, primary digital photography, secondary digital photography, and examining the entire exterior scene for items of evidentiary value. Processing began at approximately 1500 hours and ended at approximately 2330 hours on December 14, 2012. Additional scene processing was also conducted on December 17, 2012 between 1500 hours on 1645 hours as well as on December 18, 2012 between 1000 hours and 1500 hours.

On December 14, 2012, investigators conducted a systematic search of the scene. Investigators identified the suspect's vehicle, a 2010 black Honda Civic bearing Connecticut

registration 872YEO, VIN# 2HGFA1F51AH542299, which located in front of the main entrance of the Sandy Hook Elementary School, parked in a no parking zone. Prior to investigators searching the suspect's vehicle, members of the Emergency Services Unit (ESU) conducted a cursory search of the vehicle and located a weapon (later seized as Exhibit #505) in the back seat of the suspect's vehicle. That weapon was moved to the locked trunk area of the suspect's vehicle for safety reasons. The suspect's vehicle was processed at a later date under the legal authority of a Search and Seizure Warrant. Refer to the supplemental vehicle processing report for details regarding the vehicle processing and the evidence that was seized from within it. Investigators identified two (2) C-Sport brand black zipper up hooded sweatshirts (Exhibits #500 and #501) located on the pavement adjacent to the suspect's vehicle. Investigators then identified one (1) S&B 60 56x45 live ammunition round (Exhibit #503), which was also located on the pavement adjacent to the suspect's vehicle.

During the search, a red blood like substance was located next to a white Subaru bearing New York registration [redacted], which was parked in the northeast side of the parking lot. An Integriswab swabbing was taken of the red blood like substance (Exhibit #502) for the purposes of identifying a potential DNA source. One twelve gauge live shotgun ammunition round (Exhibit #504) was located on the pavement of the parking lot. The twelve gauge round was located next to the dark gray Subaru bearing Connecticut registration [redacted], which was parked on the north side of the parking lot.

Evidence items five hundred (500) through five hundred and four (504) were turned over to Detective Keith of WDMC on December 15, 2012 approximately 0008 hours.

While continuing the systematic search of the exterior of the school on December 14, 2012, investigators observed a grouping of suspected bullet strikes within the glass and metal glass framing on the north wall of classroom 10. This wall abuts the school's parking lot. All suspected bullet strikes were documented with photography in digital format, as well as being located with measurements taken by the Connecticut State Police Crash Analysis Reconstruction Squad (CARS). Refer to the supplemental Bullet Strike report and the CARS scene diagram.

A further search of the parking lot area lead investigators to identify three (3) vehicles that had sustained suspected bullet strikes during the incident. The vehicles were located in the first and second row of the parking lot nearest the north side of the building. Refer to the supplemental CARS scene diagram for further details with regards to the vehicle locations. The following is a list of the vehicles with suspected bullet strikes:

- 2004 Honda Civic bearing Connecticut registration [redacted]

- 2006 Toyota Camry bearing Connecticut registration [redacted]
- 2005 Toyota Sienna bearing Connecticut registration [redacted]

On Sunday, December 16, 2012 the above mentioned vehicles were processed by investigators. Processing consisted of investigators documenting the vehicle with video, digital photography, completing a motor vehicle survey, performing bullet strike analysis / trajectory and examining the interior and exterior of the vehicle for bullet projectiles as well as any other items of evidentiary value. Prior to the vehicles being returned to the owners, a secondary exterior search was conducted by investigators with negative findings for additional items of evidentiary value. Refer to the supplemental vehicle processing and bullet strike reports for the details regarding the vehicle processings and the evidence that was seized from the vehicles.

On December 17, 2012, investigators performed a cursory search of the mulch and plant area located on the north side of the school. The search yielded negative results. Then on December 18, 2012, investigators performed a systematic search of the mulch and plant area adjacent to the front entrance concrete patio, which was located in front of the windows on the north side of the school. Investigators raked out the mulch beds and plant area, utilized metal detectors and removed some plantings during the search. Investigators efforts yielded negative results for items of evidentiary value. It should be noted that WDMC previously processed the front entrance concrete patio area, which yielded the recovery of numerous expended shell casings. Refer to WDMC Detective Sliby's scene report for a detailed description of the items of evidentiary value that were seized from the front entrance patio area.

Processing began with videotaped documentation on Friday, 12/14/2012 at 1546 hours. Photographic documentation began on this same day at 1617 hours.

FRONT ENTRANCE/PATIO AREA

The patio area was located north of the main entrance to the lobby of the school. The patio floor was concrete and recessed into the east portion of the north side of the school. The east brick wall of the patio area constituted the west wall of classroom #12. The west brick wall of the patio area constituted the east wall of the mechanical area. The patio area had a roof covering and shrubbery plantings in the center portion of the patio. The shrubbery plantings were located west of the main entrance doors and north of the lobby windows. [redacted] The exterior door of the mechanical area on the west side of the patio was observed to be partially open. The hilt of the knob was broken and the knob was unlocked. The kitchen area within the school could be accessed from a door this mechanical room.

The main entrance consisted of two locked full glass doors that were both hinged on the east side and opened outwardly using a pull handle. These doors were secured with an electronic locking mechanism and require the door to be unlocked electronically or opened from the inside. The doors could be opened from the inside with a Safety Door Exit Device with Extruded Aluminum Mechanism Housing (push bar). This push bar design was mounted horizontally across the middle portion of the door. These doors provided access to a vestibule. There are two locked doors on the south side of the vestibule that provide access into the lobby of the school. These two doors were similar to the entrance doors with full glass, hinge on the east side and a push bar design. The vestibule was made up of a cinderblock wall on the east side that was also the west wall with classroom #12. There were three (3) full length windows on the west side and the two entrance doors to the lobby on the south side of the vestibule.

On the exterior side of the main entrance doorway, adjacent to the west side of the west entrance door to the vestibule, was a "call box" buzzer system with a video camera. [redacted] stated that this call box was installed seven (7) years ago, 2005, and confirmed that the video camera does not record. The call box video is viewed live on three (3) monitoring systems located on the three (3) secretary desks in the main office with no recording capabilities. The electronic unlocking of the front doors is done by using a "key button" on any of the three (3) monitoring systems. (For further details refer to Det. Mudry's Nexgen Report #74667)

Adjacent to the west side of the front entrance doors were six (6) large pane glass windows that made up the north wall of the lobby area. The large pane windows measured individually approximately 85 ½ inches high and 49 inches wide. The large pane of glass immediately adjacent to the west side of the west main entrance door was broken with a large oval shaped opening in the glass. This broken area in the glass measured approximately 35 1/3 inches wide and 42 ½ inches high. Glass shards were located on the patio and plantings in the area adjacent to the north side (outside) of the glass window area and also on the tile floor in the lobby. **Eight (8) expended brass colored casings,** each with the head stamp "S&B 60 5.56x45", were located in the patio area just north of the broken window and front entrance doors. These casings were seized as Exhibit #5 and Exhibit #94.

LOBBY

The lobby measured approximately 28 feet north to south and 36 feet east to west. The lobby was accessed upon entry into the school from the main entrance on the north side of the school. The southeast corner of the lobby allowed open access to

the north hallway of the school. The southwest corner of the lobby allowed open access to the west hallway of the school. The cafeteria could be accessed through a door on the west wall of the lobby. This door opened into the lobby. The cafeteria door was wooden and had a circular window in the upper portion of the door. This door was found in the open position. The kitchen of the cafeteria could be accessed through a door on the west wall of the lobby, north of the cafeteria doors. This door had no window and was found in the open position. The main office could be accessed from a door on the south wall of the lobby. This office door was comprised of solid wood with a narrow vertical window located to the east side and upper portion of the door. There were four large square windows with four small rectangular windows above them on the south wall of the lobby (north wall of the office). These windows were located east of the office entrance door. Each window and the door window of the office were comprised of diamond wire glass. There was a long brown wooden bench located under the windows of the office on the south wall of the lobby.

The floor in the lobby was made up of square two foot by two foot black, brown and white porcelain tile. The lobby ceiling was approximately 8 feet high. The walls were comprised of white painted cinder block over tan colored tile with a blue painted divide between them. The lower portion of the wall was approximately 4 feet 7 inches of tan colored tile and the upper portion was approximately 3 feet four inches of white painted cinder block. **Sixteen (16) brass colored expended bullet casings,** bearing the head stamp "S&B 60 5.56x45", were located on the floor and within the lobby area. The expended casings were seized as Exhibit #6.

Adjacent to the south side of the north windows in the lobby were assorted display cases, magazine racks and furniture. In the center west side of the lobby area was a wood table with six (6) wood framed with blue cushioned chairs. Adjacent to the east side of the lobby area against the west glass wall of the vestibule were two (2) wood framed, with blue cushion, chairs and a wood, with blue cushion, love seat. Adjacent to the west side of the broken window on the north wall of the lobby was a wooden magazine rack and a wood framed, with blue cushion, chair. The magazine rack and one of the wooden framed chairs on the east side of the wood table had holes consistent with bullet holes within them. There was a stack of magazines in the magazine rack that had a hole consistent with a bullet hole going through the stack of magazines. The stack of magazines was seized collectively as Exhibit #132. The magazine rack and the chairs appeared to be out of place and a potted plant was tipped over consistent with a person or persons entering the lobby through the large hole in the glass on the north wall adjacent to the west side of the entrance door.

There were eleven (11) damaged areas consistent with bullet strikes in the lobby area. These bullet strikes were located within the cinder block and tile covered walls of the south wall of the lobby and west wall of the west hallway, as well as a display case on the south wall of the lobby, a magazine rack, coffee table and a chair located in the northern portion of the lobby. On the south wall of the lobby, west of the main office door, was a large built in display case with sliding glass doors and decorative arrangements. Beneath this display case was a free standing glass display case table with assorted decorative arrangements. This free standing display case had a hole in the glass that was consistent with a bullet hole located in the front (north) portion of the west side. This free standing display case was seized as **Exhibit #133**. Picture frames hanging on the west wall of the west hallway in the area of the lobby were damaged with holes consistent with bullet holes. The cinderblock walls behind the picture frames had damage consistent with divots made by a projectile passing through the picture frames and hitting the wall. No projectiles were observed in these divots. Two of these damaged picture frames were seized as **Exhibit #130** and **Exhibit #131**. Exhibit #130 was a glass encased framed picture of "Red Slider" with a bullet hole and Exhibit #131 was a glass encased framed picture of "A Bear Named Trouble" with a bullet hole. There were two (2) copper-like projectiles seized from the west hallway, with one being adjacent to the gym (center of west hallway) seized as **Exhibit #15** and the other being at the south end of the west hallway, seized as **Exhibit #16**. **(The locations of the bullet strikes in the lobby labeled BH#1 thru BH #11 were measured into a sketch map for documentation by the CSP-CARS UNIT. REFER TO THE SKETCH MAP AND ASSOCIATED REPORTS COMPLETED BY THE CARS UNIT).**

NORTH HALLWAY

The north hallway, as previously mentioned, contained the lobby, main office, nurse's room, rooms 1-10, and 12. The north hallway floor was made up of square two foot by two foot black, brown and white porcelain-like tile. The ceiling was approximately 8 feet high and the width of the hallway was approximately 8 feet 5 inches. The walls were comprised of white painted cinder block over tan colored tile with a blue painted divide between them. The lower portion of the wall was approximately 4 feet 7 inches of tan colored tile and the upper portion was approximately 3 feet 4 inches of white painted cinder block.

The even numbered rooms were on the north side of the hallway with classroom #12 being the western-most classroom and classroom #2 being the eastern-most. The odd numbered rooms were on the south side of the hallway with the main office being the western-most room and classroom #1 being the eastern-most. East of the main

office is a closet labeled "11A-5 storage" and east of the closet was a conference room identified as Room #9.

In the western-most area of the north hallway, before entry into the lobby area, were two deceased adult females, later identified as Principal Dawn Hochsprung [redacted] and School Psychologist Mary Sherlach [redacted]
There was a writing easel lying on its side to the west of the victims. Newtown Police Detective Jason Frank reported to me that he put this easel in this location to prevent exiting children from seeing the victims.

There was a hole consistent with a bullet hole (BH-12) in the bore side of the door to Room #9 (Conference Room). This door opened outward into the hallway with the hinge side on the west side. The damage to the door was consistent with this door having been open to some degree at the time the projectile passed through it. This door was wooden with a large circular window on the upper portion of the door. There was yellow caution tape applied to the hallway floor in the area of the conference door. On the floor of the hallway, within this rectangular area marked with caution tape adjacent to Room #9 (Conference Room) was a lead-like projectile that was seized as Exhibit #7. There was a hole consistent with a bullet hole (BH-13) in the south wall of the hallway adjacent to the east side of the east door jamb of Room #9 (Conference Room). **(The locations of these bullet strikes labeled BH#12 thru BH #13 were measured into a sketch map for documentation by the CSP-CARS UNIT. There were Police and EMS belongings on the north hallway floor adjacent to the west side of Room #5 to include two "Life Pacs." On the floor in the north hallway was a tan bin containing children's books located on the floor adjacent to the west side of classroom #10 and on the east side of classroom #7. [redacted]

One (1) brass colored expended bullet casing bearing the head stamp "10mm Auto" was located and seized as Exhibit #8 from the south side of the north hallway floor just east of the conference room (Room #9).

On the floor on the north side of the north hallway west of classroom #6 and east of classroom #8 were **four (4) live rounds** of 5.56 mm ammunition with the head stamp "S&B 60 5.56x45" (Seized as Exhibits #9-12). Adjacent to these live rounds was a "PMAG 30" black plastic magazine that contained **eleven (11) live rounds** of 5.56 ammunition. This magazine and the eleven (11) live rounds were seized as Exhibit #13.

At the southeast side of the north hallway was classroom #1 [redacted] The door was located on the south wall of the north hallway and was located east of the east hallway. The door was not recessed into the hallway but instead opened directly into the hallway and was hinged on the east side. There was a hole, consistent with a bullet hole in the interior side of the lower portion the door to classroom #1. This projectile perforated the door leaving a hole on the exterior side of the door (BH#17) and a hole (BH#16) in the east wall of the north hallway to the south of classroom #1C (Custodial Closet). These series of holes are consistent with the door having been fully opened at the time the projectile inflicted the damage to the door.

There was a second hole in the east wall of the north hallway, in close proximity to the previously mentioned hole, also consistent with a bullet hole (BH-#15). This hole did not line up with any of the previously mentioned other holes in the door to classroom #1 and therefore would have occurred when the door was not fully open. There was a hole in the door for Room #1C (Custodial Closet) on the east wall of the north hallway in close proximity to the previously mentioned hole #15. This hole was also consistent with a bullet hole (BH-14). A copper jacketed projectile was seized as Exhibit #14 from the hallway area in close proximity to the threshold of classroom #1 entrance door from this hallway. CONFERENCE ROOM (ROOM #9)

The conference room (Room #9) was located on the south side of the north hallway. The conference room door was located on the opposite side of the hallway and approximately 16 feet east of the entrance door for classroom #12. The conference room was approximately 39 feet east of the lobby. The conference room door, as previously mentioned, was wooden with a large circular window in the upper half of the door.

This window was not covered and the door was not locked. The conference room had a carpeted floor with an oval shaped conference table in the middle of the room. There were laptop computers and iPads on the table, as well as seven (7) paper name tags affixed to metal tag holders on the table. These name tags presumably denote the location of people sitting around this conference table. The name tags around the table denoted the names: [redacted]

This room appeared orderly with the exception that there were chairs tipped over on their sides. Two chairs were tipped over in the area of Dawn Hochsprung's name tag located on the south side of the conference table. There were two chairs tipped over in the southeast corner of the room adjacent to a rectangular table with a desk phone on top of it. The desk phone was a hard-lined phone and was on its receiver. There was a tipped over chair in the southwest corner of the room adjacent to a rectangular table. There was a cream colored hard-lined wall phone mounted in the center of the west wall. This phone was on its receiver. There was a chair tipped over on the west side of the entrance door. There was a chair on the east side of the entrance door that was upright and had blood-like stains on it. Sgt. CLASSROOM #12 (Miss. Riog)

Classroom #12 was located on the north side of the north hallway and was the first classroom east of the front lobby. This classroom door was located approximately 23 feet east of the lobby and is accessed from a door that was recessed within the north side of the north hallway. As previously mentioned, the door opened outward (toward the hallway) and was wooden with a large circular window in the upper portion. This door was hinged on the east side. The window was covered on the outside (hallway side) with dark colored paper. The door could only be locked by using a key on the exterior door handle key lock. The interior door handle had no locking mechanism. This room was measured to be approximately 27 feet east to west and 30 feet north to south with carpeted floors and painted cinderblock walls.
Fluorescent ceiling lights automatically turned on when entering the room.

There were eight large glass windows across the north wall which provided a view into the front (north) parking lot of the school and a partial view of the front patio area. There were four panes of glass to each large window. The top and second from the bottom panes opened up in a push-style manner. None of these windows appeared to be open. These windows had four (4) venetian blinds that covered two (2) windows each. The western-most blind was fully open and the blind was fully retracted toward the ceiling. The blind adjacent to the western-most blind was extended approximately 3/4 length of the window and partially closed. The other two blinds were extended approximately 3/4 the length of the window and in the open position. There were large posters across the lower portion of the windows limiting the view into the parking lot, with the exception of the two western-most windows. There was a book case along the entire north wall under the windows that stood approximately 2 feet 5 inches high and 1 foot 6 inches deep. There were posters across the lower portion of the windows partially but not completely limiting the view into the parking lot. There were stacks of items and supplies on the top of the bookcase under the windows that partially blocked the view from these eight (8) windows.

The teacher's desk was located in the northwest corner of the room. On the south side of the teacher's desk was a white bag with an orange wallet that contained the Connecticut driver's license fo[redacted]. There was also a set of keys on the desk to include a vehicle key for a "BMW". The west wall of the classroom was a shared wall with the front lobby of the school. The northwest corner of this classroom was closest to the area of the front entrance to the school.

CLASSROOM #6

Classroom #6 was located on the north side of the north hallway and was the fourth classroom east of the front lobby and approximately 27 feet east of classroom #8. This classroom was accessed from a door that was recessed within the north side of the north hallway. As previously mentioned, the door opened outward (toward the hallway) and was wooden with a large circular window in the upper portion. This door was hinged on the east side. This window was partially covered on the inside of the window by a wooden "Apple" designed decoration. The door could only be locked by using a key on the exterior door handle key lock. The interior door handle had no locking mechanism. This room was carpeted with painted cinderblock walls. Florescent ceiling lights automatically turned on when entering the room.

There was a door on the north side of the west wall that provided access into classroom #8. This door opened inward to classroom #6 and was hinged on the north side. This door knob was unlocked and had key locks on both sides of the door.

- Right rear pants pocket contained two (2) "Glock 10 mm" magazines each containing fifteen (15) live rounds of 10 mm ammunition. These magazines were seized as **Exhibit #44**. Each magazine was loaded to full capacity.

253 live rounds of ammunitions on the shooter's person:

9 mm:	116 rounds
10mm:	75 rounds
5.56 mm:	61 rounds
12 ga:	1 round

Located on the floor underneath the shooter was one (1) black "PMAG 30" magazine containing thirty (30) live rounds of 5.56 mm ammunition (head stamp S&B 5.56x45). This magazine was seized as **Exhibit #42**. This magazine was loaded to full capacity.

Detective Karoline Keith

Located on the floor east of the shooter was a "Glock" 10 mm semi-automatic pistol that was seized as **Exhibit #19** (one "Glock" 10 mm, S/N SMA461). One round was partially loaded in the chamber, with a magazine of eight (8) rounds remaining). I observed this pistol to be lying on its left side pointed in a southwest direction. This pistol was measured to be approximately 2 feet 6 inches north of the hallway entrance door and approximately 2 feet 8 inches east of the suspect. This pistol appeared to be jammed with a partially open ejection port and one (1) live round of "10mm Auto" ammunition partially loaded into the chamber. This pistol contained one (1) "Glock 10mm" magazine that contained eight (8) live rounds of 10mm ammunition with the head stamp "10 mm Auto". (Magazines full capacity is 15). This pistol had numerous attached hairs to the front sight area of the pistol. These hairs were consistent in color with that of the shooter's hair. I observed one expended 10 mm casing located on the west side of the hallway entrance door in the area of the shooter. This expended casing was seized as part of **Exhibit #37** (from the southwest quadrant of classroom #10). There were four (4) live rounds of 10 mm ammunition all with the head stamp "10mm AUTO" on the floor in the southeastern portion of the classroom which is also the area the shooter was located. These live rounds of 10mm ammunition were seized as **Exhibits #22 thru #25**. **[NOTE: Four live 10 mm rounds found under the body, nine live 10 mm rounds in the pistol, and two expended 10 mm casings located = 15 rounds total, making a full capacity magazine]**

A black colored "Flexfit" canvas "boonie-styled" hat was located on the floor northeast of the suspect. This hat was seized as **Exhibit #21**. This hat had blood-like stains, hairs and a hole consistent with a bullet hole in the forward portion of the top of the hat. This hole was consistent with having been worn by the shooter at the time the shooter received a bullet to the right rear lower portion of his head which exited out the top forward portion of his head and hat. There was a pair of small wire framed glasses on the floor north of Exhibit #19 (Glock 10 mm). These glasses had blood-like stains on them and appeared to be small and consistent with child size glasses. There was no deceased child in close proximity to the shooter's body.

TRAJECTORY OF SUSPECTED SUICIDE SHOT

There was a hole consistent with a bullet hole located in the ceiling tile located approximately 8 feet 1 inch from the south wall and 5 feet 2 inches from the east wall. This hole was documented in photographs as "SBH #1 room 10". This projectile struck but did not penetrate a corrugated metal ceiling that was

elevated and behind the ceiling tile. This strike was documented in photographs as "Strike #1 A". The projectile ricocheted and was later located above the ceiling tile in classroom 8 and seized as Exhibit # 98 (a lead and copper projectile). In the ceiling there was only a knee wall separating the two rooms.Trajectory documentation was completed on this hole with a documented horizontal angle (right (east) to left (west) of 66 degrees) and a vertical angle of 40 degrees from the floor. At a height of 5 feet along the path of this trajectory the muzzle would be located at approximately 7 feet 7 inches from the east wall and 7 feet 9 inches from the south wall.

Trajectory documentation, locations of blood-like stains, tissue, hair, and the shooter's body are all consistent with the shooter standing and facing in an east direction at the time of receiving a suspected self-inflicted gunshot wound to the right side of his head.

"BUSHMASTER" semi-automatic rifle [Exhibit #17]

A Bushmaster caliber .223 riflé, model XM15-E2S with associated serial number L534858 was located on the floor of classroom #10 and was seized as Exhibit #17. This rifle was located west of the southern-most cluster of desks and east of the door on the west wall that provides access to classroom #12. This rifle was lying on its right side pointed in a northeast direction. This rifle had a shoulder strap that was attached in the front to the underside of the forearm in the area under the rear attachment for the front site. The rear portion of the sling attachment had become detached when a threaded nut failed and detached from the underside of the rear portion of the stock. The black threaded nut that was consistent with the sling attachment to the rifle was located on the floor in close proximity (approximately 2 feet northeast) of the rifle (Exhibit #17). This black thread nut was seized as Exhibit #33. It could not be determined whether the sling failed during use or when it was placed, thrown or dropped on the floor.

The rifle (Exhibit #17) was observed to be lying on the floor on its right side. The rifle safety indicator was on "FIRE". There was one (1) live round of 5.56 mm ammunition in the chamber and one (1) "PMAG 30" magazine in the magazine well, containing fourteen (14) live 5.56 mm rounds of ammunition. The charging handle was observed to be in the forward position with no obvious malfunctioning issues. The barrel of the rifle had a muzzle break.

The barrel appeared to have a chalky residue on all sides of the muzzle break to, and including, the front site. This weapon was made safe by assigned Evidence Detective Dan Sliby #810 with its configuration documented.

CLASSROOM #10 (Continued)

On the floor within inches of the barrel of Exhibit #17 (Bushmaster Rifle), there were two (2) empty "PMAG 30" magazines duct taped together in a tactical configuration. These two (2) magazines were seized as Exhibit #18. There was one (1) live round of 5.56 mm ammunition located on the floor in close proximity to the west side of the barrel of Exhibit #17 (Bushmaster rifle). This round was seized as Exhibit #34.

Search for casings and projectiles in classroom #10

Detective Sliby #810 measured equal distances on each wall of classroom #10 and cordoned off the room into four (4) quadrants. The southeast, southwest, northeast and northwest quadrants were established for purposes of collecting expended bullet casings and projectiles.

- **NE Quadrant**: Exhibit #36 (Fifteen (15) expended 5.56 mm casings and copper jackets and lead-like fragments)
- **NW Quadrant:** Exhibit #35 (one (1) expended 5.56 mm casing)
- **SE Quadrant:** Exhibit #38 (Twenty six (26) expended 5.56 mm casings)
- **SW Quadrant:** Exhibit #37 (Seven (7) expended 5.56 mm casings and one (1) expended 10 mm casing)

Six (6) lead projectiles were seized from the northwest quadrant and seized as Exhibits #26 and # 28 thru 32. One (1) lead projectile was seized as Exhibit #27 from the southwest quadrant near the door to classroom #12. One (1) lead and copper fragment with wood particles was seized as Exhibit #84 from the west wall approximately 8 inches from the floor and 1 foot 4 ½ inches from the south edge of the bookcase on the north wall. This projectile was in an area near the semi-circular table. There was a lead and copper like fragment that was seized as Exhibit #96 from the venetian blind on the north wall approximately 6 feet 8 inches from the floor and 4 ½ inches from the east wall. There was a copper jacketed projectile (seized as Exhibit #129) lodged in the top metal portion of the north corner of this bulletin board in an area above the teacher's desk. There was a lead and copper like fragment seized as Exhibit #85 from the top metal bulletin board frame on the east wall. This

PURPOSE STATEMENT

A goal of the Newtown Board of Education is creating a positive school environment where learning can take place in a safe and secure climate. In order to ensure that the school environment is safe for all students, the Newtown Public Schools have the capacity to deal with a crisis and emergencies when they occur. It is important that every staff person have an understanding of district and school plans regarding emergencies, and understands their responsibilities. Building personnel who know the students, parents and school community are best able to provide direction and support in times of a crisis. School-based teams can react quickly, respond in a personal and individualized manner, and continue monitoring the after effects of a crisis. This guide is intended to provide both essential information and instructions to enable a school to respond appropriately in case of an emergency and to provide information on prevention, intervention, and post-crisis planning.

UNKNOWN PERSON/INTRUDERS

Staff, faculty and students should be observant at all times. Be diligent in reporting any and all unknown persons entering the school property, either in the parking lots or inside the facility.

1. Keep a cautious distance from the person while you introduce yourself and offer the person help to establish a valid or a suspicious response.
2. Go to the nearest phone [redacted] who will notify [redacted] of the sighting, if the person is suspicious.

BUILDING DISRUPTIONS

RESPONDING TO A DISRUPTION ACCORDING TO THE LEVEL OF SERIOUSNESS AND INTENSITY.

LEVEL 1. When a disruption is confined to one area and there is no threat to students or staff, (e.g., intruder or verbally abusive individual):

1. Go to [redacted] who will then notify [redacted]
2. Indicate [redacted] as the kind of response needed and identify the exact location.
3. Containment and removal with minimum interruption of the educational processes should be the overall practice.

LEVEL 2. When disruptive forces pose a direct threat to members of the school community (e.g., threatening, suspicious or angry intruders, gang activity or possibility of weapon possession):

1. Go to [redacted] who will notify [redacted] of the sighting.
2. Indicate [redacted] as the kind of response needed and identify the exact location.
3. Institute classroom "lockdown" [redacted]
4. [redacted] to notify Incident Management Team and police if necessary. [redacted]

SUGGESTED EVACUATION SITES AND TRANSPORTATION

OUTDOOR EVACUATION - TEMPORARY HOLDING AREA AND EARLY DISMISSAL

1. Outdoor evacuation - temporary holding area and early dismissal. Primary holding areas are [redacted] ; [redacted]

2. Secondary holding area will be [redacted]. A member of the Incident Management Team will secure that road to ensure safety of students from traffic. Classroom teachers and rest of Incident Management Team (IMT) will escort classes to designated area. Should it become necessary to transport students to Relocation Site (see below), students will be escorted to [redacted]

INDOOR - SHELTER IN PLACE

1. In certain emergency situations [redacted] may serve as areas of refuge. These areas are large enough to accommodate all of the students and staff. They also have double exits, close proximity to bathroom facilities and a means of communication.

Relocation Sites

[redacted] - In the event Sandy Hook School cannot be reentered, students will be transported to [redacted] for ultimate delivery home. Buses will pick up children at [redacted].

EARTHQUAKE

Because earthquakes can strike without warning, the immediate need is to protect lives by taking the best available cover. All other actions must wait until the tremors subside.

1. **Shelter In Place/Duck and Cover.** Advise staff and students (code for shelter in place) to take shelter under desks, tables or furniture. Hold onto the legs of the furniture and keep away from windows, electrical equipment and cabinets. Drop to your knees, make body as small as possible, and bury face in your arms. If outdoors, stay clear of buildings, trees and power lines. Stay outdoors. Lie face down and wait for tremors to subside.
2. Determine a temporary command post and notify the Incident Management Team. Assess the situation.
3. Identify injured persons. If necessary call 911 for emergency services.
4. Identify danger zones and set up inner and outer perimeters to control access and limit risk.
5. Consider **selective evacuation** while continuing to **shelter in place**. Inspect buildings before moving.
6. Shut off ventilation system.
7. Identify and request needed resources.

TORNADO / HURRICANE / SEVERE THUNDERSTORM

Tornadoes, hurricanes and severe thunderstorms may occur in this area. Information regarding tornadoes will be broadcast on the National Weather Station and usually provides 12-24 hours of advanced warning. This does not generally constitute an in-school emergency. The Superintendent will relay information to all the principals. However, should a situation arise where you are caught in session without notice, do the following:

1. Continue normal operations and notify the Incident Management Team.
2. Open a command post and remain available to give orders and receive information.
3. Make and maintain communications with the Superintendent of Schools.
4. Try to determine the level of threat and amount of time left to react.
5. Choose either **early dismissal** if sufficient time remains, or, if not, **Shelter in Place**.
6. Make radio announcements and notify parents in a timely fashion.
7. If necessary, advise the population of **High Wind Emergency** practices. Take shelter in hallways at pre-designated locations using Duck and Cover protocol. Keep away from windows, electrical equipment and cabinets. Drop to your knees, make body as small as possible, and bury face in arms.

FACILITY EMERGENCIES

POWER FAILURE

Sandy Hook School is equipped with an emergency power system. The school is self-supporting and allows normal operation However, if this system should fail:

1. Children will be kept in their rooms monitored by appropriate staff until it is determined whether or not an early dismissal is warranted.
2. The principal and all members of the Incident Management Team will immediately report to the Main Office. The room fits the criteria for a command post and is naturally lit with a southern exposure.
3. Shelter in place. The Incident Management Team should verbally inform staff and students to remain where they are until further notice.
4. Notify and consult with Building Grounds Director [redacted] cell phone [redacted], pager [redacted]
5. Notify and consult with the Superintendent's office [redacted]
6. Consider moving students in darkness, if necessary, to a naturally lit area in the building.
7. Determine whether early dismissal or a move to an alternate site is warranted.
8. Notify Director of Transportation [redacted]

FIRE / GAS LEAK

1. **Activate the fire alarm and evacuate facility. Do not use the elevators.**
   No bells, switches, or electronic devices, etc. may be used.
   Portable radios and cell phone communication are safe.
2. Teachers, via directions posted in every classroom, "follow" students out of classroom to assure no one is left behind. Staff and students must be at least 75-100 feet away from the structure and clear of road ways.
3. Incident Management Team is to report to their designated posts with portable radios while custodians shall check buildings for person then exit.
4. Notify Building Grounds Director [redacted] or [redacted] Cell phone [redacted]
   pager [redacted]
   He will notify the Gas Company and the Superintendent's office at [redacted].
5. Maintenance personnel should respond as rapidly as possible to investigate the problem area.
6. If the principal determines that the emergency will be of considerable duration, or if remaining at the school site presents a hazard, directions will be given for moving to an alternate site or dismissal.
7. All emergency early dismissals will be announced on the radio and parents will be contacted if at all possible.

BOMB THREATS

Keep the caller on the line as long as possible. Write the exact wording of the threat. Ask caller to repeat the message. Pay particular attention to background noises, such as motors running, music playing, and any other noise which may give a clue as to the location of the caller. Listen closely to the voice (male, female), voice quality (calm, excited), accents, and speech impediments.

____

____

Questions to ask the caller:

What is your name? ______________________

When is the bomb going to explode? ______________________

Where is the bomb right now? ______________________

What does it look like? ______________________

What will cause it to explode ? ______________________

Did you place the bomb? ______________________

Why do you want to hurt innocent people ? ______________________

Number receiving the call: ____________ Staff Member Name: ______________________

Immediately after the caller hangs up , report the information to the principal of the school.

ACTION GUIDE

1. **Establish communication and assess situation.** Principal attempts to determine, from available information (type of call, age of caller, nature of message, etc.), whether the threat is merely a hoax or a bonafide threat. In either case be prepared and immediately notify:
   - Incident Management Team [redacted]
   - Local Police/Emergency Services (911).
   - Superintendent of Schools [redacted]
   - State Police Bomb Squad. [redacted]

As soon as possible, choose one of following options:

A. Continue program and investigate the threat.
B. Evacuate immediately and search after evacuation. [redacted] means evacuate facility in the normal timely fashion and wait for outside resources to arrive.
C. Search and evacuate, if warranted. [redacted] means shelter in place and stay put.

2. **Identify the Danger Zone (with option C.)** The principal should utilize the staff to assist in the search, each staff member having a pre-designated area. [redacted] An evacuation can be accomplished expeditiously while at the same time avoiding the potential danger areas. If a suspicious item is found, leave it alone and move to the next step. Open all doors and windows if possible.

Evacuation options:

A. Standard fire drill method of evacuation.
B. Extended distance evacuation to [redacted]
C. Inclement weather evacuation to [redacted]

3. **Set Inner Perimeter.** [redacted].

4. **Set Outer Perimeter.** [redacted]

5. **Open a Command Post.** You should open a command post (to be determined) as soon as possible. It should be [redacted]

6. **Activate Staging Areas.** Point out where resources could or should report before they are deployed.

7. **Identify and Request Needed Resources.** As early as possible, try to assess what resources might be needed and request that they be made available. Be proactive and creative when ordering resources. Know what the district can provide, but also know what might be available through other nearby sources. Sound judgement dictates locating equipment and supplies already in the area that can be invaluable. Regardless of where the resources come from, direct them to the staging areas so they can be called upon when needed.

As soon as possible, choose one of the following:

A. Return to normal operation. Decision made concurrently by a building principal/police.
B. Early dismissal. Decision to be made by the superintendent.

- The school nurse will take the necessary steps to confirm or deny the possible contagion by contacting the parents and advising them of the need to seek medical consultation.
- The nurse, after consulting with the school medical advisor, will exclude the student from school.
- The student will continue to be excluded until such time as the medical care provider has confirmed, in writing, that it is safe for the student to return to school.
- If there has been a potential exposure to other persons in the school, the Coordinator of Health Services, School Medical Advisor and Director of Health will collaborate on what expedient and effective procedures should be implemented.
- The private physician should notify state and local health departments of all reportable cases after consulting with the school medical advisor.
- Any release of information to the media will be made through the Office of the Superintendent.
- Confidentiality will be maintained.

YOUTH SUICIDE PREVENTION

The Newtown Public Schools believe that any school employee who may have knowledge of a student who could potentially commit suicide must take the proper steps, as specified in the Board Policy and Regulations, which include notifying the student's parents or guardians/ surrogates and taking the appropriate steps to ensure the student's safety.

SOME WARNING SIGNS OR RISK FACTORS

- expression of suicidal thoughts
- preoccupation with death
- abrupt changes in personality such as crying, irritability, recklessness, promiscuity, atypical sleeping or eating patterns, apathy, declining grades
- withdrawal from friends
- giving away possessions
- excessive grieving from a recent loss (e.g., death in the family or the breaking up of a relationship), previous history of suicide or suicidal gestures, feeling of worthlessness
- abuse of alcohol, or other drugs
- access to weapons, especially guns

These factors become even more significant if a parent, friend, or sibling has committed suicide.

GUIDELINES FOR REACTING TO POTENTIAL SUICIDE

If a student confides in you that he/she is contemplating suicide do not keep it a secret. Try to transfer the child's trust in you to a school specialist, (i.e., psychologist, social worker or crisis counselor) who will work with the student and involve a responsible parent or guardian in arranging for treatment outside school.

If school is not in session and there is no responsible parent or guardian/surrogate, the suicidal person needs to get to Danbury Hospital's Crisis Intervention Center via the emergency room, which is open 24 hours every day (phone 797-7899).

Issues of Death and Dying / D.N.R. Orders

All Hazards Approach

Media Crisis Communication Plan

ISSUES OF DEATH AND DYING AND STAFF RESPONSIBILITIES

PRINCIPAL SHOULD

1. Verify the death or situational information with family.
2. Notify other appropriate personnel who may need to check on siblings.
   Call Superintendent with known information so he can be prepared for the media.
3. Call faculty meeting and alert all staff.
4. Call crisis team/caring committee coordinator to identify and assist vulnerable staff and students. Plan to offer students and staff time out, counseling, or just someone with whom to talk.
5. Work with team/committee to chair faculty/staff meeting to announce incident.
6. Draft memo for students to be read by teachers.
7. Draft a letter to parents.
8. Assist with contacting helping agencies and individuals.
9. Assist with identifying vulnerable staff and students.
10. Hold a brief end-of-day faculty meeting.
11. Arrange to return student or staff belongings in a personalized and caring manner.

GENERAL GUIDELINES

- Attempt to de-mystify the incident.
- Be honest.
- Respond to any questions asked about the incident.
- Avoid supplying graphic details.
- Remember that children often lack the sophistication to discuss death and tragedy in a sensitive way.
- Model honest expression of feelings on your own part.
- Be attentive to the non-verbal communication.
- A decrease in activity levels may indicate a strong sense of sadness or a sense of being overwhelmed.
- An increase in energy or excitability may indicate the youth's subconscious attempts to distract themselves from the reality of the events (denial).

CONCEPTS OF THE DYING PROCESS

There are four major aspects of death that children struggle to comprehend as they grow:

- Death is irreversible (permanent and final).
- Death is universal - all life will ultimately succumb to death.
- Death ends physical sensations and functioning.
- Death has specific causes, such as injury or illness.

Grieving is age-dependent. The stage of psychological development that a child has reached will affect his/her grieving.

- Children under three years old do not distinguish between death and absence.
- Children 3-5 years old begin to understand death as something that happens to others. This group often personifies death as a person or thing. This age group still believes that death can be avoided or escaped.

3. Set Inner Perimeter

[redacted]

[redacted]

4. Set Outer Perimeter

[redacted]

5. Open a Command Post

A command post should be opened as soon as possible. It should be [redacted]. A number of factors should be considered when selecting a site for the command post: good communications capabilities, good lighting and ventilation with adequate resources, access to response personnel on site as well as district-level managers in the district office. At the same time, they must have access to the command post. The command post should have adequate security. It should not be subjected to unwarranted interruptions by people not involved in the response such as media, parents and onlookers. It is not important to have a view of the danger zone.

It is a good idea that [redacted] the secondary command post will likely be a viable alternative. Always be prepared to consider a third site [redacted] Large facilities such as the high school and middle school might actually have three predetermined command posts. Just because there are predetermined sites does not mean administrators are locked into using them.

6. Activate Staging Areas

Staging areas are where all emergency resources should be sent before they are deployed. Without

(Continued on following page)

THE All HAZARDS APPROACH (continued)

these areas, resources tend to bunch up and clog the scene making an effective response almost impossible. There can be more than one staging area for each event. The number of areas activated will be determined by the type of incident, the number of resources being sent, and the geographic and logistical aspects of getting those resources to the site. When considering where to locate a staging area, several factors should be considered:

- **Size of Area –** A staging area must be large enough to accommodate many vehicles and personnel on a standby basis, such as fire trucks, heavy equipment, police, and the Life Star Helicopter.
- **Good Access –** Resources must be able to get to the staging area. Make it as easy as possible to stage resources so they can be called up as soon as they are needed. The location should allow for a quick and effective deployment. As a rule, a resource should be capable of operation within three to five minutes after being called up.
- **Security –** The staging area should be located in a spot that has little chance of becoming threatened by the event. If the area is too close to the source, it could become part of the danger zone. In a hazardous materials incident, the staging area should not be located down wind of the source.
- **A Staging Area** is often a good site for a media information center. Television reporters will want to use dramatic visuals to report a major event. Since many resources will be in the staging area, live reports can be fed using lighting from emergency vehicles.

7. Identify and Request Needed Resources
As early as possible, try to assess what resources might be needed and request that they be made available. Be proactive and creative when ordering resources. Know what the district can provide, but also know what might be available through other nearby sources.

be avoided or escaped.

- Children 5-9 begin to understand death as a personal event. Death is usually associated with injury and mutilation. Children 10 years and older generally understand death as an ultimate outcome in life.
- Adolescents often become "fixated" with death as they begin to realize that their goals will take time to achieve and death could potentially interfere with these.

POSSIBLE REACTIONS TO DEATH AND LOSS

Shock, Depression, Somatic Symptoms, Fear, Denial, Curiosity, Anger and Guilt, Sadness, Embarrassment

HELPING THE GRIEVING CHILD

DO'S	DONT'S
• Understand your own feelings and comfort levels in dealing with death, offering support to others in need when appropriate. • Understand the child's developmental capacity to deal with death. • Create an open climate that encourages talking about feelings. • Express sympathy and support. • Feel free to say you don't know why the death occurred. • Encourage non-verbal expressions of grief: art, writing, music, etc. • Be honest about the facts of the death (including suicide). • Find ways to include the child in the mourning rituals. • Present death in real terms, (e.g., allow child to take in as much as he/she can) • Accept all the child's questions and answer them to the best of your ability. • Allow the child to cry and be angry and to express grief in an appropriate way. • Pay attention to behavior, especially negative behavior. The child may not be able to express feelings in words. Do set appropriate limits on behavior.	• Let your discomfort prevent you from offering support. • Try to make the child "face the facts" if they seem unable. • Shut off the expression of feelings because of your own discomfort. • Avoid phrases such as, "It's God's will." "You'll get over it." • Try to make up some reason for the death. • Judge any grief expressions as "good" or "bad". • Lie to the child or avoid answering questions. • Tell the child he/she can't go because "he/she can't handle it." • Avoid euphemisms about death (e.g., sleeping, gone away, a blessing, God took) • Tell children their questions are bad or stupid. • Don't say things such as, "Boys don't cry", "Only babies cry", "Don't be sad". • Set appropriate limits and consequences; explain to the child that behavior may be a way of expressing feelings, and encourage expression of feelings.

SUICIDE RELATED DO'S AND DONT'S

DO'S	DONT'S
• Respectfully, but briefly, acknowledge the suicide. • Be especially vigilant of friends of the deceased. • Be especially vigilant of at-risk students. • Try proactively to influence media coverage in order to minimize attention.	• Lavish tribute or praise on the suicide victim; it is best that others see this as a route to appreciation or recognition. • Underestimate the contagion, which frequently follows publicized suicides. Be vigilant.

DO NOT RESUSCITATE ORDERS

In the event a "Do-Not-Resuscitate" order is received from a licensed physician for a student in the Newtown Public Schools, the school nursing staff may honor the order providing the following criteria are met.

1. A written order from the physician is on file in the student's health record.
2. A D.N.R. bracelet is in place on the student.
3. A copy of the "informed consent" form signed by the parent/guardian is on file in the student's health record.
4. A written emergency care plan is in place for the student.
5. A registered nurse is at the school where the student with the D.N.R bracelet is in attendance.

THE All HAZARDS APPROACH

The responsibility for resolving most critical incidents will reside with local public safety agencies. ***Until those agencies arrive on scene,*** however, the primary responders will be [redacted]. While district personnel may not be able to solve the problem, they can take steps to keep an incident from becoming worse. These steps are known as the ***Seven Critical Tasks***.

The Seven Critical Tasks are based on the premise that since there is a similar set of characteristics at the onset of most major events, it follows that there is a similar set of responses for getting those incidents under control. The tasks are designed to be performed in the first 30 minutes or so of an incident, the time of the most confusion and danger. Each task may not be applicable for all events, but using the set as a checklist will ensure that our initial response will always be sound. The Seven Critical Tasks are as follows:

1. Establish Communications

The first step in handling any crisis is to establish communications. Set up a system that enables you to contact and stay in contact with the people with whom you need to talk. Use whatever means are at your disposal. Open phone lines, clear radio channels, identify runners to deliver messages, whatever it takes. Once communication is established, secure the lines so you always have access to them. Move normal traffic to other phones and channels. Reserve your lines for response activity only.

Besides establishing communications at the scene, a site-based Incident Coordinator (Principal) should contact the district **INCIDENT MANAGEMENT TEAM** to discuss the level of support that might be needed. Depending on the incident, a decision will be made to activate a district-level response to coordinate activities at all affected sites. Communication with the district team should be maintained throughout the incident.

2. Identify the Danger Zone

As soon as possible, identify the exact location of the danger zone, the area posing a risk to lives and property. Sometimes it is not just confined to the physical location of the problem. In a hazardous materials incident such as a chemical spill, the danger zone would be the source of the leak plus the immediate area in the direction the chemical is traveling. On a windy day, the area exposed to vapors can be large.

Once the danger zone is established, take steps to limit the risk. No one should be allowed in or out of this area unless an evacuation is necessary. People caught in a danger zone are often better off sheltering in place for the short term. If they are safe where they are, it doesn't make sense to risk moving them.

MEDIA CRISIS COMMUNICATION PLAN

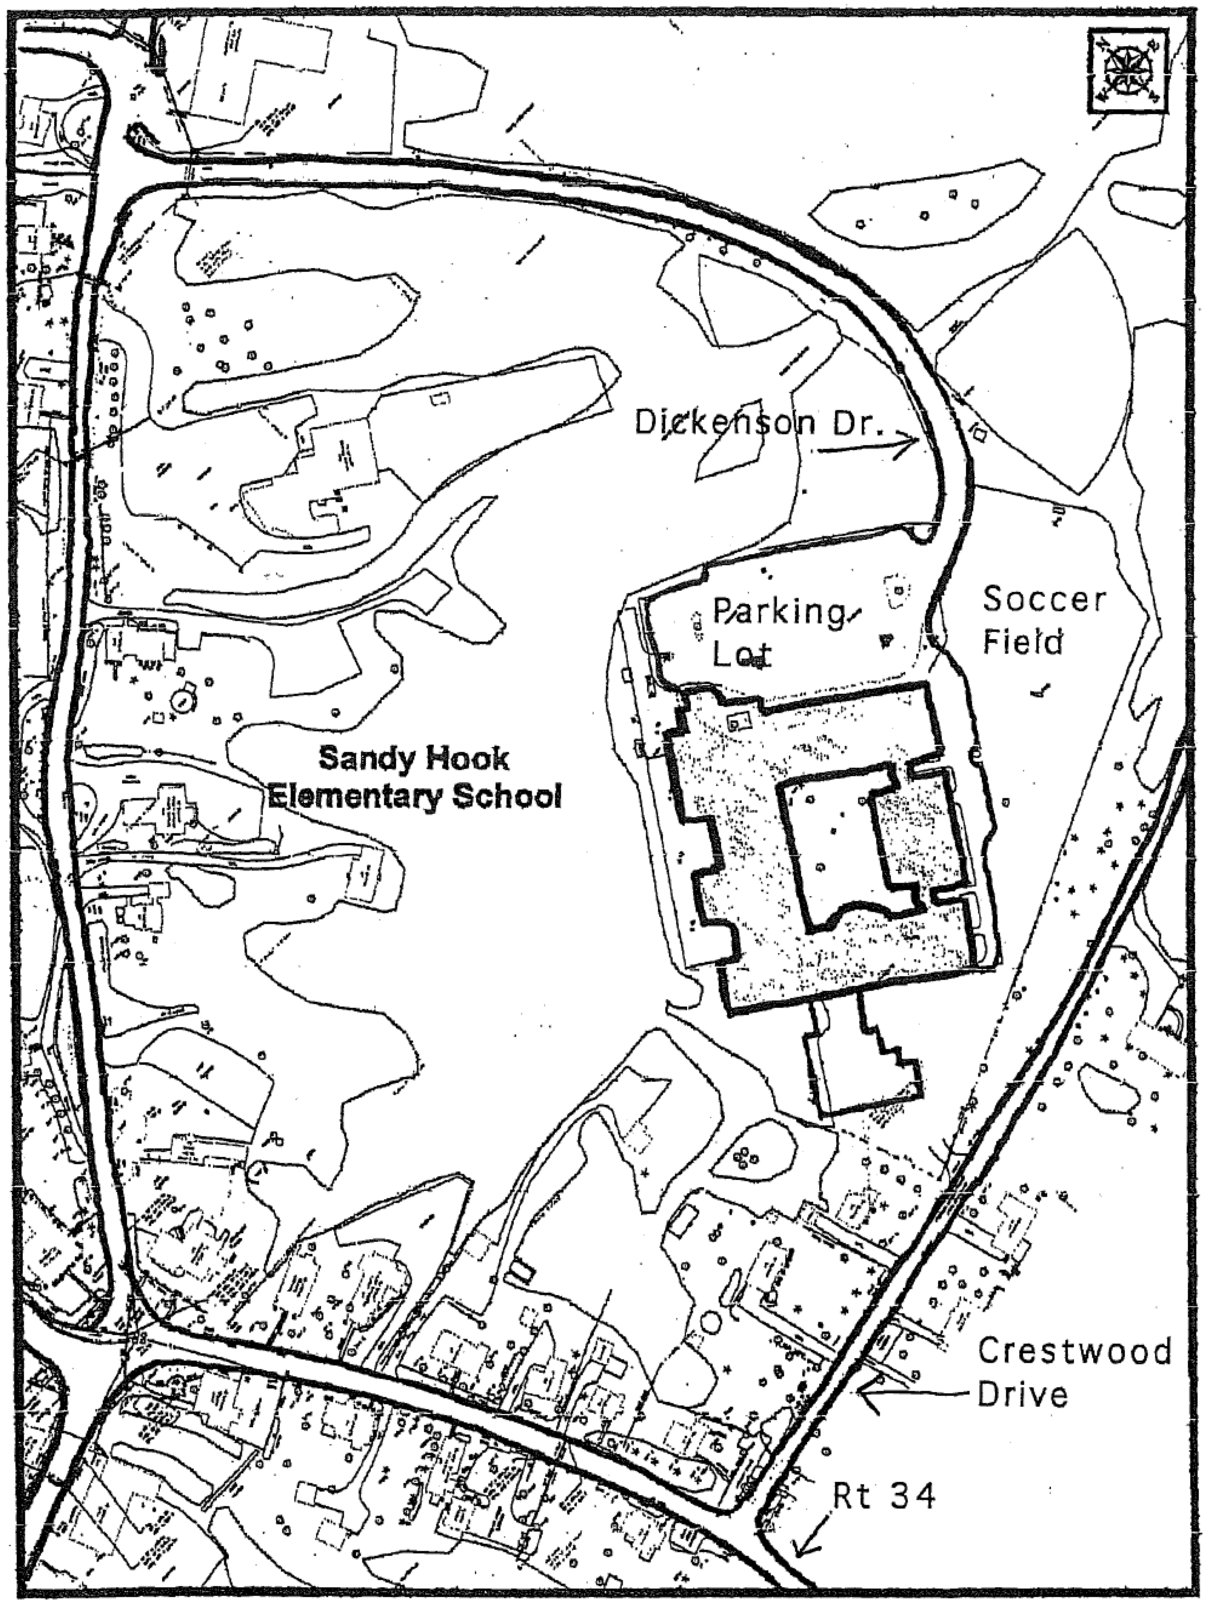

1. When a crisis occurs, the Superintendent or Assistant Superintendent should be notified and immediately obtain all the facts in concert with the building principal.
2. The Superintendent, Assistant Superintendent or their designee, the principal and others (e.g. police, fire and health officials), as needed, shall determine the action plan related to communicating the crisis and who shall be the one and only spokesperson.
3. A communication center shall be established that is isolated from the incident. Telephone lines to that office should be designated as the only lines to be used for communication purposes.
4. All issues should be reviewed such as: (a) How will the community be informed and to what degree? (b) What is the chain of communication? (c) Are there any legal considerations?
5. Once a plan has been established, all parties involved in the crisis should be informed.
6. The spokesperson is the only one to speak to and/or answer questions from the media and from the public.
7. In a crisis situation, a designated area will be identified for the media to be assigned (staging areas) until school officials can brief them.

The following list of suggestions can help increase the educational aspect of the TV, newspaper, radio or magazine stories surrounding a crisis and minimize the potential emotional dangers that inadequate reporting may promote. Principals may be asked to speak to the media after the initial crisis has been managed.

1. Set policies and make decisions regarding working with the media BEFORE the occurrence of an emotional event.
2. Direct all media inquiries to the Superintendent of Schools. This avoids confusion in times of crisis and ensures consistency in the information given to the media.
3. Insist that no media representatives are to be allowed on school grounds during school hours. Provide representatives with a time and place when information will be disseminated.
4. Use clear, simple, layman terminology so the readers or viewers can understand.
5. Avoid being defensive. Do not treat the interviewer as an adversary. Acknowledge the difficulty of the media's role and take the position of helpfulness. If you do not know the answer to a question, find out and call back, or put the interviewer in contact with another resource. Place media coverage high on your list of priorities and view it as an asset to your work.
6. Use caution if the interviewer requests to be put in contact with witnesses, alleged offenders, or survivors. Your first priority is to protect your students and minimize the traumatic effects of the crisis situation.
7. Make clear before being recorded or interviewed that you do not think it will be appropriate to discuss specific details of the event (particularly suicide or weapons-related deaths). Avoid sensationalizing. General information is more beneficial.
8. Describe the roles and support of your crisis team, staff members, or community members who were helpful during the initial crisis response.
9. Do not insist on seeing questions ahead of the interview or editing the final copy. The media will only use what fits the purpose, theme or time frame of their medium.

COMMENTS

Our most basic responsibility is to work diligently to ensure the safety of our students and staff. This Emergency Response Plan is part of our efforts to meet this responsibility and is to be used as a guide responding to various situations.

While not every crisis can be anticipated and a response scripted, we can have in place these guidelines for action steps. This brochure is designed to be user friendly and should be kept in a location that can be quickly accessed by staff. Action Taken:

On Friday, December 14, 2012 at approximately 0935 hours, the Newtown Police Department received a 911 call reporting an active shooter at the Sandy Hook Elementary School located at 12 Dickinson Drive Newtown, CT. Law enforcement officers responded immediately and discovered numerous school children and school personnel deceased from apparent gunshot wounds. A white male wearing military style clothing was located deceased on a classroom floor. The deceased white male was in possession of several handguns and a military style assault weapon. A 2010 black Honda Accord bearing CT registration plate 872YEO was parked unoccupied in the fire lane in front of the school. The registered owner of the vehicle is Nancy J. Lanza DOB [redacted]-1960 of 36 Yogananda Street Sandy Hook, CT. As a result law enforcement officers including the Connecticut State Police Emergency Services Unit (E.S.U.) responded to 36 Yogananda Street Sandy Hook, CT to investigate.

Members of The Connecticut State Police E.S.U. arrived at 36 Yogananda Street Sandy Hook, CT. Upon E.S.U. arrival all doors were found locked at the residence. Forced entry was made by members of the E.S.U. team. At that time an adult white female, tentatively identified as Nancy J. Lanza DOB [redacted]-1960 was located deceased in the second floor master bedroom (E.S.U. report to follow). It appeared she had sustained at least two gunshot wounds to the head while lying in the bed. The scene was then secured as a crime scene. Newtown Police and the Federal Bureau of Investigation maintained the scene security.

At approximately 1510 hours Eastern District Major Crime Squad (EDMCS) Detectives were assigned to investigate the murder at 36 Yogananda Street Sandy Hook, CT. A search warrant application was prepared and submitted for the residence by Detectives James McGlynn and Scott Wisner of the Connecticut State Police Central District Major Crime Squad (CDMCS). At approximately 1729 hours the search warrant was approved and issued by the Honorable Judge John F. Blawie.

On December 14, 2012 at approximately 1945 hours EDMCS began the search of the scene located at 36 Yogananda Street Sandy Hook, CT. The scene was documented by digital video, digital images and a sketch map (supplemental reports to follow). Detectives searched the residence and seized numerous items to include a Savage Arms .22 caliber rifle near the deceased, spent shell casings, Blood Like Substance, electronic items, papers, ammunition, an Enfield 303 Rifle and empty handgun and long gun cases. During that search members of the Federal Bureau of Investigation- Behavioral Analysis Unit entered the scene to obtain items for their investigation. Supervisory Special Agent Molly Amman and her team removed four boxes and one paper bag of items from various locations in the residence for their investigation. Alcohol, Tobacco and Firearms agents Dawn Dodsworth and Daniel Futrell entered the scene and obtained information on the firearms located in the residence. At approximately 0335 hours the deceased female was removed from the residence by Connecticut Trade Service and transported to the Office of Chief Medical Examiner at 11 Shuttle Road Farmington, CT for post-mortem examination. At approximately 1530 hours on December 15, 2012 the search was suspended and Newtown Police and mutual aid officers maintained scene security.

Review of Electronic Evidence

On August 2, 2013 members of the Western District Major Crime Squad (WDMCS) received a Western Digital 320GB hard drive bearing serial number 000001D919A0 from the FBI. This drive contained forensic image files of certain pieces of electronic evidence seized from 36 Yogananda Street in Newtown, CT by members of the Connecticut State Police (CSP) pursuant to a search and seizure warrant. The CSP exhibits had been turned over to the FBI where the contents of each item were forensically imaged onto the Western Digital hard drive for further examination and analysis. This hard drive was then placed into an I/O Magic USB Enclosure to allow the imaged files to be viewed. Contained on the Western Digital drive are six (6) forensic image files that correspond with six CSP exhibits.

This Western Digital hard drive was assigned exhibit number 374 under case number CFS-12-00704559. Five of the six forensic image files were reviewed by members of the Western District Major Crime Squad at the request of State's Attorney Stephen Sedensky to determine if there were any items of evidentiary value located in them. The results of that review are detailed in the attached PDF document titled "Review of Electronic Evidence." The Western Digital drive was then submitted to the Connecticut State Police Forensic Science Laboratory Computer Crimes & Electronic Evidence section because the remaining forensic image file was unable to be viewed using the equipment/software available to WDMCS detectives. A separate report detailing the findings from the examination of that image file will be forthcoming from the Computer Crimes & Electronic Evidence section.

Refer to attached PDF document "Review of Electronic Evidence" for further details.

ACTION TAKEN:

On 08/16/13, I was assigned to review documents returned from the FBI-Behavioral Analysis Unit. A review of box #3 of 5 boxes revealed a spiral bound booklet called "The Big Book of Granny", which appeared to be created by the shooter and [redacted]. The book is bound in a black plastic spiral binding and covered on the front and back with a clear plastic sheeting. The book starts with a list of 85 Granny Jokes. All of the jokes are degrading statements beginning with "Granny!......."

Following 3 pages of Granny Jokes, the book lists "Granny Products of the Future", which includes advertisements for Granny Action Figure, Granny Action Figure 2, Granny Action Figure 3, Granny Action Figure 4, Granny Action Figure 5, Granny Action Figure Set (includes all 5 Granny Action Figures), Gran Spam, Granny Oats and Granny's Granny. Each of the products is described in an advertisement format with monetary cost and phone number to call to order.

The next section of the book is labeled as "Granny's Clubhouse of Happy Children." This section is a typed dialog from an imaginary TV show. The main characters feature Granny, her son "Bobolicious" and several children. In the show, Granny and Bobolicious are talking to the group of children as if in a group. In the first episode, Granny punches one boy in the face, throws a match and causes an explosion and threatens to shoot and kill the children. The second episode, Granny's Clubhouse of Happy Children 2, starts out with Bobolicious speaking to the children. Bobolicious said "Hi! I'm Bobolicious the Explorer..... Remember last time when everyone was slaughtered!? Well...You bread-brain leeches gave me 75 years of prison for that so called "Tragedy"! I was having fun!" The third and final episode, Granny's Clubhouse of Happy Children 3, introduces two new characters, Dora the Beserker and her monkey, Shoes. Bobolicious says that they are going to play a game of "Hide and go Die."

STATE OF CONNECTICUT, DEPARTMENT OF PUBLIC SAFETY- INVESTIGATION REPORT (DPS-302-E) (REVISED 2/3/06)

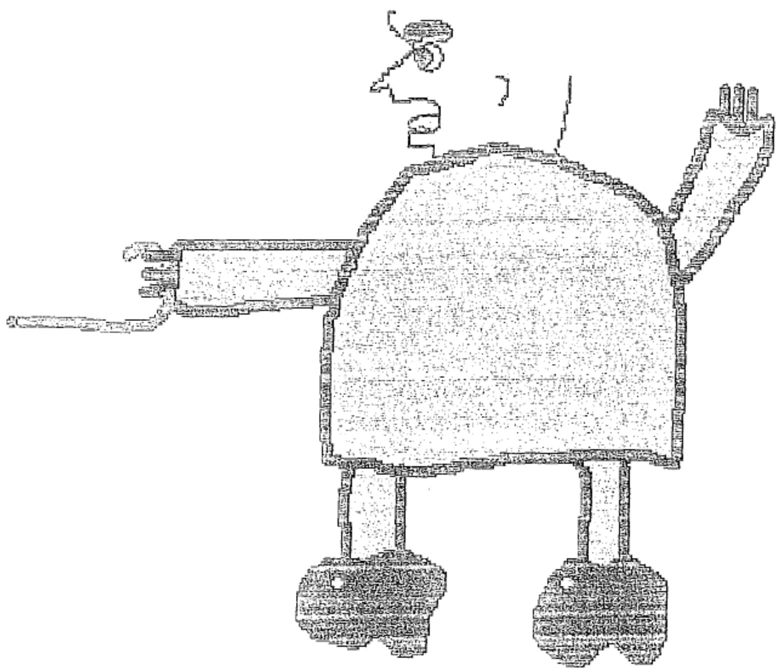

The next section of the book is labeled "Adventures of Granny." There are eight chapters labeled "The Adventures of Granny" through "The Adventures of Granny 8." All eight chapters are dialog between Granny and another character identified as Granny's Son with various persons added in. In the first chapter, Granny and Granny's Son rob a bank, Granny shoots people with her rifle cane, and then blows up the bank with dynamite. After the robbery, Granny's Son shoots Granny in the head with a shotgun. In the second chapter, Granny and Granny's Son go on a boat ride. Granny falls out of the boat and Granny's Son throws her a cement floatation device which forces her to sink to the bottom of the ocean. In the third chapter, Granny and Granny's Son try to capture a boy and stuff him, to put on the mantle. Granny kicks the boy into the fireplace and he begins to burn. The boy jumps out of the fire and Granny punches him in the face. Then Granny shoots at him three times with her rifle cane and misses him. Granny then throws a Granny Action Figure to the boy. The boy gets distracted and the action figure comes alive and shoots the boy. Granny's Son says "Yay! Now we can hang it!" In chapter four, Granny and Granny's Son go to a hockey game. Granny goes onto the ice and punches one of the players and then shoots him with her rifle cane. After the hockey game, Granny and Granny's Son go to Duchess restaurant to eat. In chapter five, Granny goes to Marine boot camp and meets up with Dora the Beserker and Swiper the Raccoon. Granny asks Dora if she would assassinate a soldier at midnight and Dora agrees to do it. Dora says " I like hurting people...Especially children..." Granny then shoots multiple people with her rifle cane. When Granny escapes boot camp and goes home to Granny's Son, she tells him that she left boot camp because she killed the entire Marine legion. In chapter six, Granny and Granny's Son are picked up from the side of the road by Dora the Beserker. Dora tells Granny that she can take her wherever she needs to go, after they go to the daycare center. When they arrive at the daycare center, Dora sends Swiper the Raccoon inside to distract the children. Then Dora enters and says "Let's hurt children." In chapter seven, Granny and Granny's Son go to visit Dora the Beserker. Dora takes them on an adventure to find Drunk. In the adventure, they encounter a rooster and have to call upon their bag to get a shotgun. In their bag is a handgun, AK-47, M-16, rifle, rocket launcher, musket and a shotgun. Dora uses the shotgun to shoot the rooster and Swiper the Raccoon. Later in the adventure, Dora accidentally shoots her monkey, named Shoes, Lenny the Cow and Tico the Chipmunk. Dora eventually gets arrested for possession of 6 guns and murdering 4 animals. In chapter 8, Granny and Granny's Son use a time machine to go back in time. In their travels, they meet The Beatles. Granny kills all of The Beatles and says that she kills every bug she sees. Granny and Granny's Son get arrested and sentenced to 75 years in jail for killing The Beatles. (See attached copy of the cover of The Big Book of Granny)

SUPPLEMENTAL REPORT: EXAMINATION OF GPS (GARMIN NUVI 200)

I was tasked with examining the GPS (Garmin Nuvi 200) unit seized from the residence of 36 Yogananda St. The GPS was originally seized via search warrant by the Eastern District Major Crime Squad (EDMC). The EDMC turned the GPS (Item #58 seized under case # 12-00705354) over to the FBI for extraction. Special Agent Rovelli extracted the information into a readable source and that information was provided to me. I burned the information onto a CD-R and labeled it as State Police exhibit #343 under case number 12-00704559.

On 02/14/2013, at approximately 1647 hours, I contacted Garmin and spoke with Customer Service Representative Rachele (ph.). Rachele explained that the Garmin Nuvi 200 obtains its time via satellite and cannot be manipulated by an individual. Therefore, the times depicted throughout this report represent an accurate time stamp.

The following information was gleaned from the "journey" entries within the extraction report. The information taken from the "journey" is specific to latitude and longitude which I applied to Bing maps for locations. (See attached CD of journeys and maps). In applying the latitude and longitude into Bing maps, I inserted a location for every 2 minutes. Areas of interest, specifically school locations throughout Newtown that the GPS had a close proximity to, I checked every latitude and longitude in that specific time frame to ensure the GPS did not enter the schools.
